Men Who Sell Sex Peter Aggleton, 1999 While much is known about prostitution and sex work from studies of female sex workers and their customers relatively little is known about men who sell sex either to women or other men Particularly poorly understood are their motivations for doing so the circumstances in which the sale of sex occurs the meanings attached to the acts by both sex worker and client and the HIV related risks involved Each chapter written by a national expert is based on months and even years of interviews with male sex workers including young boys and elderly men in some countries The workers discuss why they do the work what it is like and what their behavior means to them For example those who have regular sex with men often strenuously affirm their heterosexuality though there is considerable variety in their attitudes Each chapter relates the experiences of the male sex workers to the political economy of their neighborhood and assesses the implications of their work for HIV transmission and the AIDS epidemic The researchers and the sex workers discuss the value of different kinds of health promotion interventions

Men's Changing Roles in the Family Robert A Lewis, Marvin B Sussman, 2014-05-01 How are men reacting to perceiving and behaving in light of the changes in gender roles Here is an important volume that provides new and interesting reading about contemporary husbands and fathers Men s Changing Roles in the Family offers an overview of the causes and consequences of changes in men s family roles in recent decades Experts introduce you to the issues problems and methods on the cutting edge of those disciplines that study men in the context of their families Until now relatively little has been known empirically about men in contemporary families and even less has been known about husbands and fathers from direct reports of the men themselves This groundbreaking volume successfully closes this gap in the literature with an examination of the effects that fathers growing involvement with their children have on their wives and themselves a clinical assessment of some men s angry reactions to separation and divorce and those special therapeutic goals and strategies that may help reduce their distress examinations of the conflicting demands of the work world and the family upon some contemporary husbands and fathers and the negative effects of nonstandard work schedules upon men s family life and an examination of factors that make many men unhappy in patriarchal family structures Men s Changing Roles in the Family also contributes toward breaking new ground by examining family roles now performed by special groups of men Finally this important volume reports empirical findings about men in family like relationships illustrating evidence for the unique roles that male caregivers can offer children in day care centers and reviewing current empirical studies of men s friendships and their development
