Metropolis Now Urban Cultures In Our Global Cities:

Metropolis Now! Ramesh Kumar Biswas, 2000 This critical interdisciplinary look at life in metropolitan centers portrays seventeen cities on four different continents Contributors analyze both their economic and social realities as well as their identity recent history and immediate future and the radical transformation in their physical forms **The Creative Capital of Cities** Stefan Krätke, 2012-05-03 This book challenges the new urban growth concepts of the creative class and creative industries from a critical urban theory perspective Critiques Richard Florida's popular books about cities and the creative class Presents an alternative approach based on analyses of empirical research data concerning the German urban system and the case study regions Hanover and Berlin Underscores that the culture industry takes a leading role in conforming with neoliberal conceptions of labor markets The Cambridge Companion to the Literature of London Lawrence Manley, 2011-08-18 This book offers a variety of approaches to the topic of London in English literature from the Middle Ages to the present Cities And Urban Cultures Stevenson, Deborah, 2003-04-01 Explores cities and urban life from the perspectives of both sociology and cultural theory Through an interdisciplinary approach the book demonstrates that the real city of physicality and struggle and the imagined city of representations are entwined in the construction of urban cultures *Mega-event Cities: Urban Legacies of Global Sports Events* Valerie Viehoff, Gavin Poynter, 2016-03-02 Mega events represent an important moment in the life of a city providing a useful lens through which we may analyse their cultural social political and economic development In the wake of the International Olympic Committee's IOC's concerns about gigantism and wider public concerns about rising costs it was imperative in the 21st to demonstrate the long term benefits that arose for the city and nations from hosting premier sporting events London 2012 was the first to integrate the concept of legacy from the moment a bid to host the Olympic and Paralympic Games was being considered London proposed an ambitious programme of urban renewal for East London Subsequent host city bids have adopted the legacy narrative and as this book demonstrates aligned this to major schemes of urban development and renewal Bringing together scholars practitioners and policy makers this book focuses upon the legacies sought by cities that host major sports events It analyses how governments the IOC and others define and measure legacy It also focuses upon the challenges and opportunities facing future host cities of mega events looking at their aspirations and the intended impact upon their domestic and international development It questions what the global shift in geographical location of mega events means for sports development and the business of sport what the attractions are for cities seeking to harness the hosting of a mega event and whether there may be longer term consequences for the bidding and hosting major sporting events in the wake of the widespread social unrest that accompanied the preparations in Brazil for hosting the FIFA World Cup 2014 and the summer Olympics 2016 and in Turkey where there was significant opposition to bid for the 2020 summer Olympiad *The Global Cities Reader* Neil Brenner, Roger Keil, 2006 This book contains fifty selections from classic writings by authors such as John Friedmann Michael

Peter Smith Saskia Sassen Peter Taylor Manuel Castells and Anthony King as well as major contributions by other international scholars of global city formation The State of the World's Cities 2004/2005 ,2004 As towns and cities expand at unprecedented rates sustainable urban development is one of the most pressing challenges facing the international community in the 21st century This publication examines the realities faced by urban populations around the world focusing on the impact of globalisation and the way cities are governed and planned on the make up and density of their population and on their cultures and economies Issues considered include the impact of globalisation on urban culture urban renewal and cultural strategies the concept of metropolitanization socio economic and cultural impacts of international migration urban poverty and homelessness social inequality and exclusion urban governance safety and crime trends contemporary planning strategies and the role of civil society progress towards attainment of the Millennium Development Goals targets for sanitation and housing The report highlights the need for a new culture of planning to establish multicultural and inclusive cities involving civil society as well as public authorities DiverCity - Global Cities as a Literary Phenomenon Melanie U. Pooch,2016-02-15 Based on the structured analysis of selected North American novels this work examines global cities as a literary phenomenon DiverCity By analyzing Dionne Brand s Toronto What We All Long For 2005 Chang rae Lee s New York Native Speaker 1995 and Karen Tei Yamashita s Los Angeles Tropic of Orange 1997 Melanie U Pooch provides the connecting link for exploring the triad of globalization and its effects global cities as cultural nodal points and cultural diversity in a globalizing age as a literary phenomenon Thus she contributes to a global interdisciplinary and multi perspectival understanding of literature culture and society *Everyday Lives in the Global City* Jörg Dürrschmidt,2013-04-15 Rejecting simplifying notions of globalisation as a macro economic force this book provides a grounded picture of the various ways in which people s biographies are tied up with the global cultural economy The main argument of the book is that the globalisation of lives is experienced by people as the extension of their milieux both spatially and symbolically **The Making of Hong Kong** Barrie Shelton,Justyna Karakiewicz,Thomas Kvan,2013-03-01 This book investigates what the history of Hong Kong s urban development has to teach other cities as they face environmental challenges social and demographic change and the need for new models of dense urbanism The authors describe how the high rise intensity of Hong Kong came about how the forest of towers are in fact vertical culs de sac and how the city might become truly volumetric with mixed activities through multiple levels and 3D movement networks incorporating town cubes rather than town squares For more information visit the authors website <http://www.makingofhk.com> [makingofhk.swf](http://www.makingofhk.swf)
