Metropolitan Desegregation:

Metropolitan Desegregation Robert Green, 2013-11-11 Most of the findings in this book are based on the work of a team of researchers from Urban Affairs Programs at Michigan State University From 1976 to 1981 the team observed the progress of school desegregation in metropolitan Wilmington Delaware which encompasses New Castle County The project was made possible by a grant from the Rockefeller Foundation Division of Social Sciences Metropolitan desegregation is a strategy deserving of national attention because this country's black population has become increasingly concentrated within central cities Desegregation solutions must be found that encompass America's white suburbs as well as its urban areas In a 1977 statement the U S Commission on Civil Rights called metropolitan school desegregation the last frontier to be crossed in the long judicial effort to make equal educational opportunity a living reality Moreover the National Task Force on Desegregation Strategies concluded in 1979 The simple demographic fact is that many large city school districts cannot desegregate by themselves For children in such districts the best hope for attending a desegregated school lies in the implementation of metropolitan desegregation strategies i e desegregation plans which do not stop at the city line but rather encompass at least some of the surrounding suburban areas p 1 The Michigan State University research team began its investigation in New Castle County Delaware after a three judge federal district court ruled that area schools were illegally segregated between districts *Milliken V. Down Genevieve Siegel-Hawley, 2016-04-12 How we provide equal educational opportunity to an increasingly diverse highly urbanized student population is one of the central concerns facing our nation As Genevieve Siegel Hawley argues in this thought provoking book within our metropolitan areas we are currently allowing a labyrinthine system of school district boundaries to divide students and opportunities along racial and economic lines Rather than confronting these realities though most contemporary educational policies focus on improving schools by raising academic standards holding teachers and students accountable through test performance and promoting private sector competition Siegel Hawley takes us into the heart of the metropolitan South to explore what happens when communities instead focus squarely on overcoming the educational divide between city and suburb Based on evidence from metropolitan school desegregation efforts in Richmond Virginia Louisville Kentucky Charlotte Mecklenburg North Carolina and Chattanooga Tennessee between 1990 and 2010 Siegel Hawley uses quantitative methods and innovative mapping tools both to underscore the damages wrought by school district boundary lines and to raise awareness about communities that have sought to counteract them She shows that city suburban school desegregation policy is related to clear measurable progress on both school and housing desegregation Revisiting educational policies that in many cases were abruptly halted or never begun this book will spur an open

conversation about the creation of the healthy integrated schools and communities critical to our multiracial future

Desegregating Chicago's Public Schools Dionne Danns, 2014-01-15 Highlighting the processes and missteps involved in creating and carrying out school desegregation policies in Chicago Dionne Danns discusses the challenges of using the 1964 Civil Rights Act to implement school desegregation and the resultant limitations and effectiveness of government legislative power in bringing about social change **Milliken V. Bradley--the Implications for Metropolitan**

Desegregation, 1975 *School Desegregation in Metropolitan Areas*, 1977 **The Containment** Michelle Adams, 2025-01-14 Splendid Adams's book explores class as well as race with a richness and sophistication that recall J Anthony Lukas's 1985 masterpiece *Common Ground* Jeffrey Toobin *The New York Times Book Review* Passionate and well researched Louis Menand *The New Yorker* The epic story of Detroit's struggle to integrate schools in its suburbs and the defeat of desegregation in the North In 1974 the Supreme Court issued a momentous decision In the case of *Milliken v Bradley* the justices brought a halt to school desegregation across the North and to the civil rights movement's struggle for a truly equal education for all How did this come about and why In *The Containment* the esteemed legal scholar Michelle Adams tells the epic story of the struggle to integrate Detroit schools and what happened when it collided with Nixon appointed justices committed to a judicial counterrevolution Adams chronicles the devoted activists who tried to uplift Detroit's students amid the upheavals of riots Black power and white flight and how their efforts led to federal judge Stephen Roth's landmark order to achieve racial balance by tearing down the walls separating the city and its suburbs The metropolitan remedy could have remade the landscape of racial justice Instead the Supreme Court ruled that the suburbs could not be a part of the effort to integrate and thus upheld the inequalities that remain in place today Adams tells this story via compelling portraits of a city under stress and of key figures including Detroit's first Black mayor Coleman Young and Justices Marshall Rehnquist and Powell The result is a legal and historical drama that exposes the roots of today's backlash against affirmative action and other efforts to fulfill the country's promise *Milliken V. Bradley* United States Commission on Civil Rights, Frederick B. Roth, 1975 **Milliken V. Bradley** United States. Civil Rights Commission, 1974
