Metropolitan Museum Journal Volume 28 1993:

China and England Martin Powers, 2018-09-24 This book examines egalitarian social ideals and institutions that arose in preindustrial China and England and in the process uncovers China's forgotten role in the history of social justice debate and legislation during the eighteenth century Drawing on a wide range of visual and documentary evidence the author shows that many prominent individuals in both England and China adopted comparable strategies as a logical response to excesses of privilege and arbitrary power with educated but non noble persons taking advantage of print culture a more literate population an expanded art market public spaces and other familiar early modern developments to interrogate the system of inherited privilege and promote a more meritocratic society This shared experience created common ground for transformative exchange between the two great traditions during the eighteenth century By providing a more global account of what we call Western values the book shows that early modern China and England had far more in common than is normally supposed and thus challenges claims on the right and the left that the people of China lacked a concept of social justice and that China's cultural legacy should be treated as exceptional in regard to human rights **The Idea of Europe and the Origins of the American Revolution** D. H. Robinson, 2020 In this path breaking new history of early America the imperial crisis and the American Revolution D H Robinson traces the formative impact of ideas about Europe and Europeanness on British American politics and identity touching on everything from international relations and nationalism to news media and poetry Art Journal ,1960 **Making Modern Japanese-Style Painting** Chelsea Foxwell, 2015-07-20 The Western discovery of Japanese paintings at nineteenth century world's fairs and export shops catapulted Japanese art to new levels of international popularity With that popularity however came criticism as Western writers began to lament a perceived end to pure Japanese art and a rise in westernized cultural hybrids The Japanese response nihonga a traditional style of painting that reframed existing techniques to distinguish them from Western artistic conventions Making Modern Japanese Style Painting explores the visual characteristics and social functions of nihonga and traces its relationship to the past its viewers and emerging notions of the modern Japanese state Chelsea Foxwell sheds light on interlinked trends in Japanese nationalist discourse government art policy American and European commentary on Japanese art and the demands of export The seminal artist Kano Hogai 1828-88 is one telling example originally a painter for the shogun his art eventually evolved into novel eerie images meant to satisfy both Japanese and Western audiences Rather than simply absorbing Western approaches nihonga as practiced by Hogai and others broke with pre Meiji painting even as it worked to neutralize the rupture By arguing that fundamental changes to audience expectations led to the emergence of nihonga a traditional interpretation of Japanese art for a contemporary international market Making Modern Japanese Style Painting offers a fresh look at an important aspect of Japan's development into a modern nation **Annual Report of the Trustees** Metropolitan Museum of Art (New York, N.Y.), 1995 The ... Brunson,2016-09-10 One fall evening in 1880 Russian painter Ilya Repin welcomed an unexpected visitor to his home Lev Tolstoy The renowned realists talked for hours and Tolstoy turned his critical eye to the sketches in Repin s studio Tolstoy s criticisms would later prompt Repin to reflect on the question of creative expression and conclude that the path to artistic truth is relative dependent on the mode and medium of representation In this original study Molly Brunson traces many such paths that converged to form the tradition of nineteenth century Russian realism a tradition that spanned almost half a century from the youthful projects of the Natural School and the critical realism of the age of reform to the mature masterpieces of Tolstoy Fyodor Dostoevsky and the paintings of the Wanderers Repin chief among them By examining the classics of the tradition Brunson explores the emergence of multiple realisms from the gaps disruptions and doubts that accompany the self conscious project of representing reality These manifestations of realism are united not by how they look or what they describe but by their shared awareness of the fraught yet critical task of representation By tracing the engagement of literature and painting with aesthetic debates on the sister arts Brunson argues for a conceptualization of realism that transcends artistic media Russian Realisms integrates the lesser known tradition of Russian painting with the familiar masterpieces of Russia s great novelists highlighting both the common ground in their struggles for artistic realism and their cultural autonomy and legitimacy This erudite study will appeal to scholars interested in Russian literature and art comparative literature art history and nineteenth century realist movements The Robert Lehman Collection, Volume XV: European and Asian Decorative Arts ,1987 *German Paintings in the Metropolitan Museum of Art, 1350-1600* Maryan W.
