Understanding U.S. Military Conflicts through Primary Sources James R. Arnold,Roberta Wiener,2015-11-12 An easily accessible resource that showcases the links between using documented primary sources and gaining a more nuanced understanding of military history Primary source analysis is a valuable tool that teaches students how historians utilize documents and interpret evidence from the past This four volume reference traces key decisions in U S military history from the Revolutionary War through the 21st century conflicts in Afghanistan and Iraq by examining documents relating to military strategy and national policy judgments by U S military and political leaders A comprehensive introductory essay provides readers with the context necessary to understand the relationship between diplomatic documents military correspondence and other documentation related to events that shaped warfare diplomacy and military strategy Once the stage is set the work covers 14 conflicts that are significant to U S history Treatment of each of the conflicts begins with a historical overview followed by a chronology and approximately 30 primary source documents presented in chronological order Each document is accompanied by a description and annotations and by an analysis that highlights its importance to the event or topic under discussion Designed for secondary school and college students the work will be exceptionally valuable to teachers who will appreciate the ready made lessons that fit directly into core curriculum standards **The Texas Revolution and Mexican-American War** Charles River Editors,2025-05-04 When various revolutions mostly forced the Europeans out of the continent Texas ceased to belong to Spain and France to become a part of the Mexican Empire later it was an independent country and currently one of the 50 states of the United States During a short period rebellious Texas again separated from the U S to join the Confederate States of America with other secessionist states Of course the most important war of all for Texas came in the early 19th century and the common story heard in America is about rebellion against intolerance oppression and Mexican cruelty The Battle of the Alamo in particular surrounded by legend and testimonies of heroism is a textbook example of the fight for freedom comparable to the Jewish defenders during the Roman siege at Masada The words martyrs and Mexican tyranny are almost always present in the recounts and Remember the Alamo is both a slogan of self glorification and martyrdom that remains one of the most famous phrases in America Naturally this typical account is portrayed through rose colored glasses As in every story everything depends on which side readers are positioned and whose histories they re reading The Texas Revolution certainly pursued freedom but not for the tired poor and huddled masses yearning to breathe free the homeless or the wretched refuse of alien shores it was rather the freedom to

suck in land from a weak country and to preserve slavery in the cotton fields added to enthusiasm for cheap land and inexhaustible natural resources The policy of manifest destiny increased tensions with Mexico in the 1840s Mexico's northern half formed the western border of the territory bought in the Louisiana Purchase Naturally notions of the United States expanding to the Pacific Ocean alarmed Mexico which held what is today the west coast of the United States However Mexico first came to regard American expansion as a serious problem with the immigration of Americans into its northeastern territory These Americans declared independence from Mexico and created a nation in the Mexican province of Texas After winning independence in 1836 Texas became an independent republic Texas formally asked to be annexed by the United States in 1845 This annexation angered the Mexican government which still considered Texas to be part of its territory Mexico had previously warned that the annexation of Texas would cause Mexico to declare war on the United States When the annexation bill was passed by Congress it included an additional provocation to Mexico it claimed that the southern border of Texas was the Rio Grande The actual territory controlled by the Republic of Texas did not extend nearly to the Rio Grande and this border would represent a further loss of territory to the United States When a Mexican patrol attacked American cavalry in the disputed area north of the Rio Grande President Polk went to Congress for a declaration of war The declaration passed on May 13 1846 The war against Mexico was unpopular with the opposition Whig party especially in the North Opponents of the war denounced it as a war of aggression and denied that there had been a valid reason for war Small American military units were quickly able to occupy key points in California including San Francisco and Los Angeles Although California was sparsely populated some Mexican inhabitants formed an effective resistance which was eventually put down in 1847 by American reinforcements Subsequently a larger American army was sent to invade central Mexico and managed to capture the Mexican capital Mexico City on September 13 1847 Although a large Mexican army was still fighting American forces in northeast Mexico and Texas news of the capital falling caused it to retreat to try to retake the capital After the defeat of the last Mexican army major hostilities ended
