Murder Of Honor:

Murder in the Name of Honour Rana Husseini, 2009-05-01 Murder in the Name of Honour is Rana Husseini's hard hitting and controversial examination of honour crimes Common in many traditional societies around the world as well as in migrant communities in Europe and the USA they involve a punishment often death or disfigurement carried out by a relative to restore the family's honour Breaking through the conspiracy of silence surrounding this crime one writer above all others has been instrumental in bringing it to the world's attention Rana Husseini **The Real Stories behind Honour Killing**

Shahnaz Shoro, 2019-03-01 Honour killing as it is widely understood is the cold blooded murder of a woman or a man involved with her by the male members of her household in order to cleanse the reputation of the family clan community or tribe This violent tradition in the name of religion custom and culture continues to be carried out in a significantly large part of the world The majority of people still believe that honour killings happen for reasons such as marriage from choice or a love affair of a kinswoman rape a demand for divorce from a woman or the birth of a female child all of which are perceived as bringing shame on the family However current research on honour killing suggests that there are a number of intriguing and very cleverly knitted plots of jealousy greed violence and murder which show that in the name of honour various other purposes are being served and people are killed in ways which give the impression that they are honour killings By collecting data from people involved in such situations this book opens a Pandora's box showing that such killings are carried out not to assuage the hurt honour of a patriarchal society but to serve a variety of malign intentions goals and agendas It will serve to let the world comprehend the phenomenon of honour related violence where culture and crime unite under the umbrella of highly discriminating laws against women This book consists of twenty six testimonies from those involved in honour killings bringing together interviews with killers victims and the falsely accused **Criminological Analyses on Global Honor Killing**

Dhamija, Somesh, Yadav, Tarun Pratap, Lee, Jae-Seung, Singh, Harshita, Roh, Myunghoon, 2024-10-03 Honor killing is mainly practiced in South Asian Middle East and Arab countries but it has global ramifications as citizens migrate to Western European countries and North America Honor killings and honor related crimes often diminish women's dignity and the achievements of feminist movements along with other citizens along the gender spectrum The socio psychological issues of honor killings influence further study into gender and sexuality diversity culture and population criminology and law A comparative study of the laws of various countries related to honor killing may help showcase the descent of caste and religious prejudices across generations Criminological Analyses on Global Honor Killing analyzes the impact of honor based crimes around the world The book explores the ideology behind honor killing as well as the role of patriarchal societies in enhancing the crime It also covers socio cultural based influences while further understanding the complexity of family dynamics class conflicts and immigration in relation to this crime This book covers topics such as criminology feminism and sociology and is a useful resource for criminologists historians policymakers government officials theologians feminists
