New Country

**Signe Boeskov, Jonathan Finch, Mikael
Frausing**

New Country:

Russian Diaspora Ludmila Isurin, 2011 The book presents a broad interdisciplinary perspective on the contemporary Russian immigration to three countries the United States Germany and Israel The changes and transformations in three domains i e cultural perception self identification and attitudes to first language maintenance are explored through the Acculturation Framework that allows bringing together these essential aspects of immigration A separate look at Jewish and Russian ethnic groups within the so called Russian immigration as well as its interdisciplinary nature sets this book apart from other studies on recent immigration from the former USSR **Environmental Health Perspectives** ,1983

Diaspora by Design Haideh Moghissi, Saeed Rahnema, Mark Goodman, 2009-02-14 Few groups face as many misconceptions within their new countries as do Muslim immigrants This book challenges the common misperceptions of Muslim immigrants as a homogeneous religiously driven group and identifies the tensions they experience within their host countries A comparative multi ethnic study based on over two thousand interviews Diaspora by Design examines Muslim populations that have settled in Canada Britain Iran and Palestine Utilizing hard socio economic data as well as qualitative analysis the authors show the remarkable diversity and divisions between Muslim immigrant populations along urban rural cultural class and gender lines They argue that integration is a two way exchange that requires a readiness on the part of the host society to remove barriers that prevent the full social and economic participation of immigrant populations Extensively researched and thoughtfully provocative Diaspora by Design is a much needed work that provides an accurate and dynamic depiction of the lives of Muslim immigrants away from their homelands **Estate Landscapes in Northern Europe** Signe Boeskov, Jonathan Finch, Mikael Frausing, 2019-07-01 Estate Landscapes in Northern Europe is the first study of the role of the landed estate as an agent in the shaping of landscapes and societies across northern Europe over the past five centuries Leading us into the fascinating variations of manorial worlds the present volume seeks to open the field to include a broader perspective on estate landscapes Estate or manorial landscapes were distinctive elements within the historic landscape and created their own character Marked by larger scale fields associated with the home or demesne farm as well as a higher proportion of woodland and timber trees the landscapes reflected the scale of the resources available to the landowner and the control they exerted over the local communities But they also represented the performative aspects of life for the elite such as their engagement with hunting While existing works have tended to emphasize the economic and agricultural aspect of estate landscapes this volume draws out the social cultural and political impact of manors and estates on landscapes throughout northern Europe The chapters provide insights into a broad range of histories such as the social worlds of burghers and nobility in the Dutch Republic or the relationship between the distribution of land and the agitation for electoral reform in nineteenth century England Elsewhere in Scandinavia the impact of the reformation and conquest in Norway is balanced against the continuity of ownership in Sweden where developing the natural resources for industrial

enterprise such as ironworks and sawmills brought in new owners Estate Landscapes in Northern Europe is the first product of the collaboration of researchers from Norway Germany Sweden the United Kingdom Denmark and the Netherlands joined together in the European Network for Country House and Estate Research ENCOUNTER **Advances in Information and Communication** Kohei Arai,Supriya Kapoor,Rahul Bhatia,2020-02-24 This book presents high quality research on the concepts and developments in the field of information and communication technologies and their applications It features 134 rigorously selected papers including 10 poster papers from the Future of Information and Communication Conference 2020 FICC 2020 held in San Francisco USA from March 5 to 6 2020 addressing state of the art intelligent methods and techniques for solving real world problems along with a vision of future research Discussing various aspects of communication data science ambient intelligence networking computing security and Internet of Things the book offers researchers scientists industrial engineers and students valuable insights into the current research and next generation information science and communication technologies *Migration and Health* Marc B. Schenker,Xóchitl Castañeda,Alfonso

Rodriguez-Lainz,2014-10-24 The study of migrant populations poses unique challenges owing to the mobility of these groups which may be further complicated by cultural educational and linguistic diversity as well as the legal status of their members These barriers limit the usefulness of both traditional survey sampling methods and routine public health surveillance systems Since nearly 1 in 7 people in the world is a migrant appropriate methodological approaches must be designed and implemented to capture health data from populations This effort is particularly important because migrant populations in comparison to other populations typically suffer disparities related to limited access to health care greater exposure to infectious diseases more occupational injuries and fewer positive outcomes for mental health and other health conditions This path breaking handbook is the first to engage with the many unique issues that arise in the study of migrant communities It offers a comprehensive description of quantitative and qualitative methodologies useful in work with migrant populations By providing information and practical tools the editors fill existing gaps in research methods and enhance opportunities to address the health and social disparities migrant populations face in the United States and around the world
