Richard W. Makinen

New Founde Land:

Kerrivan Eldon Drodge, 2001 In the mid to late 1700 s a group of desperate men mostly deserters and escaped prisoners as well as indentured men and boys who had run away from their fishing masters secluded themselves in the wilderness on the Southern Shore of Newfoundland s Avalon Peninsula Led by Peter Kerrivan himself a deserter from the British Navy these renegades predominantly Irish established their hideout on or near The Butterpot a small mountain about nine miles inland from Ferryland Defying the law and evading all attempts made to capture them they survived on the great caribou herds that roamed the barrens and by raiding the fishing settlements along the coast Known as the Society of Masterless Men their legend is one of the most exciting and daring in Newfoundland s rich and colorful past Merchant Sail William Armstrong Fairburn, 1945

Odisea nº 15 Susana Nicolás Román, 2015-06-02 Revista de Estudios Ingleses es un anuario dirigido y gestionado por miembros del Departamento de Filología Inglesa y Alemana de la Universidad de Almería con el propósito de ofrecer un foro de intercambio de producción científica en campos del conocimiento tan diversos como la lengua inglesa literatura en lengua inglesa didáctica del inglés traducción inglés para fines específicos y otros igualmente vinculados a los estudios ingleses Cod George A. Rose, 2007 The devastation of many of the greatest North Atlantic cod stocks particularly those of Newfoundland and Labrador and the Grand Banks has become an icon for the unsustainable relation between human exploitation and Nature Here George Rose tells the full story of that devastation in scientific detail for the first time from the formation of the North Atlantic marine ecosystems to the massive stock declines in the last half of the 20th century Politics and the fisheries are inextricably entwined In Cod Rose recounts the many political influences on the fisheries over several centuries and describes how neglect from the late 1800s onward led to insufficient scientific knowledge and little protection for the stocks when massive Euro Russian fleets targeted the Grand Banks after World War II destroying the most prolific fishery the world has known Cod is no armchair account but a controversial one that includes original information on the North Atlantic fisheries

U.S. Nuclear Diplomacy with Iran Kumuda Simpson, 2015-12-24 The United States commitment to non proliferation often propels its foreign policy rhetoric In 2002 George W Bush framed his goal of preventing the spread of nuclear weapons within the context of the global war on terror accusing Iran of being part of the Axis of Evil Iran s nuclear program was declared an intolerable threat to global peace and stability This approach however showed the conflict between the rhetoric of good vs evil and the need for a pragmatic and measured approach to non proliferation in the Middle East The book explores this divergence between the alarmist rhetoric of the Bush Administration s public diplomacy and its actual non proliferation policy toward Iran It shows how the two policy directions the war on terror and negotiations over the nuclear issue were often at odds Further the Administration s desire to change the regime in Iran undermined efforts to find a diplomatic solution to the nuclear issue Ultimately the policies implemented failed both to shut down Iran s nuclear program and bring significant democratic reform within the Islamic Republic The book also examines

this legacy and how Obama's approach differs or follows that of his predecessor. Lastly, the implications for non-proliferation policies beyond Iran are discussed as nuclear proliferation remains a key concern in a Middle East plagued by instability.

Sailing to the Edge of Time John Kretschmer, 2018-11-13 John Kretschmer is sailing's practical philosopher as much a doer as a thinker. And that is the overarching theme of this chronicle of a sailing life. Often amusing, sometimes poignant, occasionally terrifying, but always inspiring, his deeply personal account is a welcome reminder of the good life waiting at sea. With hundreds of thousands of nautical miles under his keel, John's adventures have taken him several times around the world, with challenging crossings of the Atlantic and the Pacific, a narrow escape from a coup in Yemen, an unlikely deliverance from a coral reef off Belize, as well as more serene introspective passages where trade winds are blowing and stories are flowing. His crew has included CEOs, actors, writers, teachers, kids; in essence, everyone. John's narrative is interwoven with practical tips and advice in seamanship, but also, and just as importantly, his hard-won insights about making the most of our lives. He truly believes we find out who we really are and what we are capable of far from the shackles of land, when we find a place where time changes shape, days may merge into one another, but minutes are memorable. To live adventurously is to live more fully, and that is the life John Kretschmer continues to live. In this book, he shares his simple profundities that will inspire those who live to sail and those seeking something more rewarding from life.

Toward the Setting Sun David Boyle, 2011-03-15 Most Americans don't look far beyond Christopher Columbus when it comes to the discovery of America, yet the simple fact that we bear the name of Amerigo Vespucci suggests there is more to the story. And indeed, there is a trio of young Italian pioneers who were merchants more than explorers, and who, while in search of glory and vast profits, battled to become the first to cross the western ocean. David Boyle reveals in *Toward the Setting Sun* that the race for America was as much about commerce as it was about discovery and conquest. When Constantinople fell to the Ottoman Empire in 1453, the long-established trade routes to the East became treacherous and expensive, forcing merchants of all sorts to find new ways of obtaining and trading their goods. Enterprising young men took to the sea in search of new lands, new routes, and of course, new fortune. The careers of three young men—Columbus, Vespucci, and Giovanni Caboto—known to us as John Cabot—would change not only their personal destinies but that of the New World. Contrary to popular belief, the three not only knew of each other; they were well acquainted. Columbus and Vespucci at various times worked closely together. Cabot and Columbus were born in Genoa about the same time and had common friends who were interested in Western trade possibilities. They collaborated, knew of each other's ambitions, and followed each other's progress. The intersection of their dreams and business ventures led the way to our modern world and ushered in the end of the medieval age. David Boyle skillfully brings together for the first time the three stories that shaped the race for America, and in doing so, adds a unique economic and business dimension to the earliest days of our country.
