New Left Review 13 Jan Feb

Sophie Scott-Brown

New Left Review 13 Jan Feb :

The Radical Fifties Sophie Scott-Brown, 2025-06-12 The 1950s are usually portrayed as conservative conformist and apathetic but was there more to this much maligned decade than that In Britain the convergence of conflicting political moments the Cold War the Bomb the rise of America the decline of the empire welfare and affluence compelled a rapid rethinking of what it meant to be political along with a series of experiments in democracy and democracy education The Radical Fifties examines the distinctive activist politics emerging from this by focusing on the entwined histories of its main protagonists the Freedom Press anarchists the New Left Club socialists and the Direct Action Committee pacifists Instead of gaining or influencing power in a traditional sense these groups wanted to dispense with it all together and transform democracy into a whole way of life a quality of interaction between people While this upturned conventional political thinking it also posed a dilemma conceding the practice of democracy also meant conceding the ability to determine its ends and direct its activities In contrast to the assertive radicalism of the sixties this appeared dismally unambitious yet it confronted more directly and seriously the defining questions of the times could democratic means produce democratic ends If not was it still democracy *Colin Ward and the Art of Everyday Anarchy* Sophie Scott-Brown, 2022-07-22 Colin Ward and the Art of Everyday Anarchy is the first full account of Ward's life and work Drawing on unseen archival sources as well as oral interviews it excavates the worlds and words of his anarchist thought illuminating his methods and charting the legacies of his enduring influence Colin Ward 1924 2010 was the most prominent British writer on anarchism in the 20th century As a radical journalist later author he applied his distinctive anarchist principles to all aspects of community life including the built environment education and public policy His thought was subtle universal in aspiration international in implication but at the same time deeply rooted in the local and the everyday Underlying the breadth of his interests was one simple principle freedom was always a social activity This book will be of interest to students scholars and general readers with an interest in anarchism social movements and the history of radical ideas in contemporary Britain Neoliberal Apartheid Andy Clarno, 2017-03-07 In recent years as peace between Israelis and Palestinians has remained cruelly elusive scholars and activists have increasingly turned to South African history and politics to make sense of the situation In the early 1990s both South Africa and Israel began negotiating with their colonized populations South Africans saw results the state was democratized and black South Africans gained formal legal equality Palestinians on the other hand won neither freedom nor equality and today Israel remains a settler colonial state Despite these different outcomes the transitions of the last twenty years have produced surprisingly similar socioeconomic changes in both regions growing inequality racialized poverty and advanced strategies for securing the powerful and policing the racialized poor Neoliberal Apartheid explores this paradox through an analysis of de colonization and neoliberal racial capitalism After a decade of research in the Johannesburg and Jerusalem regions Andy Clarno presents here a detailed ethnographic study of the precariousness of the poor in Alexandra

township the dynamics of colonization and enclosure in Bethlehem the growth of fortress suburbs and private security in Johannesburg and the regime of security coordination between the Israeli military and the Palestinian Authority in the West Bank The first comparative study of the changes in these two areas since the early 1990s the book addresses the limitations of liberation in South Africa highlights the impact of neoliberal restructuring in Palestine and argues that a new form of neoliberal apartheid has emerged in both contexts

Anarchism Today Randall Amster, 2012-03-09 With all of the provocative sometimes highly destructive acts committed in the name of anarchy this enlightening volume invites readers to discover the true meaning of anarchism exploring its vivid history and its resurgent relevance for addressing today's most vexing social problems In *Anarchism Today* an acclaimed scholar and one of the world's foremost advocates for the anarchistic tradition cuts through common misconceptions and caricatures to explore what is perhaps the most poorly understood of all political theories As author Randall Amster explains rather than being an anti everything rationale for defiance and destruction anarchism is in fact a coherent set of values and practices with a rich history and contemporary relevance Passionate and provocative Amster's book offers readers an expert's perspective on what anarchism really means including its relationship to other political approaches its careful balancing of individual liberty and a functioning society and its controversial image as a wellspring of violence Along the way Amster addresses a number of current issues from the perspective of anarchism including corporate globalization environmentalism warfare nationalism education technology alternative economics criminal justice and even spirituality He concludes with a frank assessment of anarchism's impact and the role it can play in building a more just peaceful and sustainable world

Up Against the Real Nadja Millner-Larsen, 2023-03-07 A history of 1960s activist art group Black Mask With *Up Against the Real* Nadja Millner-Larsen offers the first comprehensive study of the group Black Mask and its acrimonious relationship to the New York art world of the 1960s Cited as pioneers of now common protest aesthetics the group's members employed incendiary modes of direct action against racism colonialism and the museum system They shut down the Museum of Modern Art fired blanks during a poetry reading stormed the Pentagon in an antiwar protest sprayed cow's blood at the secretary of state and dumped garbage into the fountain at Lincoln Center Black Mask published a Dadaist broadside until 1968 when it changed its name to Up Against the Wall Motherfucker after line in a poem by Amiri Baraka and came to classify itself as a street gang with analysis American activist Abbie Hoffman described the group as the middle class nightmare an anti media phenomenon simply because their name could not be printed *Up Against the Real* examines how and why the group ultimately rejected art in favor of what its members deemed real political action Exploring this notorious example of cultural activism that rose from the ruins of the avant garde Millner-Larsen makes a critical intervention in our understanding of political art

Anarchism and Political Modernity Nathan Jun, 2011-11-10 *Anarchism and Political Modernity* looks at the place of classical anarchism in the postmodern political discourse claiming that anarchism presents a vision of political postmodernity The book seeks to

foster a better understanding of why and how anarchism is growing in the present To do so it first looks at its origins and history offering a different view from the two traditions that characterize modern political theory socialism and liberalism Such an examination leads to a better understanding of how anarchism connects with newer political trends and why it is a powerful force in contemporary social and political movements This new volume in the Contemporary Anarchist Studies series offers a novel philosophical engagement with anarchism and contests a number of positions established in postanarchist theory Its new approach makes a valuable contribution to an established debate about anarchism and political theory It offers a new perspective on the emerging area of anarchist studies that will be of interest to students and theorists in political theory and anarchist studies

Rethinking Development Geographies Marcus Power, 2004-08-02 Development as a concept is notoriously imprecise vague and presumptuous Struggles over the meaning of this fiercely contested term have had profound implications on the destinies of people and places across the globe Rethinking Development Geographies offers a stimulating and critical introduction to the study of geography and development In doing so it sets out to explore the spatiality of development thinking and practices The book highlights the geopolitical nature of development and its origins in Empire and the Cold War It also reflects critically on the historical engagement of geographers with the Tropics the Third World and the South The dominant economic and political philosophies that shape the policies and perspectives of major institutions are discussed The interconnections between globalization and development are highlighted through an examination of local national and transnational resistance to various forms of development The text provides an accessible introduction to the complex and confusing world of contemporary global development Informative diagrams cartoons and case studies are used throughout While exploring global geographies of economic and political change Rethinking Development Geographies is also grounded in a concern with people and places the view from below the views of women and the view from the South

Arctic Cinemas and the Documentary Ethos Anna Westerstahl Stenport, 2019-02-18 A collection of essays analyzing the representation of the Arctic region in documentary films Beginning with Robert Flaherty's Nanook of the North 1922 the majority of films that have been made in about and by filmmakers from the Arctic region have been documentary cinema Focused on a hostile environment that few people visit these documentaries have heavily shaped ideas about the contemporary global Far North In Arctic Cinemas and the Documentary Ethos contributors from a variety of scholarly and artistic backgrounds come together to provide a comprehensive study of Arctic documentary cinemas from a transnational perspective This book offers a thorough analysis of the concept of the Arctic as it is represented in documentary filmmaking while challenging the notion of The Arctic as a homogenous entity that obscures the environmental historical geographic political and cultural differences that characterize the region By examining how the Arctic is imagined understood and appropriated in documentary work the contributors argue that such films are key in contextualizing environmental indigenous political cultural sociological and ethnographic understandings of the Arctic from early cinema to

the present Understanding the role of these films becomes all the more urgent in the present day as conversations around resource extraction climate change and sovereignty take center stage in the Arctic s representation Highly recommended Choice A thorough exploration of the inexorable links between the circumpolar regions and historic and contemporary documentary filmmaking It will b valuable to Arctic humanities specialists particularly as a welcome addition to scholarship on visual depictions of the Arctic by authors such as Ann Fienup Riordan Richard Condon Russell Potter and Peter Geller as well as Mackenzie and Westerstahl Steport s earlier co edited volume Films on Ice It will also be of use to anyone interested in ways of studying linkages between filmmaking environments and local and outsider communities Sarah Pickman Yale University H Environment January 2020

Anarchism and Art Mark Mattern,2016-03-01 Situated at the intersection of anarchist and democratic theory Anarchism and Art focuses on four popular art forms DIY Do It Yourself punk music poetry slam graffiti and street art and flash mobs found in the cracks between dominant political economic and cultural institutions and on the margins of mainstream neoliberal society Mark Mattern interprets these popular art forms in terms of core anarchist values of autonomy equality decentralized and horizontal forms of power and direct action by common people who refuse the terms offered them by neoliberalism while creating practical alternatives As exemplars of central anarchist principles and commitments such forms of popular art he argues prefigure deeper forms of democracy than those experienced by most people in today s liberal democracies That is they contain hints of future more democratic possibilities while modeling in the present the characteristics of those more democratic possibilities Providing concrete evidence that progressive change is both desirable and possible they also point the way forward

The European Radical Left Giorgos Charalambous,2021-12-20 Is today s left really new How has the European radical left evolved Giorgos Charalambous answers these questions by looking at three moments of rapid political change the late 1960s to late 1970s the turn of the millennium and post 2008 He challenges the conventional understanding of a new left drawing out continuities with earlier movements and parties Charalambous examines the Long 68 symbolised by the May uprisings in France which saw the rise of new left forces and the widespread criticism by younger radical activists of traditional communist and socialist parties He puts this side by side with the turn of the millennium when the Global Justice Movement rose to prominence and changed the face of the international left and also the period after the financial crash of 2008 and the rise of anti austerity politics which initiated the most recent wave of new left parties such as Podemos in Spain and Syriza in Greece With a unique two level perspective Charalambous approaches the left through both social movements and party politics looking at identities rhetoric and organisation and bringing a fresh new approach to radical history as well as assessing challenges for both activists and scholars

Narrative, Political Unconscious and Racial Violence in Wilmington, North Carolina Leslie Hossfeld,2005-02-10 First published in 2005 Routledge is an imprint of Taylor Francis an informa company

The Routledge Companion to Cinema and Politics Yannis Tzioumakis,Claire Molloy,2016-07-01 The Routledge Companion to Cinema and Politics brings

together forty essays by leading film scholars and filmmakers in order to discuss the complex relationship between cinema and politics Organised into eight sections Approaches to Film and Politics Film Activism and Opposition Film Propaganda Ideology and the State The Politics of Mobility Political Hollywood Alternative and Independent Film and Politics The Politics of Cine geographies and The Politics of Documentary this collection covers a broad range of topics including third cinema cinema after 9 11 eco activism human rights independent Chinese documentary film festivals manifestoes film policies film as a response to the post 2008 financial crisis Soviet propaganda the impact of neoliberalism on cinema and many others It foregrounds the key debates concepts approaches and case studies that critique and explain the complex relationship between politics and cinema discussing films from around the world and including examples from film history as well as contemporary cinema It also explores the wider relationship between politics and entertainment examines cinema s response to political and social transformations and questions the extent to which filmmaking itself is a political act **Ghetto**

Images in Twentieth-Century American Literature Tyrone R. Simpson II, 2012-01-30 This book explores how six American writers have artistically responded to the racialization of U S frostbelt cities in the twentieth century Using the critical tools of spatial theory critical race theory urban history and sociology Simpson explains how these writers imagine the subjective response to the race making power of space **Quiet No More** Joel D. Harden, 2013-09-18 Spontaneous and creative protest movements have burst onto the political stage in Canada and around the world Joel D Harden an activist writer and educator offers a ground level account of the most important of these recent expressions of large scale political engagement mostly by young people Based on first hand accounts from many of the participants and organizers Harden describes key events and turning points in Canada and beyond from the viewpoint of a committed insider Harden believes that these new bottom up movements are the most challenging and effective agent of political change on the scene today galvanizing people to express their views actively in the streets and parks or in their workplaces The political and corporate power structure has been shaken by these challenges sometimes enough to generate real political change Political analysts journalists and academics have not yet come to terms with this new activism Harden briefly reviews theories that fail to capture its essence and those that come close to getting it In a concluding chapter addressed to students and participants in these social movements he offers his own take on a movement relevant theory informed by his own considerable experience as a widely respected Canadian activist This book offers new thinking about how ordinary citizens particularly young people have started to take back power in our democracy and change the world Peace, War and Computers Chris Hables

Gray, 2013-10-18 Computers are at the heart of war as we know it and this visionary overview of cyber war in the twenty first century studies how electronics have changed the way we fight Using informatics and chaos theory this is a disarming yet enthralling read Subversive Performance in the Age of Human Capital Pil Kollektiv, Galia Kollektiv, 2023-08-04

Contemporary art relies on an expansionist modernist ideal and still progresses through a critique of earlier forms of

democratisation But beneath this democratic drive lurks a creeping crisis Under neoliberalism criticality has become a zone of value production A self deprecating irony exposing and re enacting this position of impotence is one of the few gestures left in the arsenal of critical art Against this irony this book pits overidentification This term has been taken to mean a kind of parodic mimicry of institutional power Using a broad tapestry of sources from political philosophers to art theorists from post Marxist critiques of labour to ethnographic studies it proposes an interpretation of overidentification that does not collapse into ironic posturing The authors differentiate this from bad faith flirting with taboo aesthetics by focusing on practices grounded in a genuine identification with power that ushers the kind of excess implied by overidentification It is these forms of overidentification that destabilise the metastasis of liberal democracy Staging forms of critique not so readily absorbed into the structure of the present these subversive performances herald a future beyond the democratic paradox A *Calculus of Power* Peter Gowan,2020-05-05 In this wide ranging and incisive collection Peter Gowan traces the contours of the world order that emerged after the end of the Cold War and assesses its prospects in the light of the global economic downturn Arguing that the present inter state system was shaped from the outset by Washington s drive to maintain its status as global hegemon Gowan dissects several cherished myths of the liberal mainstream offering a radical counter history of the UN and a sharp critique of the West s interventions in the Balkans He provides a forceful response to advocates of a new cosmopolitanism and engages with neo realist theories of international relations asking whether the US invasions of Iraq and Afghanistan have resulted in a crisis for their visions of American power and discussing what the lineaments of a future order might be Closing with an interview conducted just before his death which discusses his life s work *A Calculus of Power* is a penetrating look at contemporary world politics by one of the most renowned thinkers of the New Left

Misunderstanding the Internet James Curran,Natalie Fenton,Des Freedman,2016-02-05 The growth of the internet has been spectacular There are now more than 3 billion internet users across the globe some 40 per cent of the world s population The internet s meteoric rise is a phenomenon of enormous significance for the economic political and social life of contemporary societies However much popular and academic writing about the internet continues to take a celebratory view assuming that the internet s potential will be realised in essentially positive and transformative ways This was especially true in the euphoric moment of the mid 1990s when many commentators wrote about the internet with awe and wonderment While this moment may be over its underlying technocentrism the belief that technology determines outcomes lingers on and with it a failure to understand the internet in its social economic and political contexts *Misunderstanding the Internet* is a short introduction encompassing the history sociology politics and economics of the internet and its impact on society This expanded and updated second edition is a polemical sociologically and historically informed guide to the key claims that have been made about the online world It aims to challenge both popular myths and existing academic orthodoxies that surround the internet **New Perspectives on Anarchism, Labour and Syndicalism** Constance Bantman,Dave Berry,2010-08-11

This collection presents exciting new research on the history of anarchist movements and their relation to organised labour notably revolutionary syndicalism Bringing together internationally acknowledged authorities as well as younger researchers all specialists in their field it ranges across Europe and from the late nineteenth century to the beginnings of the Cold War National histories are revisited through transnational perspectives on Britain France Italy Germany Poland or Europe as a whole evidencing a great wealth of cross border interactions and reciprocal influences between regions and countries Emphasis is also placed on individual activist itineraries whether of renowned figures such as Errico Malatesta or of lesser known yet equally fascinating characters whose trajectories offer fresh perspectives on the complex interplay of regional and national political cultures evolving political ideologies activist networks and the individual The volume will be of interest to specialists working on the history of anarchism and or trade unionism as well as the political or social history of the countries concerned but it will also be useful to students and the general reader looking for discussion of the most recent thinking on the historiography of labour and anarchist movements or those wanting a comprehensive overview of the history of syndicalism

Higher Education and the Public Good Jon Nixon, 2010-11-11 What constitutes the public good in a highly individualistic consumerist and privatized society The global financial crisis of 2008 revealed the extent to which the public realm had been eroded over the last thirty years and the inroads that privatization and commercialization have made into the higher education sector This book explores the institutional and sector wide implications of the financial crisis for higher education and the lessons to be learnt from that crisis and its aftermath for the university sector as a whole Jon Nixon argues that the university now has to be re imagined as a social civic and cosmopolitan good that is central to the well being of civil society and its citizens Key chapters focus on capability reasoning and purposefulness as the common resources of higher education The book highlights the urgent need for sector wide planning and collaboration the development of a public culture across institutions and a broadening of the higher education curriculum Higher Education and the Public Good points a way forward to the new and emergent civic and cosmopolitan spaces of learning

New Left Review 13 Jan Feb Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free New Left Review 13 Jan Feb PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free New Left Review 13 Jan Feb PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries,

ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of New Left Review 13 Jan Feb free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About New Left Review 13 Jan Feb Books

1. Where can I buy New Left Review 13 Jan Feb books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
