New Elite The Death Of Democracy:

The New Elite David Lebedoff,1983 **ABA Journal** ,1982-04 The ABA Journal serves the legal profession Qualified recipients are lawyers and judges law students law librarians and associate members of the American Bar Association

Why Conservatives Tell Stories and Liberals Don't David M Ricci,2015-12-03 Why do conservatives tell stories Because it helps them win elections and assail liberal policies like health care reform and economic stimulus Why is important but the what and the how behind the stories that conservatives tell are equally interesting and in this new book David Ricci reveals all He shows how conservative activists and candidates tell many tales that come together to project a large scale story a cultural narrative a vision of what America is and what it should do to prosper socially economically and politically Liberals by contrast tend to look for theories rather than stories for mathematical explanations rather than theological axioms for data rather than anecdotes and for statistics rather than homilies The difference is paradoxical Liberals are unlikely to fashion sweeping narratives that capture the public s attention and commitment Yet conservatives may tell attractive stories like the ones that got us into Iraq that momentarily capture voter support but end up costing the country more than it can afford

Bureaucratic Representation H. T. Wilson,2001 This text discusses the central role of bureaucratic representation as a key vehicle for representing the general interests of most citizens Though formal elections remain indispensable bureaucracies in the capital public and social sectors have used their superior expertise and continuity to achieve responsible discretion and creative implementation **America's Political Class Under Fire** David A. Horowitz,2013-12-02 While the

clash between what has been called the modern and undeveloped worlds has led to America s military involvement in the Middle East and other places few people realize the tension between the modern and the traditional within the United States Beginning in the 1920 s professional intellectuals and academics began influencing the nation s public policy on matters as diverse as education economics and public health In this thoughtful work David A Horowitz analyzes the tension between the so called New Class of knowledge professionals and their critics who accused them of being out of touch with the common sense of everyday people strangers to the American Way even Communists America s Political Class Under Fire is organized over nine periods of 20th century history providing a window into everything from the Scopes evolution trial and McCarthyism to affirmative action and the Clinton health care fiasco Along the way the book explores the New Left populist conservatism and the mid 90 s reaction to political liberalism which saw Newt Gingrich rise to the top post in the House of Representatives In telling these stories Horowitz seeks to encourage a more balanced and fair minded assessment of the consequences of expertise and applied intellect to democratic existence in the United States **Political Management** H.

T. Wilson,2017-11-07 No detailed description available for Political Management **Faith and Action** R. J. Rushdoony,2019-08-26 Faith and Action is the complete collection of the essays of R J Rushdoony written for the Chalcedon Report between 1965 and 2001 along with several transcripts of his recorded talks The large volume The Roots of

Reconstruction only contained his Chalcedon Report essays up until 1985 so most of the essays included in Faith Action were unavailable to readers for many years until now In order to make the author s knowledge more accessible this three volume collection features some of the most extensive indexing we ve ever done including a General Index a History Index a Scripture Index a Works Cited Index and a Chalcedon Report Directory A total of 183 pages of indexing This handsome set of books is a must have for any serious library The central theme of this collection of essays is Christian Reconstruction which to Rushdoony meant the responsibility of Christian citizenship in the Kingdom of God For him his central drive behind his research and writing was to move men to faith and action Rushdoony was primarily an essayist who vigorously and prolifically wrote on a multiplicity of subjects issues and disciplines Despite his being critical of both the contemporary church for its compromise and the humanistic state for its will to be as God these essays are replete with Rushdoony s undying faith in the victory of God in history Rushdoony s big idea was Christian Reconstruction which centered not on a pursuit of political power but rather an equipping of Christians to take back government by means of self government in terms of God s law This three volume collection will no doubt serve the larger church for many generations as they seek first the Kingdom of God in their spheres and in their times

The Global Rise of Authoritarianism in the 21st Century Berch Berberoglu, 2020-09-22 Neoliberal globalization is in deep crisis This crisis is manifested on a global scale and embodies a number of fundamental contradictions a central one of which is the global rise of authoritarianism and fascism This emergent form of authoritarianism is a right wing reaction to the problems generated by globalization supported and funded by some of the largest and most powerful corporations in their assault against social movements on the left to prevent the emergence of socialism against global capitalism As the crisis of neoliberal global capitalism unfolds and as we move to the brink of another economic crisis and the threat of war global capitalism is once again resorting to authoritarianism and fascism to maintain its power This book addresses this vital question in comparative historical perspective and provides a series of case studies around the world that serve as a warning against the impending rise of fascism in the 21st century
