It is often recommended that patients with a history of stroke should avoid driving. However, the American Stroke Association states that many stroke survivors are able to drive safely after a period of rehabilitation. The decision to drive should be based on the individual's level of recovery and the advice of their healthcare provider. Some factors that may affect a patient's ability to drive include memory, attention, and reaction time. A patient who has experienced a stroke should consult with their healthcare provider to determine if they are safe to drive and if any restrictions should be placed on their driving.

New Introducing Sociology:

The New Introducing Sociology, 1992 **An Academic Skating on Thin Ice** Peter Worsley, 2008 Peter Worsley's studies at Cambridge were interrupted by war service as a communist officer in the colonial forces in Africa and India and it was here that he developed a keen interest in anthropology. He worked in mass education in Tanganyika and then studied with Max Gluckman at Manchester University. Banned from re-entering Africa, Worsley went to Australia where he was banned once more this time from New Guinea yet he did succeed in completing field research for his Ph.D. on an Australian Aboriginal tribe. His subsequent book on Cargo cults in Melanesia is now regarded as a classic but his left wing politics ensured that he could not get a job in anthropology so he switched to sociology on his return to Manchester. *Ebook: Sociology: A Brief Introduction* Schaefer, 2014-10-16 *Ebook Sociology A Brief Introduction* *Environment and Society* Erika Cudworth, 2003 An introduction to the sociological study of the environment. It emphasises the ways in which our conceptualisation of the relationships between environments and human societies differ historically and cross culturally.

The New Introducing Sociology Peter Worsley, Frank Bechhofer, 1992 **The General Theory of Law and Marxism** Evgeny Pashukanis, 2017-09-04 E. B. Pashukanis was the most significant contemporary to develop a fresh new Marxist perspective in post-revolutionary Russia. In 1924 he wrote what is probably his most influential work *The General Theory of Law and Marxism*. In the second edition 1926 he stated that this work was not to be seen as a final product but more for self-clarification in hopes of adding stimulus and material for further discussion. A third edition was printed in 1927. Pashukanis's commodity exchange theory of law spearheaded a perspective that traced the form of law not to class interests but to capital logic itself. Until his death he continued to argue for the ideal of the withering away of the state law and the juridic subject. He eventually arrived at a position contrary to Stalin's who at that time was attempting to consolidate and strengthen the state apparatus under the name of the dictatorship of the proletariat. Inevitably Pashukanis was branded an enemy of the revolution in January 1937. His works were subsequently removed from Soviet libraries. In 1954 Pashukanis was rehabilitated by the Soviets and restored to an acceptable position in the historical development of Marxist law. In Europe and North America a number of legal theorists only rediscovered Pashukanis's work in the late 1970s. They subjected it to careful critical analysis and realized that he offered an alternative to the traditional Marxist interpretations which saw law simply and purely as tied to class interests of domination. By the mid 1980s the instrumental Marxist perspective in vogue in Marxist sociology, criminology, politics and economics gave way to a significant extent due to Pashukanis's insights to a more structural Marxist accounting of the relationship of law to economics and other social spheres. In his new introduction Dragan Milovanovic discusses the life of Pashukanis, Marx and the commodity exchange theory of law and the historical lessons of Pashukanis's work. This book *The Myth of Social Action* Colin Campbell, 1998-07-09 *The Myth of Social Action* first published in 1996 is a powerful critique of the sociology of the time and a call to reject the prevailing orthodoxy. Arguing that

sociological theory had lost its way Colin Campbell mounts a case for a new dynamic interpretivism a perspective on human conduct which is more inkeeping with the spirit of traditional Weberian action theory Discussing and dismissing one by one the main arguments of those who reject individualistic action theory he demonstrates that this has been wrongly rejected in favour of the interactional social situationalist approach now dominating sociological thought
