Textiles y tintes del Mediterráneo en época romana Carmen Alfaro Giner, 2011-11-28 Purpureae vestes estudia un element fonamental en la vida de qualsevol societat antiga com s el vestit i els colors utilitzats per a la seua ornamentaci especialment la p rpura El luxe en el vestir

implicava l's de materials com l'or per a la confecció de certs complements. Amb uns antecedents clarament orientals de recerca de la magnificència externa de reis i d'altres dignataris, el simbolisme del color en l'ornamentació personal va constituir a les ciutats riberenques de la Mediterrània un factor important de distinció social. B'fossen de procedència vegetal, mineral o animal, els tints van donar sempre l'ènim als tèxtils. Per això, el poder imperial romà en alguns períodes de la seua història va controlar amb normes legals de major o menor duresa l's de determinats colors obtinguts a partir de gasterpodes marins. L'obra tracta extensament els aspectes econòmics i tècnics relacionats amb l'elaboració i comercialització de vestits i teles per a altres usos, veles, adorns de la llar, etc. A partir de diversos punts de vista, entre els que s'inclouen les dades arqueològiques o les referències etnogràficocomparatives, s'hi incideix en les etapes de preparació de les fibres tèxtils en les formes d'elaboració dels teixits més complexos a través de la reconstrucció experimental en el treball dels pescadors i manufacturers que elaboraven en tallers costaners, el tint més valorat, la porpora, o en els qui treballaven en els tallers de la ciutat, així com en l'anàlisi i descripció detallada dels resultats extrets de les restes tèxtils aparegudes en jaciments de l'Egipte romà, sobretot que ens mostren encara avui la riquesa i vigor dels seus colors.

Ancient Textiles Marie-Louise Nosch, C. Gillis, 2007-03-10. An understanding of textiles and the role they played in the past is important for anyone interested in past societies. Textiles served and in fact still do as both functional and symbolic items. The evidence for ancient textiles in Europe is split quite definitely along a north-south divide with an abundance of actual examples in the north but precious little in the south where indirect evidence comes from such things as vase painting and frescoes. This volume brings together these two schools to look in more detail at textiles in the ancient world and is based on a conference held in Denmark and Sweden in March 2003. Section one, Production and Organisation, takes a chronological look through more than four thousand years of history from Syria in the mid-third millennium BC to Seventeenth Century Germany. Section two, Crafts and Technology, focuses on the relationship between the primary producer, the craftsman, and the secondary receiver, the archaeologist/conservator. The third section, Society, examines the symbolic nature of textiles and their place within ancient societal groups. Throughout the book, emphasis is placed on the universality of textiles and the importance of information exchange between scholars from different disciplines. A small book on finds. First Aid for the Excavation of Archaeological Textiles is included as an Appendix.

Textile Production in Pre-Roman Italy Margarita Gleba, 2008-11-05. Older than both ceramics and metallurgy, textile production is a technology which reveals much about prehistoric social and economic development. This book examines the archaeological evidence for textile production in Italy from the transition between the Bronze Age and Early Iron Ages until the Roman expansion, 1000-400 BCE, and sheds light on both the process of technological development and the emergence of large urban centres with specialised crafts. Margarita Gleba begins with an overview of the prehistoric Apennine peninsula which featured cultures such as the Villanovans and the Etruscans and was connected through colonisation and trade with the other parts of the Mediterranean. She then focuses on the textiles themselves, their appearance in written and

iconographic sources the fibres and dyes employed how they were produced and what they were used for we learn for instance of the linen used in sails and rigging on Etruscan ships and of the complex looms needed to produce twill Featuring a comprehensive analysis of textiles remains and textile tools from the period the book recovers information about funerary ritual the sexual differentiation of labour the spinners and weavers were usually women and the important role the exchange of luxury textiles played in the emergence of an elite Textile production played a part in ancient Italian society's change from an egalitarian to an aristocratic social structure and in the emergence of complex urban communities
