

Quite often the records of a trial include a copy of the whole of the defendant's indentured abjuration, and not just the statement that he abjured. Robert Cavell, who was a priest, read his own abjuration.³⁴ But the other abjurations are preceded by statements to the effect that the defendant, unable to read because he was a layman or because his sight was poor, appointed a cleric to read it for him. While Cavell's abjuration appears in Latin, the others are in English, and they make up almost all of the manuscript that is in the vernacular. The abjurations appear as the first-person statements of the defendants. As regards content, they contain little that has not already been mentioned: basically they consist of a list of the offences, the defendant's admission of his guilt, his oath renouncing his heresies and oaths concerning his good conduct in the future.³⁵

This, then, is the information most commonly found in the manuscript. Of the remainder, two types of records need to be mentioned: depositions of witnesses³⁶ and letters from the bishop of Norwich to the parish priests of men found guilty of heresy, instructing them to see that the men performed their penances.³⁷

In addition to the manuscript, the relevant sections of the records of a delivery of the gaol in Norwich Castle are included as an appendix. The records, which were hitherto unknown and which are the only records of gaol deliveries involving the defendants mentioned in the manuscript that are known to survive, throw interesting light on the arrests and earlier activities of several of the accused.

i. *The Trials*

In the spring of 1428 Bishop Fleming of Lincoln had what were supposed to be Wycliffe's bones dug up and burnt, and the ashes cast into a nearby stream.³⁸ Indeed, the year 1428 saw the beginning of what seems to have been a concerted persecution of Lollardy all over the province of Canterbury,³⁹ led by the archbishop himself, who is reported to have ridden for several days and nights hunting down suspects.⁴⁰ As well as a response to the internal problem of heresy in England, which the Convocation of Canterbury province meeting in London in July 1428 had declared to be 'more than usually growing in strength',⁴¹ the persecution was no doubt

The Detection of Heresy in Late Medieval England Ian Forrest,2005-10-20 Heresy was the most feared crime in the medieval moral universe By examining the drafting publicizing and implementing of new laws against heresy in the 14th and 15th centuries this text presents a general study of inquisition in medieval England *Reading Families* Rebecca L. Krug,2018-09-05 Rebecca Krug argues that in the later Middle Ages people defined themselves in terms of family relationships but increasingly saw their social circumstances as being connected to the written word Complex family dynamics and social configurations motivated women to engage in text based activities Although not all or even the majority of women could read and write it became natural for women to think of writing as a part of everyday life *Reading Families* looks at the literate practice of two individual women Margaret Paston and Margaret Beaufort and of two communities in which women were central the Norwich Lollards and the Bridgettines at Syon Abbey The book begins with Paston s letters which were written at her husband s request and ends with devotional texts that describe the spiritual daughterhood of the Bridgettine readers Scholars often assume that medieval women s participation in literate culture constituted a rejection of patriarchal authority Krug maintains however that for most women learning to engage with the written word served as a practical response to social changes and was not necessarily a revolutionary act *Gender and Heresy* Shannon McSheffrey,2010-11-24 Shannon McSheffrey studies the communities of the late medieval English heretics the Lollards and presents unexpected conclusions about the precise ways in which gender shaped participation and interaction within the movement **The Politics of Pearl** John M.
