Pay Equity The Labour Feminist Challenge:

Pay Equity Carl J. Cuneo, 1990 This book documents the struggle of the labor feminist alliance to obtain legislation of equal pay for work of equal value in businesses and neo conservative anti feminist interests Examining the gender and class struggles in the paid workplace the marketplace and the household it focuses on the arguments used by both sides in jurisdictions where such legislation has been achieved at the federal levels in Canada and the United States The author demonstrates that defects and loopholes in the laws mean that the victory is far from complete and that equal pay legislation may represent a passive revolution an attempt to co opt the labor and feminist movements Unions, Equity, and the Path to Renewal Janice R. Foley, Patricia L. Baker, 2010-07-01 Trade unions in Canada are losing their traditional support base and membership numbers could sink to US levels unless unions recapture their power Unions Equity and the Path to Renewal demonstrates that equity within unions is not simply one possible solution it is the path to union renewal A distinguished group of union activists and equity scholars explore how traditional union cultures practices and structures have eroded solidarity and activism and created an equity deficit in Canadian unions Informed by a feminist vision of unions as instruments of social justice the authors discuss the types of changes needed to reposition organized labour as a central institution in workers lives This volume highlights the central role that equity issues should play in debates on union renewal It is mandatory reading for anyone interested in the future of labour and unions in Canada and abroad **Pay Equity** Carl J. Cuneo, 1990 This book documents the struggle of the labor feminist alliance to obtain legislation of equal pay for work of equal value in businesses and neo conservative anti feminist interests Examining the gender and class struggles in the paid workplace the marketplace and the household it focuses on the arguments used by both sides in jurisdictions where such legislation has been achieved at the federal levels in Canada and the United States The author demonstrates that defects and loopholes in the laws mean that the victory is far from complete and that equal pay legislation may represent a passive revolution an attempt to co opt the labor and feminist movements Women and the Canadian Welfare State Patricia Marie Evans, Gerda R. Wekerle, 1997-01-01 Explains not only how women are affected by changes in policy and programming but how they can take an active role in shaping these changes Women Challenging Unions Linda Briskin, Patricia McDermott, 1993-12-15 Women Challenging Unions is a collection of original papers that presents a vision of an invigorated and vibrant labour movement one that would actively seek the full participation of women and other traditionally excluded groups and that would willingly incorporate a feminist agenda This vision challenges union complicity in the gendered segmentation of the labour market union support for traditionalist ideologies about women s work breadwinners and male headed families union resistance to broader based bargaining and the marginalization of women inside unions All of the authors share a commitment to workplace militancy and a more democratic union movement to women s resistance to the devaluation of their work to their agency in the change making process The interconnected web of militancy democracy and

feminism provides the grounds on which unions can address the challenges of equity and economic restructuring and on which the re visioning of the labour movement can take place The first of the four sections includes case studies of union militancy that highlight the experiences of individual women in three areas of female dominated work nursing banking and retailing The second and third sections focus on the two key arenas of struggle where unions and feminism meet inside unions where women activists and staff confront the sexism of unions and in the labour market where women challenge their employers and their own unions The fourth section deconstructs the conceptual tools of the discipline of industrial relations and examines its contribution to the continued invisibility of gender **Cashing in on Pay Equity?** Jan Kainer,2002

Annotation Pay equity has been on the political agenda of the women s movement in Canada for at least twenty five years In that time political action by women and the labour movement has culminated in pay equity laws in six of ten Canadian provinces Despite this a gender wage gap continues to exist Why hasn t pay equity law resulted in better pay for women Why does the gender wage gap continue to exist Is pay equity law an effective tool for eliminating workplace practices that contribute to gender wage inequality *Cashing In On Pay Equity* explores these questions through an in depth study of pay equity implementation in Ontario s supermarket chains during the 1990s a period of workforce reorganization for the retail food sector Despite union representation and pay equity legislation that had the potential to deliver gender wage fairness gender wage inequities remained following the pay equity exercise Intense industry competition economic restructuring and business unionism worked to prevent a more favourable pay equity outcome Nonetheless *Cashing In On Pay Equity* argues that pay equity legislation has the flexibility to win economic justice for women *Changing Canada* Wallace Clement, Leah F. Vosko,2003 *Changing Canada* examines political transformations welfare state restructuring international boundaries and contexts the new urban experience and creative resistance The authors question dominant ways of thinking and promote alternative ways of understanding and explaining Canadian society and politics that encourage progressive social change They examine how the evolution of capitalism is producing new types of transformations and new forms of resistance and show that aspects of the state and the wider society are being contested They also discuss the often paradoxical or contradictory effects of various social forces such as the liberating but also constraining features of new communications technologies new employment norms and new household forms Contributors include Laurie E Adkin University of Alberta Caroline Andrew University of Ottawa Pat Armstrong York University William Carroll University of Victoria Elaine Coburn Stanford University William D Coleman McMaster University Mary Cornish senior partner with Cavalluzzo Hayes Shilton McIntyre Cornish Judy Fudge York University Christina Gabriel Carleton University Sam Gindin York University Joyce Green University of Regina Eric Helleiner Trent University Robert G Hollands University of Newcastle Jane Jenson Universit de Montr al Roger Keil York University Stefan Kipfer York University Fuyuki Kurasawa York University Laura Macdonald Carleton University Rianne Mahon Carleton University Wendy McKeen Dalhousie University Elizabeth Millar consultant

Femmes Et L'état Canadien Caroline Andrew, Sanda Rodgers, 1997 A collection of essays presented at a conference to commemorate the twentieth anniversary of the release of the Report of the Royal Commission on the Status of Women Women and the Canadian State both celebrates and critically assesses the Report Women bureaucrats activists and academics consider the impact successes and failures of the Report from a variety of viewpoints and reflect on the experience of Canadian women since its publication in 1970

State of Struggle Lois Harder, 2003-07-04 State of Struggle offers a unique perspective on Alberta's recent political history Viewed through the lens of feminist and anti feminist efforts to gain political legitimacy the book observes the consequences of Alberta's oil and gas economy and the province's peripheral location from the locus of Canadian political decision making on the effectiveness of feminist efforts to both challenge and contribute to provincial governance The book traces the dynamic interaction between the development of second wave feminist organizing and the shift from Alberta's peculiar variant of a welfare state to its neoliberal form Using archival data from feminist organizations and various provincial government departments as well as interviews with activists policy makers and politicians the book's chronologically organized chapters offer a series of rich tales illuminating the transformations within both the feminist movement and the Alberta state from the election of Lougheed's Conservatives through Ralph Klein's second term of office It is a kind of we laughed we cried drama composed of dialogues of the deaf strategic missteps organizational cunning and occasional policy change that is sure to leave readers shaking their heads in amusement disbelief or outrage

Farm Communities at the Crossroads University of Regina. Canadian Plains Research Center, 2003 This book is an outgrowth of a conference that analyzed transformations in farming farm communities and discussed what might be done to achieve a more socially responsible development It contains papers that address the pace of change in work rural society which has proceeded so rapidly that every new development appears to be a cross roads in which something precious is in danger of being left behind but something valuable may be gained by taking the right route Topics of the papers include the importance of work the family farm community building knowledge skills in the farm community coping with the farm crisis land reform short line railways farm co-operatives agricultural chemicals agribusiness sustainable alternatives for agriculture game farming co-operative intervention in the farm machinery sector conservation tillage globalization agricultural policy agrarian radicalism on the prairies and farm income support systems Includes index

Our Union Jason Russell, 2011 The post war period witnessed dramatic changes in the lives of working class families Wages rose working hours were reduced pension plans and state social security measures

offered greater protection against unemployment illness and old age the standard of living improved and women and members of immigrant communities entered the labour market in growing numbers Existing studies of the post war period have focused above all on unions at the national and international levels on the post war settlement including the impact of Fordism and on the chiefly economic issues surrounding collective bargaining while relatively scant attention has been paid to the role of the union local in daily working class experience In *Our Union* Jason Russell argues that the union local as an institution of working class organization was a key agent for the Canadian working class as it sought to create a new place for itself in the decades following World War II Using UAW CAW Local 27 a broad based union in London Ontario as a case study he offers a ground level look at union membership including some of the social and political agendas that informed union activities As he writes in the introduction This book is as much an outgrowth of years of rank and file union activism as it is the result of academic curiosity Drawing on interviews with former members of UAW CAW Local 27 as well as on archival sources Russell offers a narrative that will speak not only to labour historians but to the people about whom they write

The Annual Review of Women in World Religions Arvind Sharma, Katherine K. Young, 1991-10-15

The Annual Review of Women in World Religions is polymethodic interdisciplinary and multitrade in its approach to the study of women and religion It not only allows the comparative dimension to appear in bolder relief but also helps establish a dialogue between the two solitudes of humanistic and social scientific studies in the field This annual encourages the exploration of horizons and perspectives in women's studies not possible otherwise It is not confined in scope to the traditional religions it also includes new religious movements within its scope while at the same time providing an outlet for specialized studies on women in traditional religions to reach a wider audience It thus incorporates both the traditional and contemporary dimension This work grew out of the publication of a book released in 1987 by SUNY Press entitled *Women in World Religions* edited by Arvind Sharma The reception indicated that it met a felt need It also vindicated the historical and phenomenological approach to the study of women in world religions The relevance of both subject and method called for an ongoing forum to continue discussing themes covered in the book this journal provides such a forum The first volume contains essays by Mary Gerhart Another Troy for Her to Burn The True Story of Euripides's Helen Denyse
