Peasants And Power:

Peasants, Power and Applied Social Change Harold Dwight Lasswell, 1971 **Peasants And Power** Joan Sokolovsky, 2019-05-28 Focusing on events in Hungary and Poland from 1948 to 1962 Dr Sokolovsky shows why collectivization can best be understood as an element in state building for the new regimes of Eastern Europe For these countries policy options were constrained by dependence upon the Soviet Union and the economic demands of a newly industrializing society Econom RUSSIAN PEASANTS AND SOVIET POWER A STUDY OF COLLECTIVIZATION M. Lewin, 1968 *Peasants in Power* John D. Bell, 2019-03-12 Agrarianism has received relatively little attention from scholars interested in the modern history of Eastern Europe Contending that an understanding of the agrarian contribution is necessary for an appraisal of the full dynamic of Eastern European politics John D Bell explores the history of the Bulgarian Agrarian National Union the strongest of the East European organizations Tracing the union s career from its founding to its overthrow in 1923 the author discusses the reasons for its appearance its ideology and program and its accomplishments and failure in both domestic and foreign policy He concentrates in particular on the career of Alexander Stamboliski who guided and inspired the BANU during its rise to power This book is thus a comprehensive objective biography of both a movement and a man John D Bell is Associate Professor of History at the University of Maryland Baltimore County Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Peasant Power in China Daniel Kelliher, 1992-11-25 Between 1979 and 1989 rural life in China was transformed the communes were dismantled tiny family farms were created government domination of commerce and enterprise was eased and many entrepreneurial ventures were brought to life China s rural reform was arguably the most massive single act of privatization in history Although Deng Xiaoping s government claimed credit for the dramatic innovations Daniel Kelliher shows that it was the peasants themselves with no organization or legal political voice of their own who instigated the most radical changes of the reform era Drawing on his fieldwork in Hubei Province and neighboring provinces in south central China Kelliher traces the origins of reform in three areas family farming marketing and private entrepreneurship and details the local conspiracies deceptions and illegal experiments that peasants used to push state policy in new directions He also addresses the larger issue of how disenfranchised peasants could affect politics at all under a strong state like that of China Analyzing the evolution of state socialism in China Kelliher explains how state ambitions for modernization in the post Mao era made the state socialist system vulnerable to rising peasant power He also shows why the state seized upon economic privatization as a way of securing its political base among the peasantry The book

not only offers a wide ranging portrait of rural politics in contemporary China but also uses the Chinese case to illuminate state peasant relations reform in state socialism and privatization in other third world nations The Power of Peasants Robert Dees, 2024-01-26 Part I provides a background understanding of how the Roman slave economy destroyed its free peasantry and thereby its source of food taxpayers and soldiers Meanwhile free barbarian farmers in northern Europe increased agricultural yields producing more food more farmers more warriors until they overran the empire Further advances in agricultural productivity made possible medieval civilization which with the rise of the feudal class then collapsed into the Hundred Years War and bubonic plague Part II is an in depth study of the evolution of rents debts and forms of social control including serfdom in the town of Memmingen from 1348 1650 Defeats suffered by the townspeople and farmers in the First and Second Cities Wars and the Peasant War secured the feudal class s power and led to economic collapse and the Thirty Years War A chapter on England and Holland shows how rights won by farmers there allowed those countries to take a very different course than Germany Part III answers various opposing interpretations of this period of history including the Malthus Fraud the Little Ice Age and others **Peasants, Power and Applied Social Change** Henry F. Dobyns, Paul Larrabee Doughty, Harold Dwight Lasswell, 1971 **Peasants, Power and Revolution in the Village** Mark Robert Baker, 2002 *Chinese Discourses on the Peasant, 1900-1949* Xiaorong Han, 2012-02-01 Xiaorong Han explores how Chinese intellectuals envisioned the peasantry and its role in changing society during the first half of the twentieth century Politically motivated intellectuals both Communist and non Communist believed that rural peasants and their villages would be at the heart of change during this long period of national crisis Nevertheless intellectuals saw themselves as the true shapers of change who would transform and use the peasantry Han uses intellectuals writings to provide a comprehensive look at their views of the peasantry He shows how intellectuals with varying politics created images of the peasant a supposed contemporary image and an ideal image of the peasant transformed for political ends how intellectuals theorized on the nature of Chinese rural life and how intellectuals conceived their own relationships with peasants P'eng P'ai and the Hai-Lu-feng Soviet Fernando Galbiati, 1985 A Stanford University Press classic **Peasants Power Applied Social Change** Henry F. Dobyns, Paul L. Doughty, Harold Dwight Lasswell, 1971-11 Case study of rural development in the vicos rural community in Peru showing the social change implications of agrarian reform for other American Indian communities and indigenous peoples includes a project evaluation of the 15 year cornell development project explains the use of experimental intervention as a research methodology in social and cultural anthropology and covers the project s results in terms of political participation human relationships etc Bibliography illustrations and statistical tables **Peasant Power in China** Daniel Roy Kelliher, 1992 From 1979 1989 rural life in China was transformed communes were dismantled and government domination eased From field work in Hubei and south central China Kelliher traces the orgins of reform in family farming marketing and private entrepreneurship and shows how peasants instigated reform **Peasants, Lords, and**

State: Comparing Peasant Conditions in Scandinavia and the Eastern Alpine Region, 1000-1750 ,2020-08-10

Peasants Lords and State Comparing Peasant Conditions in Scandinavia and the Eastern Alpine Region 1000 1750 challenges the once widespread view rooted in the historical thinking of the nineteenth century that Scandinavian and especially Norwegian peasants enjoyed a particular peasant freedom compared to their Continental counterparts Markers of this supposed freedom were believed to be peasants widespread ownership of land extensive control over land and resources and comprehensive judicial influence through the institution of the thing The existence of slaves and unfree people was furthermore considered a marginal phenomenon The contributors compare Scandinavia with the eastern Alpine region two regions comprising fertile plains as well as rugged mountainous areas This offers an opportunity to analyse the effect of topographical factors without neglecting the influence of manorial and territorial power structures over the long time span of c 1000 to 1750 With contributions by Markus Cerman Tore Iversen Michael Mitterauer John Ragnar Myking Josef Riedmann Werner R sener Helge Salvesen and Stefan Sonderegger

Peasants Against the State Stephen G. Bunker,1991-06-18

Stephen Bunker challenges the image of peasants as passive victims and argues that coffee growers in the Bugisu District of Uganda because they own land and may choose which crops to produce maintain an unusual degree of economic and political independence Focusing on peasant struggles for market control over coffee exports in Bugisu from colonial times through the reign and overthrow of Idi Amin Bunker shows that these freeholding peasants acted collectively and used the state s dependence on coffee export revenues to effectively influence and veto government programs inimical to their interests Bunker s work vividly portrays the small victories and great trials of ordinary people struggling to control their own economic destiny while resisting the power of the world economy

Peasants in Power Philip Verwimp,2013-06-03 This book shows how Rwanda s development model and the organisation of genocide are two sides of the same coin In the absence of mineral resources the elite organised and managed the labour of peasant producers as efficient as possible In order to stay in power and benefit from it the presidential clan chose a development model that would not change the political status quo When the latter was threatened the elite invoked the preservation of group welfare of the Hutu called for Hutu unity and solidarity and relied on the great mass rubanda nyamwinshi for the execution of the genocide A strategy as simple as it is horrific The genocide can be regarded as the ultimate act of self preservation through annihilation under the veil of self defense Why did tens of thousands of ordinary people massacred tens of thousands other ordinary people in Rwanda in 1994 What has agricultural policy and rural ideology to do with it What was the role of the Akazu the presidential clan around president Habyarimana Did the civil war cause the genocide And what insights can a political economy perspective offer Based on more than ten years of research and engaging with competing and complementary arguments of authors such as Peter Uvin Alison Des Forges Scott Strauss Ren Lemarchand Filip Reyntjens Mahmood Mamdani and Andr Guichaoua the author blends economics politics and agrarian studies to provide a new way of understanding the nexus

between development and genocide in Rwanda Students and practitioners of development as well as everyone interested in the causes of violent conflict and genocide in Africa and around the world will find this book compelling to read

The Hidden Land Cheng Gu, 2019-09-25 The Hidden Land means that a large amount of land in the Ming dynasty 1368 1644 was hidden or unknown since the land was managed by both the administrative and the military systems and only the former was made public while the latter was being hidden due to confidentiality issues This is one of the author's creative findings as a result of his solid textual research and rigorous argumentation Since the Ming state management system had a great impact on the land the population the taxes and corvée the imperial examinations the justice the grass roots organizations and the frontier ethnics during the 500 years from Ming to Qing 1636 1912 the views on the garrisons and guards weisuo in the military system are of great help to review the essential issues of the period which were often misunderstood or neglected before In addition the author introduces the present situation existing problems and basic historical materials in the Ming study which will be beneficial to the Ming researchers and enthusiasts

Peloso, 1999 An account of the way social relations governing the production of cotton in Peru's South Coast changed as capitalism penetrated Peru's agrarian base the analysis is unusual in that the author looks at the plantation system from a peasant point of view
