Dan Smoot

People Along The Way The Autobiography Of Dan Smoot:

People Along the Way Dan Smoot, 1994-01-01 *A Conspiratorial Life* Edward H. Miller, 2024-05-31 A cleverly written finely textured and badly needed study of a pivotal and too often marginalized figure in the development of the modern American Right The Journal of Southern History Though you may not know his name Robert Welch 1899 1985 founder of the John Birch Society is easily one of the most significant architects of our current political moment In *A Conspiratorial Life* the first full scale biography of Welch Edward H Miller delves deep into the life of an overlooked figure whose ideas nevertheless reshaped the American right A child prodigy who entered college at age twelve Welch became an unlikely candy magnate founding the company that created Sugar Daddies Junior Mints and other famed confections In 1958 he funneled his wealth into establishing the organization that would define his legacy and change the face of American politics the John Birch Society Though the group's paranoiac right wing nativism was dismissed by conservative thinkers like William F Buckley its ideas gradually moved from the far right fringe into the mainstream By exploring the development of Welch's political worldview *A Conspiratorial Life* shows how the John Birch Society's rabid libertarianism and its highly effective grassroots networking became a profound yet often ignored or derided influence on the modern Republican Party Miller convincingly connects the accusatory conservatism of the midcentury John Birch Society to the inflammatory rhetoric of the Tea Party the Trump administration Q and more As this book makes clear whether or not you know his name or what he accomplished it's hard to deny that we're living in Robert Welch's America Offers a good angle from which to appraise the fractured state of American conservatism Financial Times **Encyclopedia of Right-Wing Extremism in Modern American History**

Stephen E. Atkins, 2011-09-13 This encyclopedia covers American right wing extremist groups and extremism from the 1930s to the present day including neo Nazis the Ku Klux Klan and various anti government organizations Right wing extremism in America has had an established presence from the 1930s through the present day The election of America's first African American president and the resuscitation of big government policymaking have stimulated a reaction from and a reemergence of right wing extremists Neo Nazis racist skinheads and white supremacists Unfortunately it seems Americans are still living in an age of extremism The *Encyclopedia of Right Wing Extremism in Modern American History* provides useful authoritative information about these groups and their histories covering conservative extremism from the 1930s onward such as white supremacist groups and neo Nazis Christian Identity and other right wing religious movements and anti American government extremists An introductory overview insightful conclusion chapter and useful up to date bibliography are also included *What's Fair on the Air?* Heather Hendershot, 2011-07-15 The rise of right wing broadcasting during the Cold War has been mostly forgotten today But in the 1950s and 60s you could turn on your radio any time of the day and listen to diatribes against communism civil rights the United Nations fluoridation federal income tax Social Security or JFK as well as hosannas praising Barry Goldwater and Jesus Christ Half a century before the rise of Rush

Limbaugh and Glenn Beck these broadcasters bucked the FCC's public interest mandate and created an alternate universe of right wing political coverage anticommunist sermons and pro business bluster A lively look back at this formative era What's Fair on the Air charts the rise and fall of four of the most prominent right wing broadcasters H L Hunt Dan Smoot Carl McIntire and Billy James Hargis By the 1970s all four had been hamstrung by the Internal Revenue Service the FCC's Fairness Doctrine and the rise of a more effective conservative movement But before losing their battle for the airwaves Heather Hendershot reveals they purveyed ideological notions that would eventually triumph creating a potent brew of religion politics and dedication to free market economics that paved the way for the rise of Ronald Reagan the Moral Majority Fox News and the Tea Party

General Walker and the Murder of President Kennedy Jeffrey H. Caufield, M.D., 2015 In *General Walker and the Murder of President Kennedy* The Extensive New Evidence of a Radical Right Conspiracy author Jeffrey H Caufield explores the forces which led Oswald to be in Dallas that day Dr Caufield applies acquired academic methodology in rigorously researching the story through public records private correspondence and a number of sources not available to the general public until the Freedom of Information Act released them

White Protestant Nation Allan J. Lichtman, 2008 Examines the origins development and achievements of conservatism in the United States from the birth of the modern right in the 1920s through the restoration of the conservative consensus at the end of the twentieth century

Nut Country Edward H. Miller, 2015-09-03 Taps the fascinating history of a surprisingly understudied place Dallas to reorient our understanding of America's Republican Right Darren Dochuk author of *Anointed with Oil* On the morning of November 22 1963 President Kennedy told Jackie as they started for Dallas We're heading into nut country today That day's events ultimately obscured and revealed just how right he was Oswald was a lone gunman but the city that surrounded him was full of people who hated Kennedy and everything he stood for led by a powerful group of ultraconservatives who would eventually remake the Republican party in their own image In *Nut Country* Edward H Miller tells the story of that transformation showing how a group of influential far right businessmen religious leaders and political operatives developed a potent mix of hardline anticommunism biblical literalism and racism to generate a violent populism and widespread power Though those figures were seen as extreme in Texas and elsewhere mainstream Republicans nonetheless found themselves forced to make alliances or tack to the right on topics like segregation As racial resentment came to fuel the national Republican party's divisive but effective Southern Strategy the power of the extreme conservatives rooted in Texas only grew Drawing direct lines from Dallas to DC Miller's captivating history offers a fresh understanding of the rise of the new Republican Party and the apocalyptic language conspiracy theories and ideological rigidity that remain potent features of our politics today Well researched and briskly written A timely intelligent and penetrating book The New York Times Book Review

G-Man (Pulitzer Prize Winner) Beverly Gage, 2023-11-14 Now in paperback the Pulitzer Prize winning biography of J Edgar Hoover deemed Masterful an enduring formidable accomplishment a monument to the power of

biography that now becomes the definitive work by The Washington Post and everywhere else Revelatory an acknowledgment of the complexities that made Hoover who he was while charging the turbulent currents that eventually swept him aside The New York Times G Man is the groundbreaking portrait of a colossus who dominated half a century of American history and planted the seeds for much of today s conservative political landscape Hoover transformed a scandal riddled law enforcement backwater into a modern machine one just as oppressive as it was promising He rose to power and then stayed there decade after decade using the tools of the state to create a personal fiefdom unrivaled in U S history Beverly Gage s monumental work explores the full sweep of Hoover s life and career from his birth in 1895 to a modest Washington civil service family to a strongarm for white supremacists and the politicized Christian right serving eight presidents G Man places Hoover back where he once stood in American political history not at the fringes but at the center and uses his story to explain the trajectories of governance policing race ideology political culture and federal power as they evolved over the course of the 20th century A crisply written prodigiously researched and frequently astonishing new biography The New Yorker Gage s penetrating account of Hoover s career especially his many long eclipsed triumphs offers a well timed and sobering perspective as yet another institution in our fractured country struggles to maintain trust The Atlantic Gage s triumph is her deft navigation through Hoover s deep state while reminding us of the abuse of power that remains his enduring legacy The Boston Globe

Failed Führers Graham Macklin,2020-03-27 This book provides a comprehensive history of the ideas and ideologues associated with the racial fascist tradition in Britain It charts the evolution of the British extreme right from its post war genesis after 1918 to its present day incarnations and details the ideological and strategic evolution of British fascism through the prism of its principal leaders and the movements with which they were associated Taking a collective biographical approach the book focuses on the political careers of six principal ideologues and leaders Arnold Leese 1878 1956 Sir Oswald Mosley 1896 1980 A K Chesterton 1899 1973 Colin Jordan 1923 2009 John Tyndall 1934 2005 and Nick Griffin 1959 in order to study the evolution of the racial ideology of British fascism from overtly biological conceptions of white supremacy through racial nationalism and latterly to cultural arguments regarding ethno nationalism Drawing on extensive archival research and often obscure primary texts and propaganda as well as the official records of the British government and its security services this is the definitive historical account of Britain s extreme right and will be essential reading for all students and scholars of race relations extremism and fascism

The Dan Smoot Report ,1966 In The Presence of Our Enemies Ellen McClay,2006-07-10 In the Presence of Our Enemies has been meticulously researched containing facts from years of Congressional investigations as well as authoritative books written by historians and participants alike of the 20 Century s assault on the unique form of government fashioned through as George Washington described a miracle at Philadelphia To achieve this destruction and planned replacement with a socialist society amalgamated into a global government it is first necessary to destroy traditional morality a campaign conducted through

every avenue of communication with particular focus on textbooks and schools Their legacy marches relentlessly onward Meet the sociologists the psychiatrists the educators moral degenerates who banded together from countries around the world focusing on the redistribution of American wealth and changing the culture which gave them birth They gained entry into American Schools colleges legislative halls and their descendants still promote a Fabian Socialist World Society supported by American taxes Nothing has changed since Soviet leader Nikita Khrushchev in 1957 told us what was planned I can prophesy that your grandchildren in America will live under socialism Your grandchildren will not understand how their grandparents did not understand the progressive nature of socialist society **Political Junkies** Claire Bond

Potter, 2020-07-07 A wide ranging history of seventy years of change in political media and how it transformed and fractured American politics With fake news on Facebook trolls on Twitter and viral outrage everywhere it is easy to believe that the internet changed politics entirely In Political Junkies historian Claire Bond Potter shows otherwise revealing the roots of today's dysfunction by situating online politics in a longer history of alternative political media From independent newsletters in the 1950s to talk radio in the 1970s to cable television in the 1980s pioneers on the left and right developed alternative media outlets that made politics more popular and ultimately more partisan When campaign operatives took up e mail blogging and social media they only supercharged these trends At a time when political engagement has never been greater and trust has never been lower Political Junkies is essential reading for understanding how we got here **We the People**

Jill Lepore, 2025-09-16 NEW YORK TIMES BESTSELLER Lepore's 15th book We the People a history of the U S Constitution may be her best yet a capacious work that lands at the right moment like a life buoy as our ship of state takes on water Hamilton Cain Los Angeles Times From the best selling author of These Truths comes We the People a stunning new history of the U S Constitution for a troubling new era The U S Constitution is among the oldest constitutions in the world but also one of the most difficult to amend Jill Lepore Harvard professor of history and law explains why in We the People the most original history of the Constitution in decades and an essential companion to her landmark history of the United States These Truths Published on the occasion of the 250th anniversary of the nation's founding the anniversary too of the first state constitutions We the People offers a wholly new history of the Constitution One of the Constitution's founding purposes was to prevent change Lepore writes Another was to allow for change without violence Relying on the extraordinary database she has assembled at the Amendments Project Lepore recounts centuries of attempts mostly by ordinary Americans to realize the promise of the Constitution Yet nearly all those efforts have failed Although nearly twelve thousand amendments have been introduced in Congress since 1789 and thousands more have been proposed outside its doors only twenty seven have ever been ratified More troubling the Constitution has not been meaningfully amended since 1971 Without recourse to amendment she argues the risk of political violence rises So does the risk of constitutional change by presidential or judicial fiat Challenging both the Supreme Court's monopoly on constitutional interpretation and the flawed theory of originalism

Lepore contends in this gripping and unfamiliar story of our own past that the philosophy of amendment is foundational to American constitutionalism. The framers never intended for the Constitution to be preserved like a butterfly under glass. Lepore argues but expected that future generations would be forever tinkering with it, hoping to mend America by amending its Constitution through an orderly deliberative and democratic process. Lepore's remarkable history seeks too to rekindle a sense of constitutional possibility. Congressman Jamie Raskin writes that Lepore has thrown us a lifeline, a way of seeing the Constitution neither as an authoritarian straitjacket nor a foolproof magic amulet but as the arena of fierce logical passionate and often deadly struggle for a more perfect union. At a time when the Constitution's vulnerability is all too evident and the risk of political violence all too real, *We the People* with its shimmering prose and pioneering research hints at the prospects for a better constitutional future, an amended America.

Conspiracies and Conspiracy Theories in American History

Christopher R. Fee, Jeffrey B. Webb, 2019-05-24 This up to date introduction to the complex world of conspiracies and conspiracy theories provides insight into why millions of people are so ready to believe the worst about our political, legal, religious and financial institutions. Unsupported theories provide simple explanations for catastrophes that are otherwise difficult to understand, from the U.S. Civil War to the Stock Market Crash of 1929 to the terrorist attacks on the World Trade Center in New York. Ideas about shadowy networks that operate behind a cloak of secrecy, including real organizations like the CIA and the Mafia and imagined ones like the Illuminati, additionally provide a way for people to criticize prevailing political and economic arrangements while for society's disadvantaged and forgotten groups, conspiracy theories make their suffering and alienation comprehensible and provide a focal point for their economic or political frustrations. These volumes detail the highly controversial and influential phenomena of conspiracies and conspiracy theories in American society. Through interpretive essays and factual accounts of various people, organizations and ideas, the reader will gain a much greater appreciation for a set of beliefs about political scheming, covert intelligence gathering and criminal rings that has held its grip on the minds of millions of American citizens and encouraged them to believe that the conspiracies may run deeper and with a global reach.

Four Days in November Robert B. Semple, 2003-11 Gathered for the 40th anniversary of the assassination of John F. Kennedy, this is the complete New York Times coverage of the days that changed America forever.

Congressional Record United States. Congress, 2001 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States* 1789-1824, the *Register of Debates in Congress* 1824-1837 and the *Congressional Globe* 1833-1873.

History of Virginia, 1924 **The Light and the Glory (God's Plan for America Book #1)** Peter Marshall, David Manuel, 2009-03-01 Did Columbus believe that God called him west to undiscovered lands? Does American democracy owe its inception to the handful of Pilgrims that settled at Plymouth? If indeed there was a specific divine call upon this nation, is it

still valid today The Light and the Glory answers these questions and many more for history buffs As readers look at their nation s history from God s point of view they will begin to have an idea of how much we owe to a very few and how much is still at stake Now revised and expanded for the first time in more than thirty years The Light and the Glory is poised to show new readers just how special their country is Hearings, Reports and Prints of the House Committee on Ways and Means
