Raymond Erith, Architect Lucy Archer, Raymond Erith, 1985 Raymond Erith Raymond Erith, Lucy Archer, Gainsborough's House, 1979 *Raymond Erith* Raymond Erith, Stephen Jones, Lucy Archer, Gainsborough's House, 1979 *Raymond Erith* Lucy Archer, 2004 *Sir John Soane? Influence on Architecture from 1791* Oliver Bradbury, 2017-07-05 Sir John Soane's Influence on Architecture from 1791 A Continuing Legacy is the first in depth study of this eighteenth century British architect's impact on the work of others extending globally and still indeed the case over 200 years later Author Oliver Bradbury presents a compelling argument that the influence of Soane 1753-1837 has persevered through the centuries rather than waning around the time of his death Through examinations of internationally renowned architects from Benjamin Henry Latrobe to Philip Johnson as well as a number of not so well known Soanean disciples Bradbury posits that Soane is perhaps second only to Palladio in terms of the longevity of his influence on architecture through the course of more than two centuries from the early 1790s to today concluding with the recent return to pure revivalism Previous investigations have been limited to focusing on Soane's late Georgian and then post modern influence this is the first in depth study of his impact over the course of two centuries Through this survey Bradbury demonstrates that Soane's influence has been truly international in the pre modern era reaching throughout the British Isles and beyond to North America and even colonial Australia Through his inclusion of select detailed case studies Bradbury contends that Soane's is a continuing not negated legacy in architecture The Story of Architecture Witold Rybczynski, 2022-11-29 An inviting exploration of architecture across cultures and centuries by one of the field's eminent authors In this sweeping history from the Stone Age to the present day Witold Rybczynski shows how architectural ideals have been affected by technological economic and social changes and by changes in taste The host of examples ranges from places of worship such as Hagia Sophia and Brunelleschi's Duomo to living spaces such as the Katsura Imperial Villa and the Alhambra national icons such as the Lincoln Memorial and the Sydney Opera House and skyscrapers such as the Seagram Building and Beijing's CCTV headquarters Rybczynski's narrative emphasizes the ways that buildings across time and space are united by the human desire for order meaning and beauty This is the story of architecture's physical manifestation of the universal aspiration to celebrate honor and commemorate and an exploration of the ways that each building is a unique product of patrons architects and builders Firm in opinion even handed and rooted in scholarship this book will delight anyone interested in understanding the buildings they use visit and pass by each day **Raymond Erith** Raymond Erith, Lucy Archer, Gainsborough's House, 1979 *The Perfect House* Witold Rybczynski, 2013-02-26 Palladio is the Bible Thomas Jefferson once said You should get it and stick to it With his simple gracious perfectly proportioned villas Andrea Palladio elevated the architecture of the private house into an art form during the late sixteenth century and his influence is still evident in the ample porches columned porticoes grand ceilings and front door pediments of America today In *The Perfect*

House bestselling author Witold Rybczynski whose previous books *Home* *A Clearing in the Distance* *Now I Sit Me Down* have transformed our understanding of domestic architecture reveals how a handful of Palladio's houses in an obscure corner of the Venetian Republic should have made their presence felt hundreds of years later and halfway across the globe More than just a study of one of history's seminal architectural figures *The Perfect House* reflects Rybczynski's enormous admiration for his subject and provides a new way of looking at the special landscapes we call home in the modern world **Noble**

Ambitions Adrian Tinniswood, 2021-09-21 A rollicking tour of the English country home after World War II when swinging London collided with aristocratic values As the sun set slowly on the British Empire its mansions fell and rose Ancient families were reduced to demolishing the parts of their stately homes they could no longer afford dukes and duchesses desperately clung to their ancestral seats and a new class of homeowners bought their way into country life A delicious romp *Noble Ambitions* pulls us into these crumbling halls of power leading us through the juiciest bits of postwar aristocratic history from Mick Jagger dancing at deb balls to the scandals of Princess Margaret Capturing the spirit of the age historian Adrian Tinniswood proves that the country house is not only an iconic symbol but a lens through which to understand the shifting fortunes of the British elite in an era of monumental social change **50 Architecture Ideas You Really Need to**

Know Philip Wilkinson, 2023-09-28 In a series of 50 accessible essays Philip Wilkinson introduces architectural movements and styles throughout history as well as describing some of the greatest architects most important and representative works From the Pyramids of Giza to the Guggenheim the classical orders of Vitruvius to the most recent contemporary trends today *50 Architecture Ideas You Really Need to Know* is a complete introduction to the most important architectural concepts in history **A Change of Heart** Royal Commission on Historical Monuments (England), 1992 This booklet looks at the

architecture built in England since World War II and addresses the problem of how best to preserve it It poses questions on how to decide which are the best post war buildings by what criteria should they be judged and who should do the judging

Radical Pedagogies Harriet Harriss, Daisy Froud, 2025-04-01 The anticipated reduction in the duration of architecture education in the UK and across Europe has encouraged a sense of collective openness towards exploring other models of professional education delivery There's never been a better time to be thoughtfully innovative and take the initiative This book provides a much needed debate about the future of architectural education placing it within its unique historic tradition and raising fundamental questions such as who should be teaching architecture Where should they be situated and should it be viewed as an interdisciplinary rather than silo based subject Featuring voices as varied as digital strategists students and client managers *Radical Pedagogies* consolidates academic and well as practice based evidence into a set of actionable insights aimed at empowering schools educators and students alike **1951 Exhibition of Architecture** Harding

McGregor Dunnett, 2017-11-22 The Festival of Britain is perhaps best known for its South Bank Exhibition promoting British science and art to the post war world but one of the most important elements was the Architecture Exhibition based in Poplar

in East London This exhibition was used to demonstrate the principles of modern town planning that had been laid out by Abercrombie in particular in his County of London Plan The project was named after George Lansbury the Labour MP London County Council LCC member and Poplar councillor It was an effective demonstration of planning ideas adopted since the 1930s by influential planners taking the village as a model and retaining the terraced house as a housing option among medium rise flats Small squares and open spaces were favoured with paved pedestrian spaces all at lower than pre war densities The guide is revealing of the broader thinking in English planning in the mid century It provides an opportunity for looking at conflicts among advocates of different planning ideas in the period of reconstruction and the move by architects to regain control of LCC housing from the Valuer s Department It offers the model of integrated professional specialisms that was seen as central to Modernism s mission It is also an opportunity to describe in more detail the interaction of different professions including for example a sociologist employed by the LCC in the creation of a model for reconstruction

New English Interiors Elizabeth Metcalfe,2024-10 *New English Interiors* is a celebration of an endlessly evolving and consistently forward looking style that is enjoying a renewed popularity among today s young creatives

Understanding Cities Alexander Cuthbert,2011-06-06 *Understanding Cities* is richly textured complex and challenging It creates the vital link between urban design theory and praxis and opens the required methodological gateway to a new and unified field of urban design Using spatial political economy as his most important reference point Alexander Cuthbert both interrogates and challenges mainstream urban design and provides an alternative and viable comprehensive framework for a new synthesis He rejects the idea of yet another theory in urban design and chooses instead to construct the necessary intellectual and conceptual scaffolding for what he terms The New Urban Design Building both on Michel de Certeau s concept of heterology thinking about thinking and on the framework of his previous books *Designing Cities* and *The Form of Cities* Cuthbert uses his prior adopted framework history philosophy politics culture gender environment aesthetics typologies and pragmatics to create three integrated texts Overall the trilogy allows a new field of urban design to emerge Pre existing and new knowledge are integrated across all three volumes of which *Understanding Cities* is the culminating text
