Razon De La Filosofia:

Crítica a la razón en la filosofía del siglo XX José Olimpo Suárez Molano, 2006 *Filosofía y razón* Manuel E. Vázquez, Romà de la Calle, 2005 La difusión de los conocimientos de la universidad a veces demasiado restringidos a las paredes de las aulas de las facultades es un objetivo prioritario y de interés de las instituciones académicas y culturales En este sentido los textos que se reúnen en este libro procedentes del Congreso sobre Emmanuel Kant celebrado en el año 2004 en Valencia permiten acercar el pensamiento del gran filósofo que siguió aquellas jornadas desmintiendo la idea que restringe el interés por la filosofía a una minoría tan limitada como escasa De este modo desde la Universitat de València y el Museu Valencià de la Il·lustració i de la Modernitat MuVIM responsables de aquel Congreso se apuesta por la difusión de las ideas kantianas y se invita a la reflexión y al debate sobre un pensador ilustrado que continúa siendo sugestivo para abordar no sólo las cuestiones estrictamente filosóficas sino también para la fundamentación de problemas políticos tan actuales como la legitimación de la guerra el cosmopolitismo o la construcción de estructuras de gobierno internacionales *La filosofía de Michel Foucault* Esther Díaz, 2003 *Filosofía de la mente* Carlos J. Moya, 2004 Se abordan las cuestiones centrales de la filosofía de la mente el problema mente cuerpo el contenido intencional de determinados estados mentales como las creencias y los deseos y las relaciones entre la mente y el comportamiento *Razón de la filosofía* Julián Marías, 1993 El pensamiento reclama el uso pleno de la razón y el punto de vista personal para comprender la realidad sin eludir las cuestiones capitales respecto a las cuales el hombre necesita orientarse Para ello se poseen hoy los métodos adecuados olvidados y abandonados por la gran mayoría de los que usurpan abusivamente el nombre de filósofo a que hay que tomar en serio y con todo rigor para poseer la vida humana y el horizonte de sus posibilidades **Léxico de filosofía** Jacqueline Russ, 2003-05-07 A la vez guía práctica y obra de referencia este Léxico de Filosofía es una herramienta destinada a todos cuantos se interesan por el acervo de conocimientos que forma parte de la historia del pensamiento y la filosofía y desde luego en primer término a los estudiantes de los últimos cursos de Bachillerato especialmente a los que preparan el examen de Selectividades como a los estudiantes universitarios El libro consta de dos partes complementarias Un diccionario de términos y nociones filosóficas con definiciones claras y precisas ilustradas con aproximadamente 2 000 citas que introducen en el lenguaje filosófico al lector Un diccionario de filósofos entre los que se encuentran los inscritos en los programas de exámenes de Selectividad situando conceptos y nociones en el contexto del pensamiento de los grandes autores Es pues un instrumento indispensable para comprender los textos de la filosofía y preparar de modo útil y adecuado la redacción la disertación y el comentario de textos filosóficos **La ciudad y la razón fronteriza: la filosofía de Eugenio Trías** Rivera García, Antonio, 2022-07-14 La obra de Eugenio Trías ha supuesto una renovación en el conocimiento de la Filosofía de nuestro país y su labor como docente universitario es importante para comprender los fundamentos de la misma Con este libro donde han participado varios autores no se pretende hacer un análisis exhaustivo de su obra sino ofrecer una visión
