Re Presenting The Nation:

Representing the Nation Pamela Erskine-Loftus, Mariam Al-Mulla, Victoria Hightower, 2016-05-26 The 1970s saw the emergence and subsequent proliferation across the Arabian Peninsula of national museums institutions aimed at creating social cohesion and affiliation to the state within a disparate population *Representing the Nation* examines the wide ranging use of exhibitionary forms of national identity projection via consideration of their motivations implications current and future possible historical backgrounds official and unofficial meanings and meanings for both the user visitor and the multiple creators The book responds to due to the importance placed on tradition heritage and national identity across all the states of the Peninsula and the growth of re imagined and new museums the need for far greater discussion and research in these areas

Representing the Nation Jessica Evans, David Boswell, 1999 *Representing the Nation* gathers key writings from leading cultural thinkers to ask what role cultural institutions play in creating and shaping our sense of ourselves as a nation

Representing the Nation Claire Brewster, Keith Brewster, 2013-10-31 Mexico City's staging of the 1968 Olympic Games should have been a pinnacle in Mexico's post revolutionary development a moment when a nation at ease with itself played proud host to a global celebration of youthful vigour *Representing the Nation* argues however that from the moment that the city won the bid the Mexican elite displayed an innate lack of trust in their countrymen Beautification of the capital city went beyond that expected of a host It included the removal of undesirables from sight and the sponsorship of public information campaigns designed to teach citizens basic standards of civility and decency The book's contention is that these and other measures exposed a chasm between what decades of post revolutionary socio cultural reforms had sought to produce and what members of the elite believed their nation to be While members of the Organising Committee deeply resented international scepticism of Mexico's ability to stage the Games they shared a fear that with the eyes of the world upon them their compatriots would reveal Mexico's aspirations to first world status to be a fraud Using a detailed analysis of Mexico City's preparations for the Olympic Games we show how these tensions manifested themselves in the actions of the Organizing Committee and government authorities This book was published as a special issue of the *International Journal of the History of Sport*

Representing the German Nation Mary Fulbrook, Martin Swales, 2000-12-15 Modern Germany with its ruptures from late unification in 1871 through to the formation of two opposing German states provides a case study for an analysis of the issue of representations of identity in Germany since the war

Representing the National Landscape in Irish Romanticism Julia M. Wright, 2014-04-22 Ireland is a country which has come to be defined in part by an ideology which conflates nationalism with the land From the Irish Revival's celebration of the Irish peasant farmer as the ideal Irishman to the fierce history of land claim battles between the Irish and their colonizers notions of the land have become particularly bound up with conceptions of what Ireland is and what it is to be Irish In this book Wright considers this fraught relationship between land and national identity in Irish literature In doing so she presents a new vision of the Irish national landscape as

one that is vitally connected to larger geographical spheres By exploring issues of globalization international radicalism trade routes and the export of natural resources Wright is at the cutting edge of modern global scholarly trends and concerns In considering texts from the Romantic era such as Leslie s Killarney Edgeworth s Limerick Gloves and Moore s Irish Melodies Wright undercuts the nationalist myth of a people of the soil using the very texts which helped to construct this myth Reigniting the field of Irish Romanticism Wright presents original readings which call into question politically motivated mythologies while energizing nationalist conceptions that reflect transnational networks and mobility
