they're not learning as they should. Until now, *How to Reach the Hard to Teach* presents a thoughtful and practical approach to achieving breakthrough success with linguistically and culturally diverse students who struggle in school. Combining elements of the SIOP Model and the FIT Teaching approach, authors Jana Echevarra, Nancy Frey, and Douglas Fisher take stock of what we know about excellent instruction and distill it into five guiding principles: Set high expectations, Provide access to the core curriculum, Use assessment to inform instruction, Attend to language development (both English and academic), and Create a supportive classroom climate. You'll learn specific practices associated with each principle and see how real-life teachers are employing these practices in their classrooms so that all students have the opportunity to learn and receive optimal support for that learning. Every teacher has had the experience of seeing a hard-to-teach student in a new light and realizing all he or she might achieve. This book is about shining that light of possibility on the students who challenge us, most interrogating our beliefs and taking action to ensure they receive the best instruction we have to offer.

Preparing Every Teacher to Reach English Learners Joyce W. Nutta, Kouider Mokhtari, Carine Strebel, 2020-07-29 2013 Outstanding Book Award American Association of Colleges for Teacher Education AACTE *Preparing Every Teacher to Reach English Learners* presents a practical, flexible model for infusing English learner (EL) instruction into teacher education courses. The editors outline the key steps involved in this approach: winning faculty support, assessing needs, and developing capacity, and share strategies for avoiding pitfalls. The central chapters feature sample courses illustrating how EL content can be incorporated into standard courses: human development, learning disabilities, and social foundations, and across subject areas and topics: math, science, social science, physical education, and classroom management. Most preservice teacher candidates report that they feel unprepared to work with English learners. This practical, flexible model for infusing EL content into teacher education will provide an invaluable resource in shaping the next generation of teachers.
