Reading Contemporary Serial Television Universes Paola Brembilla, Ilaria A. De Pascalis, 2018-05-25 *Reading Contemporary Serial Television Universes* provides a new framework the metaphor of the narrative ecosystem for the analysis of serial television narratives Contributors use this metaphor to address the ever expanding and evolving structure of narratives far beyond their usual spatial and temporal borders in general and in reference to specific series Other scholarly approaches consider each narrative as composed of modular elements which

combine to create a bigger picture The narrative ecosystem approach on the other hand argues that each portion of the narrative world contains all of the main elements that characterize the world as a whole such as narrative tensions production structures creative dynamics and functions The volume details the implications of the narrative ecosystem for narrative theory and the study of seriality audiences and fandoms production and the analysis of the products themselves

Neverending Stories R. Lyle Skains, 2022-12-29 Winner of the 2023 N Katherine Hayles Award for Criticism of Electronic Literature Digital fiction has long been perceived as an experimental niche of electronic literature Yet born digital narratives thrive in mainstream culture as communities of practice create and share digital fiction filling in the gaps between the media they are given and the stories they seek Neverending Stories explores the influences of literature and computing on digital fiction and how the practices and cultures of each have impacted who makes and plays digital fiction Popular creativity emerges from subordinated groups often excluded from producing cultural resources accepting the materials of capitalism and inverting them for their own carnivalesque uses Popular digital fiction goes by many different names webnovels adventure games visual novels Twitter fiction webcomics Twine games walking sims alternate reality games virtual reality

films interactive movies enhanced books transmedia universes and many more The book establishes digital fiction in a foundation of innovation tracing its emergence in various guises around the world It examines Infocom whose commercial success with interactive fiction crumbled in no small part because of its failure to consider women as creators or consumers It takes note of the brief flourish of commercial book apps and literary games It connects practices of cognitive and conceptual interactivity and textual multiplicity dating to the origins of the print novel to the feminine It pushes into the technological future of narrative in immersive and mixed realities It posits the transmedia franchises and the practices of fanfiction as examples of digital fiction that will continue indefinitely regardless of academic notice or approval

Reading and Relevance, Reimagined Katie Sciorba, 2024 What do we mean when we say that a text is relevant to a young person or to a group of young people And how might a reimagining of relevance shaped through the voices of young men of color enhance literacy teaching and learning Based on case studies of six young Black Latino and South Asian men and their reading experiences this book reconceptualizes the term relevance as it applies to and is applied within literacy education middle school through college The author reveals how four dimensions of relevance Identity Spatiality Temporality and Ideology can guide educators in supporting the reading and meaning making experiences of students in ways that honor the complexities of their lives and enhance their criticality Sciorba frames relevance from a student centered perspective as conditions that are practically socially and or conceptually applicable to one's life Readers can use this book to disrupt problematic enactments of relevance in literacy spaces that are rooted in assumptions about who young people are culturally or otherwise as well as how they think and maneuver through their complex worlds

Book Features Provides a nuanced understanding of relevance in literacy education in order to successfully enact culturally relevant pedagogy Draws on scholarly literature from a broad range of fields including sociology cultural studies literary

studies and physical science studies Showcases what a nondeficit approach to working with Black Latino South Asian and other young people of color can look like in educational contexts Examines data from longitudinal qualitative studies with six students and young men of color that took place across 10 years beginning in a New York City middle school *A New Latin Reader with Exercises in Latin Composition* Albert Harkness, 1879
