**Reading the Dream** Peter Dale Scott,2024-01-16 In Reading the Dream the poet and scholar Peter Dale Scott has composed a poem in prose for our time This is a work of art emerging from a passionate social vision Scott examines our present state of post secularity through the imagination of the past Using devices such as the rational and nonrational or the yin and the yang Scott focuses not just on the reasoned current of written history but also on myths beliefs and even dreams The author searches for moreness throughout the culture of the past He reawakens the ultimate human quest for transcendence of ourselves to repair a political order in ruins This book seeks to transcend the slow breakdown of our current global political order by returning to its generative cultural roots in enmindment that is both secular and spiritual enlightenment It sees our emerging global culture as dialectical on interconnected levels the tension between scientific yang analysis and non rational yin hopes and dreams the source of this tension in the bicameral human brain in competing rural and urban ethical values and in the master servant relationship Behind the screen history of chaotic political violence it revives a vision of cultural progress in which the vertical imposition of political order from above is slowly supplanted by the emerging post secular tolerance of cultural diversity including both religion and science from below
