Reader On Punishment:

Why Punish? How Much? Michael Tonry, 2010-12-07 Punishment like all complex human institutions tends to change as ways of thinking go in and out of fashion Normative political social psychological and legal ideas concerning punishment have changed drastically over time and especially in recent decades Why Punish How Much collects essays from classical philosophers and contemporary theorists to examine these shifts Michael Tonry has gathered a comprehensive set of readings ranging from Kant Hegel and Bentham to recent writings on developments in the behavioral and medical sciences Together they cover foundations of punishment theory such as consequentialism retributivism and functionalism new approaches like restorative communitarian and therapeutic justice and mixed approaches that attempt to link theory and policy This volume includes an accessible introduction that chronicles the development of punishment systems and theorizing over the course of the last two centuries Why Punish How Much provides a fresh and comprehensive approach to thinking about punishment and sentencing for a broad range of law sociology philosophy and criminology courses [A Reader on Punishment](#) Antony Duff, 1994 Why we punish who we punish and how we punish are central elements of any discussion of the role of law in modern society In this impressive collection two leading experts on the theory of punishment have selected a range of articles which have made important and influential contributions to the way in which punishment is understood in contemporary society The collection is prefaced by an original introduction written by the two editors in which key concepts are identified Each article is also prefaced by a short introduction setting out the issues to be discussed Throughout the book the aim of the editors is to demonstrate that normative and empirical questions about punishment are deeply interrelated and to show the importance of an interdisciplinary approach to understanding this vital social institution **Punishment, Communication, and Community** R. A. Duff, 2003-05-15 The question What can justify criminal punishment becomes especially insistent at times like our own of penal crisis when serious doubts are raised not only about the justice or efficacy of particular modes of punishment but about the very legitimacy of the whole penal system Recent theorizing about punishment offers a variety of answers to that question answers that try to make plausible sense of the idea that punishment is justified as being deserved for past crimes answers that try to identify some beneficial consequences in terms of which punishment might be justified as well as abolitionist answers telling us that we should seek to abolish rather than to justify criminal punishment This book begins with a critical survey of recent trends in penal theory but goes on to develop an original account based on Duff's earlier Trials and Punishments of criminal punishment as a mode of moral communication aimed at inducing repentance reform and reconciliation through reparation an account that undercuts the traditional controversies between consequentialist and retributivist penal theories and that shows how abolitionist concerns can properly be met by a system of communicative punishments In developing this account Duff articulates the liberal communitarian conception of political society and of the role of the criminal law on which it depends he discusses the

meaning and role of different modes of punishment showing how they can constitute appropriate modes of moral communication between political community and its citizens and he identifies the essential preconditions for the justice of punishment as thus conceived preconditions whose non satisfaction makes our own system of criminal punishment morally problematic Punishment Communication and Community offers no easy answers but provides a rich and ambitious ideal of what criminal punishment could be an ideal of what criminal punishment could be and ideal that challenges existing penal theories as well as our existing penal theories as well as our existing penal practices **Punishment, Justice and International Relations** Anthony F. Lang Jr.,2009-10-16 This book examines the international political order in the post Cold War era arguing that this order has become progressively more punitive This is seen as resulting from both a human rights regime that emphasizes legal norms and the aggressive policies of the United States and its allies in the War on Terror While punishment can play a key role in creating justice in a political system serious flaws in the current global order militate against punishment enforcing global norms The book argues for the necessary presence of three key concepts justice authority and agency if punishment is to function effectively and explores four practices in the current international system intervention sanctions counter terrorism policy and war crimes tribunals It concludes by suggesting ways to revise the current global political structure in order to enable punitive practices to play a more central role in creating a just world order This book will be of much interest to students of International Law Political Science and International Relations
