Reader On The Sanskrit Grammarians:

A Reader on the Sanskrit Grammarians Frits Staal, 1972 This book makes available to linguists and Sanskritists a collection of the most important articles on the Sanskrit grammarians and provides a connected historical outline of their activities

Bhartrhari, Philosopher and Grammarian Saroja Bhate, Johannes Bronkhorst, 1994-01-01 Bhartrhari lived in the tenth century c e Being both a grammarian and philosopher his influence on subsequent grammatical and philosophical thought in India has been enormous in spite of this modern scholarship has not yet given him the attention he deserves no doubt because his extent writings are difficult and were not until recently available in satisfactory editions Interest among scholars for Bhartrhari is now however growing This is the reason why an international conference on Bhartrhari was organized in January 1992 in Pune under the joint auspices of the University of Poons and the University of Lausanne Switzerland The present volume contains some of the papers read at this conference as well as an up to date bibliography on Bhartrhari

Samskrta Edward Delavan Perry, 1978-01-01 Sankrit Primer provides a useful outline for a rapid review of Sanskrit grammar and language It combines in a brief and careful manner Buhler s exercises with explanations of Whitney The whole subject is covered in forty five lessons systematically arranged Vocabularies are prefixed to each exercise Sanskrit English and English Sanskrit glossaries are appended to facilitate easy understanding Publisher description

Mallinatha's Ghanatapatha on the Kiratarjuniya I-VI Mallinātha, 1984

Historical Grammar of Apabhramśa Ganesh Vasudeo Tagare, 1987-01-01 Apabhramsa forms the previous stage of modern Indo Aryan languages like Hindi Gujarati Marathi Bengali etc its study is essential not only for its literature but also for the formation of modern Indian languages The present volume is a chrono regional study of nearly all the edited Apabhramsa texts available The Apabhramsa texts were classified according to the place of their composition and the linguistic data was arranged in a chronological sequence and thus the space time context of each forms was determined After illuminating the term Apabhramsa and fixing its period and classifying the texts in their space time context the author offers a general conspectus

of the phonological and morphological features of Apabhramsa in the Introduction Then follow sections on Phonology Declension Conjugation Nominal Stem formation according to diachronic method connecting the evolved linguistic features to its modern descendant wherever possible The work ends with an Index Verborum which lists all the words occurring in the study with their Sanskrit and Prakrit etymologies as well as references to their cognates in the modern Indo Aryan As Dr Siddheshwar Varma says It is the history of Indo Aryan between A D 500 1200 **A Survey of Hinduism** Klaus K.

Klostermaier,1994-08-30 This revision reflects recent developments and events in India In particular a new Part has been added entitled The Meeting of East and West in India which contains a new chapter on Mahatma Gandhi There is also a new chapter on the position of women in Hinduism In addition to the added chapters the entire book has been rewritten with many new illustrations and maps This book provides a comprehensive survey of the Hindu tradition dealing with the history of Hinduism the sacred writings of the Hindus the Hindu worldview and the specifics of the major branches of Hinduism Vaisnavism S aivism and S aktism It also focuses on the geographical ties of Hinduism with the land of India the social order created by Hinduism and the various systems of Hindu thought Klostermaier describes the new development of Hinduism in the 19th and 20th centuries including present day political Hinduism and the efforts to turn Hinduism into a modern world religion A unique feature of this book is its treatment of Hinduism in a topical fashion rather than by chronological description of the development of Hinduism or by summary of the literature The complexities of Hindu life and thought are thus made real to the reader Hindus will recognize it as their own tradition **Lost Worlds** Jonathan Dewald,2015-09-10

Today s interest in social history and private life is often seen as a twentieth century innovation Most often Lucien Febvre and the Annales school in France are credited with making social history a widely accepted way for historians to approach the past In Lost Worlds historian Jonathan Dewald shows that we need to look back further in time into the nineteenth century when numerous French intellectuals developed many of the key concepts that historians employ today According to Dewald we need to view Febvre and other Annales historians as participants in an ongoing cultural debate over the shape and meanings of French history rather than as inventors of new topics of study He closely examines the work of Charles Augustin Sainte Beuve Hippolyte Taine the antiquarian Alfred Franklin Febvre himself the twentieth century historian Philippe Ari s and several others A final chapter compares specifically French approaches to social history with those of German historians between 1930 and 1970 Through such close readings Dewald looks beyond programmatic statements of historians intentions to reveal how history was actually practiced during these years A bold work of intellectual history Lost Worlds sheds much needed light on how contemporary ideas about the historian s task came into being Understanding this larger context enables us to appreciate the ideological functions performed by historical writing through the twentieth century **Catholic and French Forever** Joseph F. Byrnes,2005-11-02 It is often said that there are two Frances Catholic and secular This notion dates back to the 1790s when the revolutionary government sought to divorce Catholic Christianity

from national life While Napoleon formally reconciled his regime to France's millions of Catholics church state relations have remained a source of conflict and debate throughout the nineteenth and twentieth centuries In Catholic and French Forever Joseph Byrnes recounts the fights and reconciliations between French citizens who found Catholicism integral to their traditional French identity and those who found the continued presence of Catholicism an obstacle to both happiness and progress He does so through stories of priests legislators intellectuals and pilgrims whose experiences manifest the problem of being both Catholic and French in modern France Byrnes finds that loyalties to the French nation and Catholicism became so incompatible in the revolutionary era that Catholic believers responded defensively across the nineteenth century politicizing both religious pilgrimage and the languages of religious instruction He shows that a *d'tente* emerged in the first decades of the twentieth century with the respect given to priests in arms during World War I and to the work of religious art historian mile M le This *d'tente* has lasted precariously and with interruption up to the present day

The "grammar" of Sacrifice Naphtali S. Meshel, 2014 Focusing on the idealized sacrificial system represented in the Priestly laws in the Pentateuch this study demonstrates that a ritual system is describable in terms of a set of concise unconsciously internalized generative rules analogous to the grammar of a natural language *Mallinātha's Ghaṇṭāpatha on the Kirātārjunīya I-VI* J. Encyclopedia of Asian Philosophy Oliver Leaman, 2006-10-19 Incorporating cultural and religious contexts this unique Encyclopedia provides a vital guide to the main concepts and thinkers in Asian philosophy starting with Abhidharma and ending with Zurvan The main philosophical trends and thinkers in each geographical area are featured with an emphasis on endtemporary developments and movements The A Z structured encyclopedia emphasizes that Asian philosophy is not merely an ancient form of thought but that it is a living philosophy with roots in the past and also a potent and animate presence today This translates into the reciprocal exchange of theories between Eastern and Western thinking for example of new schools of thought such as orientalism Requiring no prior knowledge of philosophy religion or Asian cultures this book is essential reading for students teachers and the interested individual who wishes to gain an understanding of the philosophical basis to Asian cultural systems

The German Gita Bradley L. Herling, 2014-02-04 How did the Bhagavadgīt first become an object of German philosophical and philological

inquiry How were its foundational concepts initially interpreted within German intellectual circles and what does this episode in the history of cross cultural encounter teach us about the status of comparative philosophy today This book addresses these questions through a careful study of the figures who read translated and interpreted the Bhagavadgītā around the turn of the nineteenth century in Germany J G Herder F Majer F Schlegel A W Schlegel W von Humboldt and G W F Hegel Methodologically the study attends to the intellectual contexts and prejudices that framed the early reception of the text But it also delves deeper by investigating the way these frameworks inflected the construction of the Bhagavadgītā and its foundational concepts through the scholarly acts of excerpting anthologization and translation Overall the project contributes to the pluralization of Western philosophy and its history while simultaneously arguing for a continued critical alertness in cross cultural comparison of philosophical and religious worldviews

Universals Frits Staal, 1988-03-23 This collection of articles and review essays including many hard to find pieces comprises the most important and fundamental studies of Indian logic and linguistics ever undertaken Frits Staal is concerned with four basic questions Are there universals of logic that transcend culture and time Are there universals of language and linguistics What is the nature of Indian logic And what is the nature of Indian linguistics By addressing these questions Staal demonstrates that contrary to the general assumption among Western philosophers the classical philosophers of India were rationalists attentive to arguments They were in this respect unlike contemporary Western thinkers inspired by existentialism or hermeneutics and like the ancient Chinese Greeks and many medieval European schoolmen only as Staal says more so Universals establishes that Asia's contributions are not only compatible with what has been produced in the West but a necessary ingredient and an essential component of any future human science
