Early 3 Rs Lee Mountain, 2013-12-16. This practical, reader-friendly textbook for preservice and in-service early childhood education and early literacy courses provides how-to instructions for promoting emergent literacy in reading, writing, and arithmetic from preschool into the primary grades. Early 3 Rs answers the question: What can I SAY and DO to give each child the best possible start on the 3 Rs? With the strategies and materials in this book, a teacher can give personalized, direct instruction in the 3 Rs to a beginner in just a few minutes a day. The early chapters tell how to prepare a young child for reading, writing, and arithmetic. Subsequent chapters show how to give a beginner an early start on learning the 3 Rs. All strategies begin with the oral approach from phonemic awareness to arithmetic talk and then progress to print that is personally meaningful to a young child. Early 3 Rs includes arithmetic as a component of early literacy. Gives developmentally appropriate methods for direct teaching of the 3 Rs. Provides scripts of what the teacher can say to promote early learning. Helps education students in field-based classes offer personalized instruction. Early 3 Rs is written to be very reader-friendly; the approach is intentionally eclectic; the writing deliberately avoids heavy theory; the goal is to provide an easy-to-use, highly practical and accessible guide for those who work in early childhood education settings.

Scott, Foresman Reading, 2000. Preparing Children With Disabilities for Life. Robert Evert Cimer, 2002-12-17. Educating students with disabilities is a team process. By federal law, parents must be involved in the development of their child's educational plan. Unfortunately, few parents or regular educators understand special education, its terms, philosophies, and processes. This book explains in layperson terms what special education is and how to make the special education process more successful for everyone involved. Chapters cover history and legalities of preparing children with disabilities for life, transition of families, preparation for employment, residential living, community adjustment, recreation, interpersonal relationships, life-long learning, and developing educational plans. Hundreds of additional resources for parents of children with disabilities, including lists of professional organizations, useful websites, support groups, and other books for further learning on special education, are also provided. While intended for parents and family members of children with disabilities, it will also be of interest to educators who are unfamiliar with
