## Readers And Mythic Signs:

Readers and Mythic Signs Debra Modellmog, 1993 Some literary scholars view myth criticism as passe an approach to literature that enjoyed a heyday in the 1950s and 1960s before being replaced by approaches that are considered to be more theoretically sophisticated and satisfying such as feminism new historicism and deconstruction Modellmog argues that there are many good reasons not to cast out myth criticism from the community of critical approaches Most obvious among them is that myth has attracted many writers of this century from James Joyce to Thomas Pynchon Virginia Woolf to Flannery O Connor Thomas Mann to Alain Robbe Grillet William Faulkner to Alberto Moravia and that to ignore myth is to dismiss an essential part of their work Modellmog suggests that by reconstruing the relationship between myth and literature we will find that mythic approaches are frequently not only necessary but also highly stimulating engaging readers in many varieties of questions quests and conclusions Publisher description

**Reading Desire** Debra Modellmog, 1999 Whether revered for his masculinity condemned as an icon of machismo or perceived as possessing complex androgynous characteristics Ernest Hemingway is acknowledged to be one of the most important twentieth century American novelists For Debra A Modellmog the intense debate about the nature of his identity reveals how critics desires give shape to an author s many guises In her provocative book Modellmog interrogates Hemingway s persona and work to show how our perception of the writer is influenced by society s views on knowledge power and sexuality She believes that recent attempts to reinvent Hemingway as man and as artist have been circumscribed by their authors investment in heterosexist ideology she seeks instead to situate Hemingway s sexual identity in the interface between homosexuality and heterosexuality Modellmog looks at how sexual orientation gender race nationality able bodiedness and the intersections of these elements contribute to the formation of desire Ultimately she makes a far reaching and suggestive argument about multiculturalism and the canons of American letters asserting that those who teach literature must be aware of the politics and ethics of the authorial constructions they promote

a post 9 11 American audience In *The Smallville Chronicles Critical Essays on the Television Series* scholars examine the multiple narratives of the Smallville universe Addressing issues related to gender sexuality national identity myth history and politics these essays explore how the series uses the Superman story to comment on contemporary social issues Additional essays investigate the complex relationship the show s audience has with the characters through blogging fan fiction visits to filming locations and the creation of websites As the first book length study specifically focused on the Smallville television series this collection is an excellent text for studies in science fiction fandom and teen television scholarship and it will also have general appeal to fans of the show

**The Methods of the Gernet Classicists (RLE Myth)** Roland Champagne, 2015-03-05 The Gernet Centre was founded as a place where the structural method could be applied to the classics Structuralists attribute the survival origin and function of myths to

common crosscultural factors they identify as structures As this book first published as *The Structuralists on Myth* in 1992 explains these structures are bundles of information not obvious either to the narrator or to the listener The bundles are collected features that reveal either the reasons for the survival of myths or their origins or their functions within their contexts The structuralists consider themselves to have talents as the collectors from myths of these bundles of information

The Classics and Literature for Children and Young Adults*, 2016-11-01 In *The Classics and Children's Literature between West and East* a team of contributors from different continents offers a survey of the reception of Classical Antiquity in children's and young adults literature by applying regional perspectives *Handbook of Children and the Media* Dorothy G. Singer, Jerome L. Singer, 2012 *Handbook of Children and the Media* brings together the best known scholars from around the world to summarize the current scope of the research in this field **Studies in Latin American Popular Culture**, 1982 Media Semiotics Jonathan Bignell, 1997 Using examples such as the Wonderbra advertisements and the film *Waterworld* Bignell presents an investigation of the critical approach to contemporary media studies and discusses the challenges posed by post structuralist theory and postmodernism Leisure Myths and Mythmaking Brett Lashua, Simon Baker, Troy Glover, 2022-11-10 This book centralizes powerful leisure stories that may otherwise be understood as myths sometimes recognized often less so that circulate in the field of leisure studies and beyond In everyday use a myth perpetuates a popularly held belief that is false or untrue However in social and cultural theories myths are more complex as partial truths that privilege particular versions of a shared social reality We see myth as having an absent presence in leisure studies and want to know what myths are what they do and how they circulate and shape people's leisure lives Myths can do more than obfuscate they often animate people's lives motivate collective action and inspire change As the chapters in this edited volume explore in further detail leisure myths and mythmaking involve complex relations in the gaps between reality and imagination from the shared myths of musical legends to myths of placemaking and communities as well as from origin myths of sport practices to fantasy and festivals to the importance of storytelling as mythmaking in tourism In different ways each of these chapters alerts the readers to the absent presence of myths and mythmaking in leisure research The chapters in this book were originally published as a special issue of *Leisure Sciences* **Reading History in the Roman Empire** Mario Baumann, Vasileios Liotsakis, 2022-01-19 Although the relationship of Greco Roman historians with their readerships has attracted much scholarly attention classicists principally focus on individual historians while there has been no collective work on the matter The editors of this volume aspire to fill this gap and gather papers which offer an overall view of the Greco Roman readership and of its interaction with ancient historians The authors of this book endeavor to define the physiognomy of the audience of history in the Roman Era both by exploring the narrative arrangement of ancient historical prose and by using sources in which Greco Roman intellectuals address the issue of the readership of history Ancient historians shaped their accounts taking into consideration their readers tastes and this is evident on many different levels

such as the way a historian fashions his authorial image addresses his readers or uses certain compositional strategies to elicit the readers affective and cognitive responses to his messages The papers of this volume analyze these narrative aspects and contextualize them within their socio political environment in order to reveal the ways ancient readerships interacted with and affected Greco Roman historical prose
