A Dog's Work

Did you know that some dogs have jobs? A service dog is trained to help a human do many things. Service dogs can help their owners with tasks such as hearing, seeing, opening doors, turning on lights, and picking things up.

Seeing eye dogs are trained at a special school to help a person who can't see well. These dogs learn how to guide their owners, but also how to keep them safe from danger. They help their owners walk in a line, cross the street, and climb stairs safely.

Service dogs go everywhere with their owners. They usually wear a special vest to show that they are working and not playing. If you see a service dog, do not pet the dog unless the owner says you can.

This text contains two examples of words in a list. The sentence that lists some of the tasks a service dog can do is in the first section. List specific things a seeing eye dog does for its owner in the second section. Help your child do this by separating the words in the list. Model how a fluent reader reads each comma. Now ask your child to fluently read the sentences.

FOCUS: read to connect the meaning of the title with the text.

FOCUS: read to find the purpose.

FOCUS: read to learn more information from the illustrations.

FOCUS: read to be able to teach someone else.

SECOND STORY WINDOW

Reading Fluency Level J:

Reading Fluency Timothy Rasinski, William Rupley, David Paige, Chase Young, 2021-01-21 Reading fluency has been identified as a key component of proficient reading. Research has consistently demonstrated significant and substantial correlations between reading fluency and overall reading achievement. Despite the great potential for fluency to have a significant outcome on students' reading achievement, it continues to be not well understood by teachers, school administrators, and policy makers. The chapters in this volume examine reading fluency from a variety of perspectives. The initial chapter sketches the history of fluency as a literacy instruction component. Following chapters examine recent studies and approaches to reading fluency, followed by chapters that explore actual fluency instruction models and the impact of fluency instruction. Assessment of reading fluency is critical for monitoring progress and identifying students in need of intervention. Two articles on assessment: one focused on word recognition and the other on prosody, expand our understanding of fluency measurement. Finally, a study from Turkey explores the relationship of various reading competencies, including fluency, in an integrated model of reading. Our hope for this volume is that it may spark a renewed interest in research into reading fluency and fluency instruction and move toward making fluency instruction an even more integral part of all literacy instruction.

Reading Fluency: Reader, Level D Camille Blachowicz, 2003-07-01 Jamestown's Reading Fluency series: a research-based approach to increasing fluency can help students become more fluent readers. Students work in pairs and at comfortable levels practice reading aloud smoothly, accurately, and expressively. One student reads aloud a narrative fiction or nonfiction passage from the non-consumable Reader A; a partner uses the consumable Reader's Record marking errors and scoring the oral reading. Repeated readings encourage students to improve their fluency.

Handbook on the Science of Literacy in Grades 3-8 Susan B. Neuman, Melanie R. Kuhn, 2025-09-10 From foremost authorities, this needed work demonstrates the importance of a science of literacy perspective for teaching and learning beyond the primary grades. Contributors present cutting-edge research on reading and writing development in grades 3-8 and review evidence-based classroom practices and professional learning frameworks. The Handbook explores how to support upper elementary and middle grades learners in improving morphological knowledge and vocabulary, understanding text complexity, and building comprehension. It describes effective ways to meet the instructional needs of struggling readers and writers, including multilingual students and those with learning disabilities. Timely topics include multi-tiered systems of support, student motivation and engagement, adaptive teaching, digital and multimodal literacies, and culturally responsive and sustaining practices.
