readers with little or no experience in programming in R and Python who wish to quickly learn what is necessary and be able to conduct marketing research by running tests easily in R or Python A number of marketing research textbooks have been using SPSS or SAS for many years Conversely R and Python can be downloaded and installed in a personal computer for free Instructors and students do not have to go to a computer room in a university to use SPSS or SAS anymore Instead students can run R or Python on their personal computers For any company growth comes either from organic growth of existing products or from launching successful new products Due to competition in the marketplace each company's marketer must determine whether or not it is time to develop and launch a new product This book covers important frameworks and concepts of marketing research for developing a new product

Measures of Self-concept Ruth C. Wylie, 1989-01-01 Ruth C Wylie's two volumes of *The Self Concept* published by Nebraska in 1974 and 1979 evaluated psychological and sociological studies of self concept and self esteem Looking at a plethora of tests Wylie found in 1974 that very few had been adequately conceived or implemented Many produced results that were unverifiable or specious Her findings had disturbing implications not only for the tests themselves but for substantive research based upon them In the 1980s psychometric tests of self concept have continued to proliferate Wylie has continued to assess them *Measures of Self Concept* briefly summarizes the psychometric criteria for self concept tests as fully discussed in Wylie's 1974 book and the present general state of methodological adequacy of currently used earlier tests and some promising new ones still under development Although Wylie still finds serious shortcomings she notes a greater attempt today to increase and evaluate the validity of self concept indices This book presents detailed up to date information about and psychometric evaluations of ten self concept tests that appear to be the most meritorious candidates for current use and for further research and development It is the first book since her 1974 volume to review specific as well as general measures of self esteem for a range of ages from preschool to adult
