Conceptual Exploration Bernhard Ganter, Sergei Obiedkov, 2016-05-26 This is the first textbook on attribute exploration its theory its algorithms for applications and some of its many possible generalizations Attribute exploration is useful for acquiring structured knowledge through an interactive

process by asking queries to an expert. Generalizations that handle incomplete, faulty, or imprecise data are discussed, but the focus lies on knowledge extraction from a reliable information source. The method is based on Formal Concept Analysis, a mathematical theory of concepts and concept hierarchies, and uses its expressive diagrams. The presentation is self-contained. It provides an introduction to Formal Concept Analysis with emphasis on its ability to derive algebraic structures from qualitative data which can be represented in meaningful and precise graphics.

Antarctic Exploration Parallels for Future Human Planetary Exploration: A Workshop Report Stephen J. Hoffman, 2002. Four Antarctic explorers Charles Bentley, Richard Cameron, Mario Giovinetto, and Charles Swinbank were invited to a workshop at Johnson Space Center (JSC) to provide expert assessments of NASA's current understanding of future human exploration missions beyond low Earth orbit. At JSC, the explorers were given tours of development, training, and scientific facilities, as well as documentation of operational scenarios for future planetary exploration. This report records their observations about these facilities and plans in answers to a series of questions provided to them before the workshop.

The Modern Yogi's Guide To Self-Exploration: A Creative Journey Through The 7 Chakra System Ely Bakouche, 2021-05-01. This book is a collection of reflections, prompts, tools, and practical exercises to support your self-discovery, mental, emotional, physical well-being, and healing in a sustainable way. What You'll Find Inside: An introduction to the myths in our modern understanding of the chakra system and alternative ways of thinking; 7 chapters based on the ancient wisdom of the chakras to anchor your reflections and healing in various topics like emotional awareness, confidence, or belonging; Everyday challenges/exercises to widen your understanding of your yoga practice and integrate seamlessly into your daily life; Illustrations by artist Katya Uspenkaya. Author's Note: From a very early age, I've felt like the world was spinning too fast. I was always playing catchup and going against my inner natural pace. Yoga for me became a way to connect with my intuitive rhythm. It has taught me again and again about what it means to simply be with myself and with the world around me. After a while, I started wondering if I could stay as present in everyday challenges and happenings as I was when I was moving and breathing in my asana practice. I'd started on a yoga mat, but my practice

never felt quite powerful enough to infiltrate all areas of my life Why was it so difficult to say no to things I didn't want to do when I'd been learning about that in my physical practice Why would I not let myself flow in my creative projects as much as my breath during meditation This book is part of my journey of discovering how yoga can truly be a practice of every day every hour every minute It is a collection of my attempts at putting together building blocks of awareness so I always find pockets of connection whether I'm sitting on a loud train cooking a meal or deep into my email inbox I hope you find comfort and ways to cultivate confidence through these pages May the reflections and practice build the freedom and intuition you need to let the wonderful practice of yoga take the shape it needs to serve you and your communities With love and curiosity Ely
