## **Redesigning Teacher Education Suny Series Teacher Preparation And Development:**

*Redesigning Teacher Education* Alan R. Tom, 1997-01-01 Explores the shortcomings of teacher education and proposes design principles for rethinking teacher preparation Establishes a reform agenda for teacher education faculties Alan Tom is among the best at relating important issues in teacher education and a critical reading of the literature with his own professional experience This book is ambitious It lives up to the claim of examining political and institutional problems along with conceptual and intellectual ones This is something few teacher educators attempt and is a critical area to open up for sustained analysis Drawing upon events from his career as a teacher educator Alan R Tom candidly analyzes the predominant criticisms of teacher education and rejects the common tendency to infer the teacher education curriculum from such ideas as metaphors for teaching or knowledge He proposes eleven design principles to serve as a reform agenda including creating programs capable of self renewal having faculty model the desired image and skills of teaching and rethinking the sequence of practice and theory Each principle identifies a differing dimension for the conceptual and structural redesign of teacher preparation Four specific change strategies are evaluated as well task force top down piloting and family style The low status of teacher educators and the excessive regulation of teacher education are also examined as is the failure to give adequate attention to the administrative organization for teacher education Resources in Education ,2001-10 *Redesigning Teaching* William A. Firestone, Beth D. Bader, 1992-10-01 Redesigning Teaching provides concrete case studies of school districts implementing teacher reforms The cases describe the changes give the history and dynamics of each project examine how teachers respond to new policies and procedures and tell how state policy affects local efforts to change teaching The book also suggests that while short term improvements can be accomplished through bureaucracy serious reform requires professionalization The authors identify challenges that state governments school administrators and teachers associations must face if they really want to professionalize teaching *Developing Multicultural Teacher Education Curricula* Joseph M. Larkin, Christine E. Sleeter, 1995-01-01 This book explores how to make teacher preparation more multicultural Designing Performance Assessment Systems for Urban Teacher Preparation Francine P. Peterman, 2005-05-06 Designing Performance Assessment Systems for Urban Teacher Preparation presents an argument for and invites critical examination of teacher preparation and assessment practices in light of both the complexity and demands of urban settings and the theories of learning and learning to teach that guide teacher education practices This dynamic approach distinguishes the authors stance on urban teacher assessment as one that can help address social justice issues related to gender race socioeconomic class and other differences and at the same time promote the professional development of all educators engaged in the process of learning to teach The contextually bound sociocultural stance that informs this book promises greater teacher and student achievement Culminating six years of vital dialogue and focused local activity among teachers and teacher educators from institutions in the Urban Network to Improve Teacher Education Designing

Performance Assessment Systems for Urban Teacher Preparation presents the historical context that was examined for this work a theoretical framework to undergrad teacher preparation assessment and design principles to guide the development of assessment systems four case studies of participants struggles and successes in designing and implementing these systems and a discussion of the importance of context and current trends in assessment practices in urban teaching This volume is particularly relevant for university and school based teacher educators who help prepare teachers to work in urban schools and for personnel in state departments of education and other agencies who are responsible for certification and beginning teacher support While the focus is on preparing teachers for urban settings the theoretical and practical foundations and the case studies have broad implications and provide useful insights for anyone involved in developing and using performance assessment systems teacher educators university and school administrators classroom teachers and educational researchers
