Greasley, 2001-05-30 The Dictionary of Midwestern Literature Volume One surveys the lives and writings of nearly 400 Midwestern authors and identifies some of the most important criticism of their writings The Dictionary is based on the belief that the literature of any region simultaneously captures the experience and influences the worldview of its people reflecting as well as shaping the evolving sense of individual and collective identity meaning and values Volume One presents individual lives and literary orientations and offers a broad survey of the Midwestern experience as expressed by its many diverse peoples over time Philip A Greasley s introduction fills in background information and describes the philosophy focus methodology content and layout of entries as well as criteria for their inclusion An extended lead essay The Origins and Development of the Literature of the Midwest by David D Anderson provides a historical cultural and literary context in which the lives and writings of individual authors can be considered This volume is the first of an ambitious three volume series sponsored by the Society for the Study of Midwestern Literature and created by its members Volume Two will provide similar coverage of non author entries such as sites centers movements influences themes and genres Volume Three will be a literary history of the Midwest One goal of the series is to build understanding of the nature importance and influence of Midwestern writers and literature Another is to provide information on writers from the early years of the Midwestern experience as well as those now emerging who are typically absent from existing reference works *The Chicago Literary Experience* Frederik Byrn Køhlert, 2011 The Chicago Literary Experience is a concise literary history of the city of Chicago Taking as its thematic starting point the city s famous World s Columbian Exposition of 1893 the book provides an account of the city s rapid and in many ways unprecedented development from trading post to metropolis and examines the many literary responses to this new urban environment By contextualizing literature written about the city in these formative years the book shows not only how the city influenced its writers but also how these writers struggled to transform their urban environment into literary forms Covering such aspect as the emergence of the novel of the businessman as cultural hero the humorous newspaper columns of the late nineteenth century and the Depression era revitalization of Chicago literature from its ethnic neighborhoods the book moves beyond the obvious classics and rediscovers a vibrant literary tradition that restores almost forgotten writers such as Eugene Field and Floyd Dell to their place in American literary history Given the historical approach and the breadth of material covered the book will be valuable to anyone wanting to understand how American literature in this defining period moved from the farm to the city and what happened to it once it had arrived Authors

Pichaske,2009-05 David Pichaske has been writing and teaching about midwestern literature for three decades In *Rooted* by paying close attention to text landscape and biography he examines the relationship between place and art His focus is on seven midwestern authors who came of age toward the close of the twentieth century their lives and their work grounded in distinct places Dave Etter in small town upstate Illinois Norbert Blei in Door County Wisconsin William Kloefkorn in southern Kansas and Nebraska Bill Holm in Minnesota Linda Hasselstrom in Hermosa South Dakota Jim Heynen in Sioux County Iowa and Jim Harrison in upper Michigan The writers intimate knowledge of place is reflected in their use of details of geography language environment and behavior Yet each writer reaches toward other geographies and into other dimensions of art or thought jazz music and formalism in the case of Etter gender issues in the case of Hasselstrom time past and present in the case of Kloefkorn ethnicity and the role of the artist in the case of Blei magical realism in the case of Heynen the landscape of literature in the case of Holm and the curious worlds of academia best selling novels and Hollywood films in the case of Harrison The result Pichaske notes is the growing away from roots the explorations and alter egos of these writers of place and the tension between the here and there that gives each writer s art the complexity it needs to transcend provincial boundaries Quoting generously from the writers Pichaske employs a practical jargon free literary analysis fixed in the text making *Rooted* interesting readable and especially useful in treating the literary categories of memoir and literary essay that have become important in recent decades
