Gagliardi, 2019-09-16 This book describes the people processes and technologies needed to extract actionable intelligence from the inside and outside of crime guns      Trial and Error in Criminal Justice Reform Greg Berman, Aubrey

Fox, 2016-03-21 In this revised edition of their concise readable yet wide ranging book Greg Berman and Aubrey Fox tackle a question students and scholars of law criminology and political science constantly face what mistakes have led to the problems that pervade the criminal justice system in the United States The reluctance of criminal justice policymakers to talk

openly about failure the authors argue has stunted the public conversation about crime in this country and stifled new ideas. It has also contributed to our inability to address such problems as chronic offending in low income neighborhoods and overreliance on incarceration, the misuse of pretrial detention and the high rates of recidivism among parolees. Berman and Fox offer students and policymakers an escape from this fate by writing about failure in the criminal justice system. Their goal is to encourage a more forthright dialogue about criminal justice, one that acknowledges that many new initiatives fail and that no one knows for certain how to reduce crime. For the authors, this is not a source of pessimism but a call to action. This revised edition is updated with a new foreword by Cyrus R. Vance Jr. and an afterword by Greg Berman. **Cities for Life** Jason

Corburn, 2021-11-16. In cities around the world, planning and health experts are beginning to understand the role of social and environmental conditions that lead to trauma. By respecting the lived experience of those who were most impacted by harms, some cities have developed innovative solutions for urban trauma. In *Cities for Life*, public health expert Jason Corburn shares lessons from three of these cities: Richmond, California; Medellín, Colombia; and Nairobi, Kenya. Corburn draws from his work with citizens, activists, and decision makers in these cities over a ten-year period as individuals and communities worked to heal from trauma, including from gun violence, housing and food insecurity, poverty, and other harms. *Cities for Life* is about a new way forward with urban communities that rebuilds our social institutions, practices, and policies to be more focused on healing and health. **It Started with the Hats** Paul F. Mallicoat, Christine L. Gardiner, 2013-10-15 *Criminal Justice Policy* provides a thematic overview of criminal justice policy and its relationship to the American criminal justice system. Scholars, practitioners and politicians continually debate the value of these policies in their evaluations of the current system. As the nature of this subject involves a host of issues including politics, public sentiment, research and practice, the authors expertly highlight these concerns on criminal justice policy and address the implications for the overall system and society at large. This text is organized into three parts. Foundations of criminal justice policy focuses on the role of politics, best practices and street level bureaucracy in criminal justice policy. Criminal justice policy in action provides an analysis of fifteen different policy issues in criminal justice such as immigration, drugs, mental health and capital punishment. Each section begins with a basic summary of the policy accompanied by a brief synopsis of the framing issues. This brief but informative summary draws students attention to essential concepts and ideas, provides a roadmap for what they can expect to learn and ensures continuity throughout the text. The text concludes with a discussion about the future directions of criminal justice policy. **More God, Less Crime** Byron Johnson, 2011-05-15 In *More God Less Crime* renowned criminologist Byron R Johnson proves that religion can be a powerful antidote to crime. The book describes how faith communities, congregations and faith based organizations are essential in forming partnerships necessary to provide the human and spiritual capital to effectively address crime, offender rehabilitation and the substantial aftercare problems facing former prisoners. There is scattered research literature on religion and crime but until now there has never been one publication that systematically and rigorously analyzes what we know from this largely overlooked body of research in a lay friendly format. The data shows that when compared to current strategies, faith based approaches to crime prevention bring added value in targeting those factors known to cause crime: poverty, lack of education and unemployment. In an age of limited fiscal resources, Americans can't afford a criminal justice system that turns its nose up at volunteer efforts that could not only work better than the abysmal status quo but also save billions of dollars at the same time. This book provides readers with practical insights and recommendations for a faith based response that could do just that.
