Reelpolitik II:

Reelpolitik II Beverly Merrill Kelley, 2004-02-16 *Reelpolitik II* moves past typical left right political distinctions to examine political ideologies cycling through U S history during the 50s and 60s These eight Cold War movies especially equipped the moviegoer with a unique vantage point to scrutinize the arms race the Red Scare the Korean Conflict and the Vietnam War They also helped audiences to observe the way film functions as a purveyor of American mythology a megaphone to shout political messages a metaphorical route to the emotions a flattering mirror an unflattering microscope and a magic carpet ride back to the future

News Narratives and News Framing Karen S. Johnson-Cartee, 2005 *News Narratives and News Framing* is a revealing look at how the media's construction of news affects our political economic and social realities In this introduction to the theory behind news framing Karen Johnson Cartee pulls together elements from communication journalism politics and sociology to create a picture of how news forms these realities for the public With its comprehensive reference section and suggestions on how to influence the news agenda this is a beneficial resource for students in political communication media criticism and communication theory Visit our website for sample chapters

Making Sense of Political Ideology Bernard L. Brock, 2005 Political positions in the United States today are ideologically chaotic and there are significant prices to pay for that chaos The nation has not reached a crisis yet in her modern political gridlock but predicting the time when the current generation will face the difficulties of earlier times of crisis such as the Civil War the Great Depression or World War II is a difficult task When that time comes leaders who can communicate effectively to foster understanding and political unity and who can respond to a crisis with skilled direction will be a vital concern *Making Sense of Political Ideology* explores the erosion of ties among ideology language and political action Analyzing political language strategies it shows how to dissect language so we can better understand a speaker's ideology The authors define four political positions radical liberal conservative reactionary and apply their techniques to contemporary issues such as the war on terrorism They emphasize the dangers of staying trapped in political gridlock with no consensus for governmental direction and propose that the ability to identify and bridge positions can help political communicators toward constructing coalitions and building support for political action

The Rhetoric of Redemption David A. Bobbitt, 2007-02-16 *The Rhetoric of Redemption* applies Kenneth Burke's theory of guilt purification redemption in a close critical analysis of Martin Luther King Jr's I Have A Dream speech developing and examining the implications of Burke's redemption drama in contemporary public discourse

Bush's War Jim A. Kuypers, 2006-10-10 Immediately after the attacks of September 11 2001 Americans looked to President Bush for words of leadership In his most formal reply of the day he said Today our fellow citizens our way of life our very freedom came under attack in a series of deliberate and deadly terrorist acts The victims were in airplanes or in their offices secretaries businessmen and women military and federal workers moms and dads friends and neighbors Thousands of lives were suddenly ended by evil despicable acts of terror The stark tone of Bush's speech

suggested the promise of more words to come from the president and it is these words that Bush's War addresses. While many books have offered a take on the attacks of 9/11 and their impact upon American society, one area has been comparatively ignored: presidential justifications for war in the age of terrorism. Specifically, what did President Bush say to justify American military actions in the post-9/11 world? And how did the public hear what he said, especially as it was filtered through the news media? The eloquent and thoughtful *Bush's War* shows how public perception of what the president says is shaped by media bias. Jim A. Kuypers compares Bush's statements with press coverage, arguing that the nature of American public knowledge concerning our role in the world has been changed—not by 9/11 but by the subsequent argumentative back and forth between Bush and the press.

The Talk of the Party Sharon Jarvis, 2005-07-07 *The Talk of the Party* listens to how the language of partisanship, including words like Democrat, Republican, party, liberal, conservative, and independent, has been used over the past fifty years and how it has created or limited political opportunities. Listening to the talk of

The 2004 Presidential Campaign Robert E. Denton Jr., 2005-07-28 Political communication specialists break down the 2004 presidential campaign and go beyond the quantitative facts: electoral counts and poll results of the election. Factoring in everything from 527 groups to Fahrenheit 9/11, they look at the early campaign period, the nomination process, conventions, social and political contexts, the debates, the role of candidate spouses, candidate strategies, political advertising, and the use of the Internet. This enlightening book shows why more technology doesn't always mean more effective communication and how we collect political bits of communication that comprise our voting choices, worldviews, and legislative desires.

Message Control Elizabeth A. Skewes, 2007-04-09 *Message Control* is a look at what shapes the news from the presidential campaign trail. It comes out of the author's experience traveling with campaigns, interviews with other journalists who have covered campaigns from the road, and research on campaign news. Elizabeth Skewes, a journalism professor and former reporter, investigates journalists' beliefs and the role those beliefs play in the election process, as well as how the routines of campaign reporting affect news coverage. While Skewes does find that journalists make an effort to inform the voting decisions of their readers by giving them a sense of context for each campaign and each candidate's character, she also shows that journalists remain wary of staff manipulation and are constrained by pack journalism, press pools, and life in the bubble. From on-the-trail perspectives to media theory explanations, *Message Control* begins to answer the question of why political coverage focuses on personalities and peccadilloes when studies show the public wants less of this and more discussion of political issues.

Presidential Candidate Images Kenneth L. Hacker, 2004 This engaging look at presidential candidate images features a wide range of essays that dissect how these images are formed and manipulated during campaigns. As more and more emphasis is placed on a candidate's persona and how it affects our voting decisions, *Presidential Candidate Images* provides a variety of frameworks and cases for analyzing candidate images in past, current, and future elections.
