Reengineering Mis Aligning Information Technology With Business Operations:

Reengineering MIS Kevin G. Coleman, 1996-01-01 Reengineering MIS Aligning Information Technology and Business Operations provides the background and foundation that will allow the radical change necessary for MIS to contribute to the success of the organization. It provides detailed understanding of reengineering initiatives in business. Cases on Information Technology Management in Modern Organizations Jay Liebowitz, Mehdi Khosrowpour, 1997-01-01 Information systems professionals learn best from the experiences of others. Successes and failures from others can help the IS community further develop and flourish. This book is a compilation of original case studies that describe information technology experiences in both domestic and international organizations. **Cleanroom Software Engineering Practices** Shirley A. Becker, James A. Whittaker, 1997-01-01 Cleanroom Software Engineering is a set of techniques and practices for the development of software intensive systems. This book brings together concepts, lessons learned, and best practices resulting from Cleanroom projects surveyed in the past several years. **Software Process Improvement** Eugene McGuire, 1999-01-01 Software Process Improvement (SPI) efforts are being undertaken by organizations of all types and sizes as they attempt to deal with the challenges of quality, complexity, and competitiveness. Software process improvement efforts rely on the successful integration of many technical, organizational, and methodological issues. SPI has provided a rich field for both conceptual and practical research in industry and academia. *Software Process Improvement: Concepts and Practices* provides the opportunity for rich socio-technical and interdisciplinary studies in addition to those studies that primarily focus on process and/or enabling technology issues. This book addresses numerous aspects of SPI: program development, implementation, trends, opportunities, and future challenges in organizations. Process Improvement and Organizational Learning Ned F. Kock, 1999-01-01 Process improvement can itself be considerably improved by the use of information technology. Distributed and asynchronous group support systems such as e-mail, computer conferencing, and the World Wide Web are likely to play a major role in this improvement. *Process Improvement and Organizational Learning: The Role of Collaborative Technologies* analyzes the relationship between collaborative technologies, process improvement, and organizational learning. It is based on the author's experiences in numerous process-focused organizational development projects where process improvement groups were aided by the support of collaborative technologies. *Information Technology Diffusion in the Asia Pacific* Felix B. Tan, P. Scott Corbett, Yuk-Yong Wong, 1999-01-01 According to a recent United Nations report, the increase in power and functionality of IT coupled with decreasing prices have contributed to rapid IT adoption and use in both developed countries and newly industrialized nations of the Asia Pacific. *Information Technology Diffusion in the Asia Pacific: Perspectives on Policy, Electronic Commerce, and Education* provides essential reading on IT diffusion in leading countries of the Asia Pacific. By focusing on some of the different applications and implications of IT in these nations, contributions in this book deal with aspects of IT applications in the Asia Pacific countries and ways that

information technology can assist nations in dealing with technological and electronic growth and risks involved

Measuring Information Technology

Investment Payoff Mo Adam Mahmood, Edward J. Szewczak, 1999-01-01 It would seem that business investment in information technology IT is at root no different from business investment in anything else After a careful consideration of the costs of the investment and its anticipated benefits a decision is made as to whether the benefits of the investment outstrip the costs and by how much If the benefits are competitive with other investment alternatives say a major marketing campaign then the business will commit financial resources to the IT proposal Otherwise it won't This decision making process is at the heart of capital budgeting Senior executives have been making IT investment decisions for well over three decades So why is the measurement of IT investment payoff so difficult and controversial Why do we need a book dealing with contemporary approaches to measuring IT investment payoff Why have earlier approaches to measuring IT investment payoff proven unsatisfactory In what respects have earlier approaches fallen short Do we need to scrap earlier approaches entirely or can we find important improvements to these approaches such that they can be newly applied to effectively measure IT investment payoff in ways that are convincing to senior management This book will help you to find improvements in existing methods for measuring IT investment payoff as well as to find new innovative methods for addressing the value of emerging IT 0000 0
