Gerhard Richter, Individualism, and Belonging in West Germany Luke Smythe, 2022-07-29 This book reevaluates the art of Gerhard Richter b 1932 in relation to his efforts to achieve belonging in the face of West Germany s increasing individualism between the 1960s and the 1990s Richter fled East Germany in 1961 to escape the constraints of socialist collectivism His varied and extensive output in the West attests to his greater freedom under capitalism but also to his struggles with belonging in a highly individualised society a problem he was far from alone in facing The dynamic of increasing individualism has been closely examined by sociologists but has yet to be employed as a framework for

understanding broader trends in recent German art history Rather than critique this development from a socialist perspective or experiment with new communal structures like a number of his colleagues Richter sought and found security in traditional modes of bourgeois collectivity like the family religion painting and the democratic capitalist state The book will be of interest to scholars working in art history as well as German history culture and politics **Refigured Painting**

Germany Mia Lee, 2019-01-22 Just as Chancellor Konrad Adenauer was seeking re election on a campaign of no experiments

art avant garde groups in West Germany were reviving the utopian impulse to unite art and society Utopia and Dissent in West Germany examines these groups and their legacy Postwar artists built international as well as intergenerational networks such as Fluxus which was active in Düsseldorf Wiesbaden and Cologne and the Situationist International based in Paris These groups were committed to undoing the compartmentalization of everyday life and the isolation of the artist in society And as artists recast politics to address culture and everyday life they helped forge a path for the West German extraparliamentary left Utopia and Dissent in West Germany traces these connections and presents a chronological map of the networks that fed into the extraparliamentary left as well as a geographical map of increasing radicalism as the locus of action shifted to West Berlin These two maps show that in West Germany artists and their interventions in the structures of everyday life were a key starting point for challenging the postwar order **Pop Culture Germany!** Catherine C.
