Reflections An Exhibition Catalogue:

The Art of Reflection Marsha Meskimmon, 1996 Marsha Meskimmon examines a wide variety of women's self-portraiture from performance to body art in lively and accessible prose. She takes the cultural focus from the dominant male self-portraiture to the more marginalized gender, bringing women artists' perspectives to the forefront. *Reflections* Sarah Buxton, Laura Campbell, Tracey Dawe, 2020-11-30 Mirroring, doubling, imitation, parody, intertextuality. The contributors to this volume, all postgraduate researchers at the time of writing, engage with some of these familiar words to produce articles that deal with the concept of reflections in literary and visual culture. Ranging from Italian Golden Age theatre to contemporary French literature and from Cuban film to German fiction, the twelve essays in this volume provide a fresh look at Modern Language Studies, highlighting in particular the interdisciplinary nature of this field. On one level, the volume speaks to those exploring Modern Language Studies for the first time, for example undergraduate students who seek a greater understanding of the dialogue between language and culture. However, the individual essays also have the potential to attract experienced scholars, either looking for new knowledge on specialist subjects or ways of approaching research in Modern Languages. Through its central theme, *Reflections: New Perspectives in Modern Languages and Cultures*, makes some suggestions about the way forward for Modern Language Studies.

Adman's Dilemma Paul Rutherford, 2018-01-01 *The Adman's Dilemma* is a cultural biography that explores the rise and fall of the advertising man as a figure who became effectively a licensed deceiver in the process of governing the lives of American consumers. Apparently, this personage was caught up in a contradiction, both compelled to deceive yet supposed to tell the truth. It was this moral condition and its consequences that made the adman so interesting to critics, novelists, and eventually filmmakers. The biography tracks his saga from its origins in the exaggerated doings of P. T. Barnum, the emergence of a new profession in the 1920s, the heyday of the adman's influence during the post-WW2 era, the later rebranding of the adman as artist, until the apparent demise of the figure symbolized by the triumph of that consummate huckster, Donald Trump. In *The Adman's Dilemma*, author Paul Rutherford explores how people inside and outside the advertising industry have understood the conflict between artifice and authenticity. The book employs a range of fictional and nonfictional sources, including memoirs, novels, movies, TV shows, websites, and museum exhibits, to suggest how the adman embodied some of the strange realities of modernity.

Reflections on Female and Trans* Masculinities and Other Queer Crossings Nina Kane, Jude Woods, 2017-06-23 This collection of essays emerged out of the Agender conference and various queer cultural activities associated with the PoMoGaze project. a shortening of Postmodern combined with Gaze as a play on words linking the act of looking with LGBT IQ activities The book presents many voices exploring themes of female and trans masculinities gender equality and the lives work and activism of LGBT IQ artists and thinkers It includes discussion of arts making cultural materials diverse identities contemporary queer politics and social histories and travels across time telling gender crossing stories of creative resistance Readers with an interest in the performing and visual arts literature philosophy and queer and gendered cultural readings with an intersectional emphasis will be stimulated by this eclectic and thought provoking collection

The Geopolitics of Culture John Van Oudenaren, 2024-06-15 Through the lens of James Billington and the institution he led as Librarian of Congress during a key period of US Russian relations The Geopolitics of Culture examines culture as a neglected area of US foreign policy Billington advised presidents and members of Congress and mobilized the resources of the Library of Congress to promote reform in Russia He believed that rather than preaching to the Russians the United States should expose the rising generation of Russian leaders to what was best in America and encourage them to rediscover positive elements in pre Bolshevik Russian culture The Geopolitics of Culture is the first book to chronicle Billington s influence on US engagement with Russia as it transitioned from communism to democracy under Gorbachev and Yeltsin and back to authoritarianism under Yeltsin and Putin Drawing on published and archival sources including recently released papers and interviews with current and retired Library of Congress staff members John Van Oudenaren casts new light on this era Billington s efforts led to a remarkable degree of cooperation between the Library of Congress and Russian cultural and political institutions Yet these efforts ultimately failed as Putin turned back toward authoritarianism The experience of the Library of Congress during this period nonetheless holds important lessons for today Billington believed that a transition to democracy in Russia was essential if the United States was to head off the geopolitical nightmare of a Eurasia dominated by an alliance of hostile authoritarian powers The geopolitics of culture thus remains a challenge for US foreign policy

An Annotated Bibliography of Inuit Art Richard C. Crandall, Susan M. Crandall, 2015-07-25 Archaeological digs have turned up sculptures in Inuit lands that are thousands of years old but Inuit art as it is known today only dates back to the beginning of the 1900s Early art was traditionally produced from soft materials such as whalebone and tools and objects were also fashioned out of stone bone and ivory because these materials were readily available The Inuit people are known not just for their sculpture but for their graphic art as well the most prominent forms being lithographs and stonecuts This work affords easy access to information to those interested in any type of Inuit art There are annotated entries on over 3 761 articles books catalogues government documents and other publications *Re-thinking Mediations of Post-truth Politics and Trust* Jayson Harsin, 2023-12-29 This collection reaches beyond fake news and propaganda misinformation and charismatic liars to explore the lesser publicized cultural forms and practices that serve as a cultural infrastructure for post truth society and politics Situating post truth in specific contexts as a site of contestation or crisis the book critically explores it as a dynamic and shifting site around which political and cultural practices in specific contexts revolve and overlap Through a breadth of perspectives the volume considers a number of overlapping cultural and political developments across varying national and transnational contexts changing technologies and practices of cultural production that sometimes shift and at other times reproduce authority of traditional institutional truth tellers seismic cultural changes in representations values and roles regarding gender sexuality race and historical memory about them as well as corresponding reactionary discourses in the culture wars questions of authenticity honesty and power relations that combine many of the former shifts within an all encompassing culture of self promotional attentional capitalism These considerations lead scholars to focus on corresponding shifting cultural dynamics of popular truth telling and dis trust making that inform political culture In this more global view post truth becomes foremost an influentially anxious public mood about the struggles to secure or undermine publicly accepted facts This nuanced and insightful collection will interest scholars and students of communication studies media and cultural studies media ethics journalism media literacy sociology anthropology philosophy and politics **Visualizations** Martin Kemp, 2000 Short pithy beautifully illustrated articles on various fascinating intersections of art and science originally published in the British magazine *Nature* **Reflections in a Quiet Pool** Rosemarie L. of the United Provinces for his gallery at The Hague Although each of the paintings depicts a traditional scene from the Passion of Christ they do not form anything like a complete Passion Cycle Seven years later Hendrick ordered a further two works of the same size and format of subjects from the Nativity of Christ Six of the seven paintings now hang in the Alte Pinakothek Munich As the works were executed between Rembrandt's well documented early Leiden period and his rapid rise to prominence as a portraitist in Amsterdam the works have not attracted the scholarly attention they might although the commission was undoubtedly the most prestigious of the young Rembrandt's career Rembrandt's Passion Series is the first monograph to focus solely on this important group of paintings by the most famous artist of the Dutch Golden Age In it Simon McNamara traces the history of the commission by way of extant documentation places the works in a seventeenth century Dutch religious milieu and shows how the series is both reflective of contemporary theological exegesis and embedded in theoretical artistic debates of the age The book also highlights the extraordinary nature of the self images seen in three of the paintings and discusses the legacy of the series in later graphic works by Rembrandt and in paintings by his pupils In doing so Rembrandt's Passion Series presents a series of unifying factors both stylistically and thematically for the works that allows the Passion Series to be properly and finally called a series
