sanctified artefact or a message to be illustrated with music In my book I examine Franz Liszt's songs for voice and piano which remain little known to scholars artists and music lovers alike The objective is to present Liszt's songs in all their complexity and diversity as well as identifying the key elements of the composer's broadly understood song writing technique both those that make him unique and those that relate him to the European tradition This approach also makes it possible to shed light on a major though previously neglected aspect of the composer's workshop namely his work with the poetic text which to Liszt was just as important as the musical setting *Four Metaphors of Modernism* Jenny Anger, 2018-02-20

The Musical Times and Singing-class Circular ,1926 **Richard Wagner** Nicholas Vazsonyi,2010-03-31 All modern artists have had to market themselves in some way Richard Wagner may just have done it better than anyone else In a self promotional effort that began around 1840 in Paris and lasted for the remainder of his career Wagner claimed convincingly that he was the most German composer ever and the true successor of Beethoven More significantly he was an opera composer who declared that he was not composing operas Instead during the 1850s he mapped out a new direction conceiving of works that would break with tradition and be literally brand new This is the first study to examine the innovative ways in which Wagner made himself a celebrity promoting himself using every means available autobiography journal articles short stories newspaper announcements letters even his operas themselves Vazsonyi reveals how Wagner created a niche for his works in the crowded opera market that continues to be unique **The Musical Times** ,1925

The Musical Times & Singing-class Circular ,1911 Nineteenth-Century Piano Music R. Larry Todd,2013-10-08 First Published in 2004 19th Century Piano Music focuses on the core composers of the 19th century repertoire beginning with 2 chapters giving a general overview of the repertoire and keyboard technique of the era and then individual chapters on Beethoven Schubert Weber Mendelssohn Chopin Schumann Brahms Liszt and the women composers of the era particularly focusing on Fanny Hensel and Clara Schumann **The Piano in Nineteenth-Century British Culture** Susan Wollenberg,2017-09-29 Since the publication of *The London Pianoforte School* ed Nicholas Temperley twenty years ago research has proliferated in the area of music for the piano during the late eighteenth and nineteenth centuries and into developments in the musical life of London for a time the centre of piano manufacturing publishing and performance But none has focused on the piano exclusively within Britain The eleven chapters in this volume explore major issues surrounding the instrument its performers and music within an expanded geographical context created by the spread of the instrument and the growth of concert touring Topics covered include the piano trade and how piano manufacturing affected a major provincial town the reception of Bach's Well Tempered Clavier and Clementi's Gradus ad Parnassum during the nineteenth century the shift from composer pianists to pianist interpreters in the first half of the century that triggered crucial changes in piano performance and concert structure the growth of musical life in the peripheries outside major musical centres the pianist as advocate for contemporary composers as well as for historical repertory the status of British pianists both in

Hooker, 2013-10-25 Some of the most popular works of nineteenth century music were labeled either Hungarian or Gypsy in style including many of the best known and least respected of Liszt's compositions In the early twentieth century Béla Bartók and his colleagues questioned not only the Hungarianness but also the good taste of that style Bartók argued that it should be discarded in favor of a national style based in the genuine folk music of the rural peasantry Between the heyday of the nineteenth century Hungarian Gypsy style and its replacement by a new paradigm of authentic national style was a vigorous decades long debate one little known inside or outside Hungary over what it meant to be Hungarian European and modern *Redefining Hungarian Music from Liszt to Bartók* traces the historical process that defined the conventions of Hungarian Gypsy style Author Lynn M Hooker frames her study around the 1911 celebration of Liszt's centennial In so doing she analyzes Liszt's problematic role as a Hungarian born composer and leader of Hungarian art music who spent most of his life outside of Hungary and questioned whether Hungary's national music was more the creation of Hungarians or Roma Gypsies The themes of race and nation that emerge in the discussion of Liszt are further developed in an analysis of discourse on Hungarian national music throughout the Hungarian press in the late nineteenth and early twentieth centuries Showing how the discovery of genuine folk music by Bartók and Kodály often depicted as a purely scientific matter responds directly to concerns raised by earlier writers about the problem of Hungarian music Hooker argues that the innovations of Bartók and Kodály and their circle are not so much in correcting a flawed concept of the national as in using the idea of national authenticity to open up freedom for composers to explore more stylistic options including the exploration of modernist musical language Meticulously researched and elegantly written *Redefining Hungarian Music from Liszt to Bartók* is essential reading for musicologists musicians and concertgoers alike *Erard* Robert Adelson, 2021-03-05 Sébastien Erard's 1752 1831 inventions have had an enormous impact on instruments and musical life and are still at the foundation of piano building today Drawing on an unusually rich set of archives from both the Erard firm and the Erard family author Robert Adelson shows how the Erard piano played an important and often leading role in the history of the instrument beginning in the late eighteenth century and continuing into the final decades of the nineteenth The Erards were the first piano builders in France to prioritise the more sonorous grand piano sending gifts of their new model to both Haydn and Beethoven Erard's famous double escapement action which improved the instrument's response while at the same time producing a more

powerful tone revolutionised both piano construction and repertoire Thanks to these inventions the Erard firm developed close relationships with the greatest pianist composers of the nineteenth century including Hummel Liszt Moscheles and Mendelssohn The book also presents new evidence concerning Pierre Erard s homosexuality which helps us to understand his reluctance to found a family to carry on the Erard tradition a reluctance that would spell the end of the golden era of the firm and lead to its eventual demise The book closes with the story of Pierre s widow Camille who directed the firm from 1855 until 1889 Her influential position in the male dominated world of instrument building was unique for a woman of her time

Liszt's Final Decade Dolores Pesce, 2014 Liszt s Final Decade reveals in the composer s own words to his confidantes Carolyne von Sayn Wittgenstein and Olga von Meyendorff how he resolved his conflicted self image as a celebrated performer but underappreciated composer Toward the end of his life Franz Liszt maintained extensive correspondence with two women who were at the time his closest confidantes Carolyne von Sayn Wittgenstein and Olga von Meyendorff Liszt wrote to them regularly expressing his intimate feelings about personal and career events and his conflicted self image as a celebrated performer but underappreciated composer Absent a diary the letters offer the most direct avenue into Liszt s psyche in his final years Liszt s Final Decade explores through these letters the mind and music of one of the nineteenth century s most popular musicians providing insight into Liszt s melancholia in his last years and his struggle to gain recognition for his music yet avoid criticism The exchange indicates that Liszt ultimately resolved his inner conflict through a personally constructed Christian moral philosophy that embraced positive resignation to suffering compassionate love and trust in a just reward to come The book also examines how Liszt s late sacred compositions affirm the yielding of suffering to joy and hope Significantly Liszt viewed these works commonly overlooked today as a major part of his compositional legacy This volume thus challenges the idea of a single late Lisztian style and the notion that despair overwhelmed the composer in his final years We are pleased to announce that Liszt s Final Decade is the winner of the 2017 Alan Walker Book Award given by the American Liszt Society Dolores Pesce is the Avis Blewett Professor of Music in Arts and Sciences at Washington University in St Louis
