Kevin Daimi, Abeer Al Sadoon, 2024-03-28 This book concentrates on advances in research in the areas of computational intelligence, cybersecurity, engineering, data analytics, network and communications, cloud and mobile computing, and robotics and automation. The Second International Conference on Advances in Computing Research (ACR'24) June 3-5, 2024 in Madrid brings together a diverse group of researchers from all over the world with the intent of fostering collaboration and dissemination of the advances in computing technologies. The conference is aptly segmented into six tracks to promote a birds-of-the-same-feather congregation and maximize participation. It introduces the concepts, techniques, methods, approaches, and trends needed by researchers, graduate students, specialists, and educators for keeping current and enhancing their research and knowledge in these areas. **Residual Stresses VII**

Walter Reimers, S. Quander, 2006 The seventh European Conference on Residual Stresses (ECRS7) was held in Berlin, Germany, on the 13-15th September 2006. These rapidly published proceedings contain the oral and poster contributions which were presented at the conference. They have been grouped into topic areas covering measurement techniques, generation of residual stresses by manufacturing, processing of materials, modelling and computation of residual stresses, residual stresses in thin layers, residual stresses in multiphase materials, micro and intergranular residual stresses, and residual stresses and phase transformation. **Safety and Reliability.
