Reflective Learning for Social Work Nick Gould,Imogen Taylor,1996 The 1st volume to bring to a social work readership a book which focuses on reflective learning in social work this text brings together conceptual

research and case material on reflective learning from academic and practice settings

Reflective Learning for Social Work Nick Gould, Imogen Taylor, 2017-03-02 Since the publication of Donald Schön's *The Reflective Practitioner* in 1983 there has been a dramatic growth of research and writing developing the concept of reflective learning. Surprisingly there has been little application of concepts of reflective learning to social work education. This volume makes accessible for the first time to a social work readership a book which focuses on reflective learning in social work, bringing together material on reflective learning from both academic and practice settings. It creates a seminal text for educators and trainers in universities and practice settings, has relevance to an international readership with contributions from the UK, USA, Canada and Australia.

Reflective Practice in Education and Social Work Robyn Ewing, Fran Waugh, David L. Smith, 2021-12-14 This book offers unique interdisciplinary insights into developing connections between reflective practice and employability, particularly through the lenses of the education and social work professions. It recognises the various meanings that can be applied to the notion of reflection and examines the challenges of using reflective practice in the workplace. The chapters explore the tensions that arise from preparing professionals to be agents of change and concerned with social justice and equity. Further, the book provides much needed perspective on how diverse positions can be identified and leveraged and shared meanings negotiated in the creation of meaningful professional learning resources for early career teachers and social workers and across the career continuum. Bringing together contributions from internationally renowned scholars, *Reflective Practice in Education and Social Work* is essential reading for early career and experienced professionals in education and social work, academics and practitioners seeking further professional development in reflective practice.
