Reforging European Security From Confrontation To Cooperation:

Reforging European Security Kurt Gottfried, Paul Bracken, 2019-06-26 This book provides some answers to the questions of how to pursue the build down of the East West military confrontation in Europe and of how to build up an enduring and effective security system for Europe It is the result of a three year study of European security affairs **The Dynamics of European Security Cooperation, 1945-91** Gülnur Aybet, 2016-01-12 This is the first integrated analysis of all aspects of security cooperation in western Europe from 1945 to 1991 It provides an accessible yet sophisticated survey of the wider dynamics of security cooperation in each decade throughout this period It covers all aspects of security cooperation which range from the political such as a European voice in arms control to military such as a European input into NATO strategy and economic involving collaboration in defence technology and production A European Security Architecture after the Cold War G. Aybet, 2000-06-05 A European Security Architecture after the Cold War provides a critical account of the re projection and redefinition of Western values and security institutions in the post Coldwar era This transformation is explored in three stages The first stage covers the period 1990 91 and explains the preservation of a western security community inherited from the Cold War through a process of institutional reconstruction largely carried out on paper The second stage from 1991 to 1992 sees the incorporation of a purpose for these institutions as a framework for the implementation of collective security The third stage explores the emerging questions of legitimacy surrounding the new tasks of these institutions as they become embroiled in the war in the former Yugoslavia The precedents of legitimate intervention in upholding democracy free markets and human rights in the post coldwar era are examined from the perspectives of international law and Gramscian derived concepts of legitimacy focusing on the acceptance of military power by civil society and how intervention in these terms becomes a cultural practice *European Security* Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs

tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it The Defense Policies of Nations Douglas J. Murray, Paul R. Viotti, 1994 Now in its third edition The Defense Policies of Nations has been thoroughly updated to take into account the dramatic developments of recent years the dissolution of the Soviet Union the resurgence of East Asian powers the emergence of newly independent nations in Eastern Europe the continuing instability of the Middle East and the growing importance of third world nations in global security matters For those dealing with national defense issues on a daily basis or even for those interested in the subject because of its current relevance The Defense Policy of Nations is must reading Gen Theodore J Conway Military Review American Academy of Political and Social Science
