

contemporary peace activists. Its core assumption is that the security of one nation cannot be rooted in the insecurity of another. Collective action requires more than a vision, but, as an alternative to "Peace through Strength" and the continuing arms race it has brought us, "Common Security" offers a challenging new beginning.

Ideals of Psychologists

The Rise of Experimentation in American Psychology. JILL G. MORAWSKI, Ed. Yale University Press, New Haven, CT, 1988. ix, 220 pp. \$24.50.

The persistent tendency of psychologists to equate genuinely scientific work with experimental research is examined in this collection of essays dealing with episodes from the late 19th century to the very recent past. In addition to this common theme there is agreement among the contributors that experimentalists' research designs and findings have always been somehow shaped by social circumstances. The essays are diverse in focus and argument, however: some of them analyze the fabricated social situations of the laboratory, whereas others describe the social characteristics of those involved in research as either members of the professional community of psychologists or subjects of experimentation; the "experiments" discussed range from laboratory projects to a longitudinal study of a selected population (but are nearly all experiments involving human subjects—a skewed sample of experimental research).

If psychologists intended their research to have practical implications, historians easily identify the social values sustained by their work. Henry Minton shows that Lewis Terman's study of gifted children, charted in 1921 and still continuing, was designed to persuade the public that an aristocracy of the talented should lead them. Others might have viewed Terman's data as documentation of the workings of the American class system, but to Terman they indicated that intelligence was inherited and was linked to successful performance in all spheres of life; naturally his subjects came from relatively prosperous families, were physically fit and psychologically well adjusted, and enjoyed (if they were male) notable careers. Richard Gillespie's account of the experiments conducted at the Hawthorne plant of the Western Electric Company between 1924 and

1933 reveals them to have rationalized the shift of control over production from workers to a psychologically oriented managerial sector new to American industry. Initiated by plant managers and subsequently elaborated by Elton Mayo and his colleagues from the Harvard Business School, the experiments were heralded as demonstrations that workers' productivity was determined by their psychological attitudes. Contrary to social science myth, however, Mayo's conclusions were consistent with the plant managers' expectations. And Jill Morawski analyzes the efforts of prominent—male—psychologists to prove that conventional sex roles were "natural." From the early years of this century, feminists argued that natural sex differences were inaccessible to psychological inquiry: human nature was thoroughly masked by the training both males and females received from birth. But men such as Robert Yerkes postulated that (un-socialized) primates exhibited nearly human nature and contrived primate experiments that supposedly revealed the inevitability of male dominance.

Minton, Gillespie, and Morawski all treat psychologists' efforts to appeal to the potential markets for their services and thus to establish professional roles for themselves, as sages or practical consultants. The other contributors to this collection are also concerned with psychologists' creation of a distinct professional identity, but they focus on changes psychologists effected in their research styles and rhetoric that enabled them to present a collective front to outsiders. Gail Hornstein relates how in the late 19th and early 20th centuries psychologists were persuaded that their findings would not be genuinely scientific unless they were expressed in quantitative form and how they managed to suspend consideration of questions about the significance of those research projects that were susceptible to quantification. In no small part, the quantitative ideal was the cause of the experimentalists, and their professional dominance was consolidated by an elite (and all male) network of psychologists joined in the society of experimentalists, described here by Laurel Furumoto, founded by E. B. Titchener in 1904.

All the other contributors analyze psychologists' management of the experimental situation itself. Kurt Danziger traces changes in the modes of identifying experimental subjects—represented in the 19th century as virtual collaborators in research and subsequently increasingly described as passive subjects—and argues that this shift in the language of research reports is an index to psychologists' delusion that their experimental subjects were incapable of conscious calculation and, in the laboratory at

least, unaffected by the experiences they had had as social beings. By the 1950s, as Jerry Suls and Ralph Rosnow report, researchers had begun to recognize the negative consequences of the authority they had established in the laboratory, observing that the established social relationship between subjects and researchers made the former likely to respond as the latter expected (not least because subjects were neither naïve nor unconscious). Initially, this observed pattern was seen to mandate reform of experimental procedure, but, as Benjamin Harris shows, by the 1960s psychologists had also become concerned about its ethical implications and instituted post-experimental "debriefing"—sessions in which subjects' potential resentment at being experimentally manipulated could be allayed. To Harris, "debriefing" procedures denote psychologists' persistent determination to render their experimental subjects thoroughly passive, but Karl Schiebe construes recent research developments differently. To Schiebe, both concerns about the accuracy of experimental results and debates about the ethics of research procedures are manifestations of fundamental disciplinary change, indications that many psychologists now question the scientific ideal embraced in the 19th century.

Obviously, it is the triumph of this scientific ideal, predicated on positivist, mechanistic, and operationalist assumptions, that this collection variously chronicles. The authors, all but one of them psychologists, have evidently turned to historical inquiry in order to determine how an ideal they find untenable was embraced. Because their work exposes the premises underlying conventional practices, their colleagues should find it useful in resolving their discipline's present dilemmas. For readers who are not psychologists, this book has value—perhaps unanticipated—as a primer on some current debates in the field.

Reforming Libel Law The Guilford Communication Series:

Communication Theory James Arthur Anderson, 1996-05-17 This book provides a thorough analysis of the scientific critical and cultural questions at the foundation of theory building in communication and other social sciences Any claim to knowledge the author explains can be analyzed in terms of a series of characteristics the object of its explanation the explanatory form and evidentiary method employed its characteristic explanations the scope of its performance and its consequences of value From identifying basic epistemological questions to exploring the impact of the knowledge industry on society the volume offers readers the analytical tools to understand compare and evaluate theories and their use both inside and outside the classroom The book also includes a systematic analysis of communication s most influential theories and traces their genealogies across different content fields and disciplines

Social Approaches to Communication Wendy Leeds-Hurwitz, 1995-07-28 Long before there were formal organizations or mass media there was face to face interaction the practice which comprises very core of the study of communication Until recently however research in the field of interpersonal communication has been dominated by a behavioral science approach closely aligned with experimental social psychology This timely and provocative volume critiques the limitations of past models exploring a range of social approaches which help bring communication up to date Social approaches writes Leeds Hurwitz question whether the traditional theoretical assumptions and research methods followed in the field are still valid and appropriate While the roots of these approaches are diverse and interdisciplinary they overlap in their concern for the social construction of self other and event and in their acknowledgment of the researcher s role in establishing not only the research questions but also the research context Social approaches stress the necessity of recognizing the impact of cultural differences on communication research and identify the ways in which research inquiry creates meanings at the same time as it investigates them Most importantly they focus on instances of contact between individuals the actual social transactions in which people engage Together they demonstrate the ability to disregard labels in pursuit of a common goal the construction of a more adequate understanding of human interaction Robert T Craig s Foreword describes the historical tension in interpersonal communication between behavioral science approaches on the one hand and interpretive social approaches on the other Parts I and II of the volume highlight the theoretical underpinnings of social approaches and the philosophical grounding of some of the more central ideas Part III elaborates on the assumptions shared by social approaches focusing on a series of key concepts including the dichotomy between qualitative and quantitative research reflexivity social constructionism and the individual Part IV begins the task of applying social approaches to particular research topics including the use of case studies rapport in research interviews ethnography as theory continuity in relationships and the co construction of personal narratives Part V examines where the various chapters lead us making a strong case for practical theory as the necessary next step A unique overview of current theoretical innovations in the study of interpersonal communication SOCIAL APPROACHES TO COMMUNICATION

belongs on the shelf of every professional and student in communication. It will be especially valuable to those interested in communication theory, interpersonal communication and social interaction. *The Business of Children's Entertainment* Norma Odom Pecora, 2002-03-06. For over 20 years the development of children's television programming has been subsidized by toy manufacturers. The result has been an increased commercialisation of children's popular culture: the creation of a material world of childhood characterized by brand name toys, games, clothing and television characters. Drawing on historical background and case studies, this book presents a unique look at the development of children as targets of the media and commercial industries and examines the economic and social forces that have defined the evolution of children's entertainment. This volume is of interest to professionals and students in media studies, mass communication and related fields; readers interested in contemporary children's culture and the content of children's programming. Public Opinion and the Communication of Consent Theodore Lewis Glasser, Charles T. Salmon, 1995-04-22. Public Opinion and the Communication of Consent offers an unprecedented range of scholarly perspectives on the relationship between public opinion and communication. With contributions written from social, scientific, historical, critical and cultural traditions, the book illuminates the importance and richness of treating public opinion as a multifaceted concept. Written by leading thinkers in the field, some of the work's chapters offer state-of-the-art reviews of research findings, while others are scholarly treatises on some aspect of communication, public opinion and society. Topics covered include: The nature and institutions of public opinion; the influence of media on public opinion; social and psychological contexts of public opinion; the role public opinion assessment plays in a democratic society. **Case Studies in Organizational Communication 2** Beverly Davenport Sypher, 1997-05-10. Spotlighting the central role of communication in today's varied workplace, this up-to-date collection of new case studies will succeed its highly acclaimed predecessor as a valued reference and teaching text. The studies both highlight creative and positive uses of communication and demonstrate how communication practices can hinder organizational functioning. Topics addressed include: new communication technologies; the dynamics of teamwork; cross-cultural communication; sexual harassment and stress and burnout. Back cover. **The Idea of Public Journalism** Theodore Lewis Glasser, 1999-05-14. This volume offers a critical and constructive examination of the claims of public journalism, the controversial movement aimed at getting the press to promote and indeed improve, not merely report on, the quality of public life. From leading contributors, original essays refine the terms of the debate by situating it within a broad cultural, historical and philosophical framework. Exploring the movement's promise as well as its problems, *The Idea of Public Journalism* sheds lights on issues of political power, freedom of expression, democratic participation and press responsibility. **Relating** Leslie A. Baxter, Barbara M. Montgomery, 1996-05-17. Drawing upon the dialogism of social theorist Mikhail Bakhtin, the authors reconceive the core ideas of interpersonal communication: relationship development, closeness, certainty, openness, communication competence and the boundaries between self, relationship and society. *JQ. Journalism Quarterly*, 1993.

Includes section Book reviews and other bibliographical material *Ethical Issues in the Communication Process* J. Vernon Jensen, 2013-11-05 A rapid and widespread growth of interest in applied ethics is occurring today not only in the United States but around the world as well Academia both reflects this and is a leader in the movement The field of speech communication shares in this increased sensitivity to ethical concerns Students and the general public are looking for thoughtful analyses and guidance in all areas of communication Ethical concerns relative to mass communication have been the subject of a number of books but only a very few cover the entire scope of communication to include interpersonal intercultural organizational small groups and public speaking This book tries to fill that need by discussing ethical concerns as they emerge in the areas of the communication process the communicator the message the media the audience and the situation The speech communication field now has a need to digest and synthesize the existing research findings and the general literature in the field and in related humanities and social science works into a coherent and nontechnical discussion This volume explores the most up to date materials to provide just such a synthesis An extensive bibliography at the end of the book gives readers the sources on which the book is based and offers ample avenues for further personal exploration The book should provide meaningful food for thought as readers grapple conscientiously with the many everyday decisions made in communication transactions and in evaluating the communication of others **Reforming Libel Law** John Soloski, 1992

Current libel law in the U S has proven problematic for plaintiffs and media alike From the plaintiff's perspective the law seems frustrating and unfair providing little opportunity to repair reputations from the media standpoint the high cost of litigation threatens to deter journalistic pursuit of controversial stories Over the last decade these problems have led legal scholars to propose comprehensive reforms Some of these proposals have been available to the limited readership of law reviews while others were published only in abbreviated form have been the subject of heated debate Presenting the most significant of these proposals complete and under one cover this volume makes the issues and controversies surrounding libel law reform accessible to a wide readership for the first time **New Books in the Communications Library**

Comparative Defamation and Privacy Law Andrew T. Kenyon, 2016-04-21 Defamation and privacy are now two central issues in media law While defamation law has long posed concerns for media publications the emergence of privacy as a legal challenge has been relatively recent in many common law jurisdictions outside the US A number of jurisdictions have seen recent defamation and privacy law reforms which have often drawn on or reacted against developments elsewhere This timely book examines topical issues in defamation and privacy law focused on media journalism and contemporary communication Aimed at a wide legal audience it brings together leading and emerging analysts of media law to address current and proposed reforms and the impact of changes in communication environments and to re examine basic principles

such as harm and free speech This book will be of interest to all those working on commonwealth or US law as well as comparative scholars from wider jurisdictions Current Publications in Legal and Related Fields ,1994 **Press Law in South Korea** Kyu Ho Youm,1996 This study examines the legal political and social framework of press freedom in South Korea It covers Korea s judicial system the constitution periodicals and broadcast statutes libel privacy national security access to information obscenity copyright and cable broadcasting *Recent Acquisitions* Ohio State University. College of Law. Library,1993 **Selected Acquisitions** Robert Crown Law Library,1992 **Regulating Broadcast Programming** Thomas G. Krattenmaker,1994 The authors argue that TV regulation should be based on the same principles used for print media for which control of editorial content lies in private hands rather than the government **More Speech, Not Less** Mark Sableman,1997 History can teach us many lessons and one is that freedom is not easily preserved If there are not voices like Mark Sableman and others to remind us of our heritage there will be a gradual erosion of our basic freedoms Paul Simon from the Foreword Communication and the Law W. Wat Hopkins,2002

Enjoying the Song of Phrase: An Mental Symphony within **Reforming Libel Law The Guilford Communication Series**

In a global consumed by screens and the ceaseless chatter of immediate transmission, the melodic elegance and mental symphony created by the prepared word usually fade in to the background, eclipsed by the relentless sound and interruptions that permeate our lives. But, nestled within the pages of **Reforming Libel Law The Guilford Communication Series** an enchanting literary treasure filled with fresh thoughts, lies an immersive symphony waiting to be embraced. Crafted by an outstanding composer of language, this captivating masterpiece conducts readers on a mental journey, skillfully unraveling the concealed songs and profound influence resonating within each cautiously crafted phrase. Within the depths of the emotional examination, we shall investigate the book is key harmonies, analyze its enthralling publishing model, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.

Reforming Libel Law The Guilford Communication Series Introduction

Reforming Libel Law The Guilford Communication Series Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Reforming Libel Law The Guilford Communication Series Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Reforming Libel Law The Guilford Communication Series : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Reforming Libel Law The Guilford Communication Series : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Reforming Libel Law The Guilford Communication Series Offers a diverse range of free eBooks across various genres. Reforming Libel Law The Guilford Communication Series Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Reforming Libel Law The Guilford Communication Series Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Reforming Libel Law The Guilford Communication Series, especially related to Reforming Libel Law The Guilford Communication Series, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Reforming Libel Law The Guilford Communication Series, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Reforming Libel Law The Guilford Communication Series books or magazines might include. Look for these in online stores or libraries. Remember that while Reforming Libel Law The Guilford Communication Series, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Reforming Libel Law The Guilford

Communication Series eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Reforming Libel Law The Guilford Communication Series full book, it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Reforming Libel Law The Guilford Communication Series eBooks, including some popular titles.

FAQs About Reforming Libel Law The Guilford Communication Series Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Reforming Libel Law The Guilford Communication Series is one of the best book in our library for free trial. We provide copy of Reforming Libel Law The Guilford Communication Series in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Reforming Libel Law The Guilford Communication Series. Where to download Reforming Libel Law The Guilford Communication Series online for free? Are you looking for Reforming Libel Law The Guilford Communication Series PDF? This is definitely going to save you time and cash in something you should think about.
