Good News for Common Goods Wes Markofski,2023 What is the relationship between evangelical Christianity and democracy in America In Good News for Common Goods sociologist Wes Markofski explores how multicultural evangelicals across the United States are addressing race poverty inequality politics and religious and cultural difference in America s increasingly plural and polarized public arena Based on extensive original research on multicultural evangelicals active in faith based community organizing community development political advocacy and public service organizations across the country including over 90 in depth interviews with racially diverse evangelical and non evangelical activists community leaders and neighborhood residents Markofski shows how the varieties of public religion practiced by evangelical Christians are not always bad news for non evangelicals people of color and those advancing ethical democracy in the United States Markofski argues that multicultural evangelicals can and do work with others across race class religious and political lines to achieve common good solutions to public problems and that they can do so without abandoning their own distinctive convictions and identities or demanding that others do so Just as ethical democracy calls for a more reflexive evangelicalism it also calls for a more reflexive secularism and progressivism

Beyond Bias Scott Krzych,2021 Beyond Bias offers the first scholarly study of contemporary right wing documentary film and video Drawing from contemporary work in political theory and psychoanalytic theory the book identifies what author Scott Krzych describes as the hysterical discourse prolific in conservative documentary in particular and right wing media more generally In its hysterical mode conservative media emphasizes form over content relies on the spectacle of debate to avoid substantive dialogue mimics the aesthetic devices of its opponents reduces complex political issues to moral dichotomies and relies on excessive displays of opinion to produce so much mediated noise as to drown out alternative perspectives or viewpoints Though often derided for its reliance on nonsense or hyperbole conservative media marshals incoherence as its prized aesthetic and rhetorical weapon a means to bolster the political status quo precisely by confusing those audiences who come into its orbit As a work of documentary studies Beyond Bias also places conservative non fiction films in conversation with their more conventional counterparts drawing insight from the manner by which conservative media hystericizes such issues as the archive observational methods directorial participation and the often moral imperatives by which documentary filmmakers attempt to offer insight into their subjects
