Secured Transactions By Lloyd:

Secured Transactions Richard E. Speidel, Robert S. Summers, James J. White, 1993 Lloyd's Register Staff Association Transactions 1933-1934 Lloyd's Register Foundation, 1933-01-01 The Lloyd's Register Technical Association LRTA was established in 1920 with the primary objective of sharing technical expertise and knowledge within Lloyd's Register. Publications have consistently been released on a yearly basis with a brief interruption between 1938 and 1946. These publications serve as a key reference point for best practices and were initially reserved for internal use to maximise LR's competitive advantage. Today the LRTA takes a fresh approach focusing on collaboration by combining professional expertise from across LRF Group to ensure a frequent output of fresh perspectives and relevant content. The LRTA has evolved into a Group-wide initiative that identifies, captures and shares knowledge spanning various business streams and functions. To support this modern approach, the LRTA has adopted a new structure featuring representatives and senior governance across the business streams and the LR Foundation. The Lloyd's Register Technical Association Papers should be seen as historical documents representing earlier viewpoints and are not reflective of current thinking and perspectives by the current LR Technical Association. The Lloyd's Register Staff Association LRSA changed its name to the Lloyd's Register Technical Association LRTA in 1973.

International Secured Transactions Law Orkun Akseli, 2011-03-17 This book focuses on international harmonisation and the law of secured transactions by distilling and analysing the unifying principles of various significant international conventions and instruments such as the UN Convention on the Assignment of Receivables, the Unidroit Convention on International Factoring, the EBRD Model Law on Secured Transactions, the Unidroit Convention on the International Interests in Mobile Equipment and the UNCITRAL Legislative Guide on Secured Transactions. International secured transactions conventions and instruments facilitate credit and promote economic activity through the creation of harmonised rules. Therefore, given the increasing globalisation of markets, international reform efforts for the harmonised modernisation of secured transactions law have gained pace over recent years. International Secured Transactions Law draws on experiences in both English and US laws in order to identify and illustrate the existing problems that need to be addressed as well as identify potential solutions. International Secured Transactions Law will be of interest to scholars, students interested in international commercial law, corporate law or comparative secured transactions and practitioners involved in international commercial transactions.
