Jung, 2014-12-18 The Practice of Psychotherapy brings together Jung's essays on general questions of analytic therapy and dream analysis It also contains his profoundly interesting parallel between the transference phenomena and alchemical processes The transference is illustrated and interpreted by means of a set of symbolic pictures and the bond between psychotherapist and patient is shown to be a function of the kinship libido Far from being pathological in its effects kinship libido has an essential role to play in the work of individuation and in establishing an organic society based on the psychic

connection of its members with one another and with their own roots *The Roots of Jewish Consciousness, Volume Two* Erich Neumann, 2019-04-24 *The Roots of Jewish Consciousness Volume Two* Hasidism is the second volume fully annotated of a major previously unpublished two part work by Erich Neumann 1905 1960 It was written between 1940 and 1945 after Neumann then a young philosopher and physician and freshly trained as a disciple of Jung fled Berlin to settle in Tel Aviv He finished this work at the end of World War II Although he never published it he kept it the rest of his life Volume Two Hasidism is devoted to the psychological and spiritual wisdom embodied in Jewish spiritual tradition Relying on Jung's concepts and Buber's Hasidic interpretations Neumann seeks alternatives to the legalism and anti feminine bias that he says have dominated collective Judaism since the Second Temple He argues that modern Jews can develop psychological wholeness through an appropriation of Hasidic legends Talmudic texts and Kabbalistic mysteries including especially the Zohar Exclusively this volume includes a foreword by Moshe Idel An appendix Neumann's four lecture series from the 1940s gives a glimpse of his intended unpublished Part Three These volumes anticipate Neumann's later works including *Depth Psychology* and *A New Ethic* The Origins and History of Consciousness and *The Great Mother* In Volume Two Hasidism his concept of the ego Self axis is developed in clearly psychological terms Four previously unpublished essays appended to Volume Two illustrate Neumann's developmental psychology including his theme of primary and secondary personalization This unique work will appeal to Jungian analysts and psychotherapists in training and in practice historians of psychology Jewish scholars biblical historians teachers of comparative religion as well as academics and students *Civilization in Transition* C. G. Jung, 2014-12-18 For this second edition of *Civilization in Transition* essential corrections have been made in the text and the bibliographical references have been brought up to date This volume contains essays bearing on the contemporary scene and in particular on the relation of the individual to society In the earliest one 1918 Jung advanced the theory that the European conflict was basically a psychological crisis originating in the collective unconscious of individuals He pursued this theory in papers written during the 20s and 30s focusing on the upheaval in Germany and he gave it a much wider application in two major works of his last years *DDL The Undiscovered Self* concerned with the relation between the individual and a mass society and *Flying Saucers* on the birth of a myth which Jung regarded as compensating the scientific trends of our technological era An appendix contains documents relating to Jung's association with the International General Medical Society for Psychotherapy *The Roots of Jewish Consciousness, Volume One* Erich Neumann, 2019-04-24 *The Roots of Jewish Consciousness Volume One* Revelation and Apocalypse is the first volume fully annotated of a major previously unpublished two part work by Erich Neumann 1905 1960 It was written between 1934 and 1940 after Neumann then a young philosopher and physician and freshly trained as a disciple of Jung fled Berlin to settle in Tel Aviv He finished the second volume of this work at the end of World War II Although he never published either volume he kept them the rest of his life The challenge of Jewish survival frames Neumann's work existentially This survival he insists must be psychological

and spiritual as much as physical In Volume One Revelation and Apocalypse he argues that modern Jews must relearn what ancient Jews once understood but lost during the Babylonian Exile that is the individual capacity to meet the sacred directly to receive revelation and to prophesy Neumann interprets scriptural and intertestamental apocalyptic literature through the lens of Jung's teaching and his reliance on the work of Jung is supplemented with references to Buber Rosenzweig and Auerbach Including a foreword by Nancy Swift Furlotti and editorial introduction by Ann Conrad Lammers readers of this volume can hold for the first time the unpublished work of Neumann with useful annotations and insights throughout These volumes anticipate Neumann's later works including Depth Psychology and a New Ethic The Origins and History of Consciousness and The Great Mother His signature contribution to analytical psychology the concept of the ego Self axis arises indirectly in Volume One folded into Neumann's theme of the tension between earth and YHWH This unique work will appeal to Jungian analysts and psychotherapists in training and in practice historians of psychology Jewish scholars biblical historians teachers of comparative religion as well as academics and students

Collected Works of C. G. Jung, Volume 10 C. G. Jung, 2024-03-19 Essays bearing on the contemporary scene and on the relation of the individual to society including papers written during the 1920s and 1930s focusing on the upheaval in Germany and two major works of Jung's last years The Undiscovered Self and Flying Saucers
