Urban Encounters Helen Liggett, 2003 American intellectuals tend to envision the modern city as a dystopia their perception of urban life influenced by negative stereotypes and fictional depictions in popular culture the author challenges this fatalism by approaching the city as a vibrant lived space Combining a sophisticated critique of the urban with striking street level images the author reclaims the human experience of the city

Mario Giacomelli Virginia Heckert, 2021-06-15 A new look at the work of Mario Giacomelli one of Italy's foremost photographers of the twentieth century Mario Giacomelli 1925 2000 was born into poverty and lived his entire life in Senigallia a seaside town along the Adriatic coast in Italy's Marche region He purchased his first camera in 1953 and quickly gained recognition for the raw expressiveness of his images His preference for grainy high contrast film and paper produced bold geometric compositions with glowing whites and deep blacks Giacomelli most frequently focused his camera on the people landscapes and seascapes of the Marche and he often spent several years expanding and reinterpreting a single body of work or repurposing an image made for one series for inclusion in another By applying titles derived from poetry and literature to his photographs he transformed ordinary subjects into meditations on time memory and existence Spanning the photographer's earliest pictures to those made in the final years of his life this publication celebrates the J Paul Getty Museum's extensive Giacomelli holdings formed in large part through a significant gift from Daniel Greenberg and Susan Steinhauser

Learning and Visual

Communication David Sless, 2019-02-21 Originally published in 1981 *Learning and Visual Communication* is about how to use visual communication in education. It offers visual forms of communication. In order to do this, it draws on recent research at the time of publication in psychology, philosophy, semiotics, cultural analysis, education, and media studies. Visual thinking, the key concept of the book, is defined in psychological and philosophical terms. It is placed in its cultural context, and it is argued that it has not received the attention that it deserves in our educational system, which is dominated by literacy and numeracy. This is despite the increasing use of visual communication as an aid to learning and as a source of basic data in a whole range of disciplines such as physical science, geography, history, and anthropology, amongst others. *Designed for Success* Janet Borgerson, Jonathan Schroeder, 2024-05-14 A charmingly illustrated history of midcentury instructional records and their untold contribution to the American narrative of self-improvement, aspiration, and success. For the midcentury Americans who wished to better their golf game through hypnosis, teach their parakeet to talk, or achieve sexual harmony in their marriage, the answers lay no further than the record player. In *Designed for Success*, Janet Borgerson and Jonathan Schroeder shed light on these endearingly earnest albums that contributed to a powerful American vision of personal success. Rescued from charity shops, record store cast-off bins, or forgotten boxes in attics and basements, these educational records reveal the American consumer's rich but sometimes surprising relationship to advertising, self-help, identity construction, and even aspects of transcendentalist thought. Relegated to obscurity and novelty instructional records such as *Secrets of Successful Varmint Calling*, *You Be a Disc Jockey*, and *How to Ski: A Living Room Guide for Beginners* offer distinct insights into midcentury media production and consumption. Tracing the history of instructional records from the inception of the recording industry to the height of their popularity, Borgerson and Schroeder offer close readings of the abundant topics covered by *Designed for Success* records. Complemented by over a hundred full-color illustrations, *Designed for Success* is a wonderfully nostalgic tour that showcases the essential role these vinyl records played as an unappreciated precursor to contemporary do-it-yourself culture and modern conceptions of self-improvement. *Visual Shock* Michael Kammen, 2009-04-22 In this lively narrative, award-winning author Michael Kammen presents a fascinating analysis of cutting-edge art and artists and their unique ability to both delight and provoke us. He illuminates America's obsession with public memorials and the changing role of art and museums in our society. From Thomas Eakins's 1875 masterpiece *The Gross Clinic*, considered too big, bold, and gory when first exhibited, to the bitter disputes about Maya Lin's Vietnam War Memorial, this is an eye-opening account of American art and the battles and controversies that it has ignited. **Arts Based Research** Tom Barone, Elliot W. Eisner, 2011-03-28 *Arts Based Research* is ideal for students, researchers, and practitioners. This unique book provides a framework for broadening the domain of qualitative inquiry in the social sciences by incorporating the arts as a means of better understanding and rethinking important social issues. In the book's 10 thought-provoking chapters, authors Tom Barone and Elliot W. Eisner, pioneers in the field, address key aspects of arts-based research.

including its purpose and fundamental ideas controversies that surround the field and the politics and ethics involved and key criteria for evaluation
