Educational Philosophy Edward J. Power, 2021-12-12 The first step in education's long road to respectability lay in the ability of its proponents to demonstrate that it was worthy of collaborating with traditional disciplines in the syllabus of higher learning The universities where the infant discipline of education was promoted benefited from scholars who engaged in teaching and research with enthusiasm and preached the gospel of scientific education These schools Teachers College Columbia University the University of Chicago and Stanford University gained a reputation as oases of pedagogical

knowledge Soon public and private colleges alike introduced professional academic programs for the preparation of teachers Foremost among the subjects for these programs was education philosophy with its long history and the impeccable credentials of its ancient and modern expositors Although the principal focus of this study is the history of educational philosophy in colleges and universities it also recognizes educational philosophy s antecedents Chapters cover ancient roots Christian educational theory educational theory and the modern world philosophy and education in early America development of philosophies of education disciplinary maturity for educational philosophy and prospects There is a bibliography and an index

The Moral Culture of the Scottish Enlightenment Thomas Ahnert,2015-01-27 In the Enlightenment it was often argued that moral conduct rather than adherence to theological doctrine was the true measure of religious belief Thomas Ahnert argues that this enlightened emphasis on conduct in religion relied less on arguments from reason alone than has been believed In fact Scottish Enlightenment champions advocated a practical program of moral culture in which revealed religion was of central importance Ahnert traces this to theological controversies going back as far as the Reformation concerning the conditions of salvation His findings present a new point of departure for all scholars interested in the intersection of religion and Enlightenment
