Adolescent Health Problems Jan Lance Wallander, Lawrence J. Siegel, 1995-08-11 Adolescence a dynamic period of physical and psychological growth presents young people with a variety of developmental challenges that can have a significant impact on health related behaviors Because adolescents exhibit distinct patterns of morbidity and mortality health practitioners are focusing increased attention on their unique health care needs ADOLESCENT HEALTH PROBLEMS BEHAVIORAL PERSPECTIVES edited by Jan L Wallander and Lawrence J Siegel presents the work of leading researchers who investigate the connections between health and behavior in both healthy and chronically ill adolescents Sponsored by the Society of Pediatric Psychology as part of the series Advances in Pediatric Psychology this ground breaking volume brings the literature of the field up to date providing vital theoretical and clinical findings with broad implications for health promotion in adolescence and beyond

No More Excuses Hispanic Dropout Project (U.S.), United States. Office of Bilingual Education and Minority Languages Affairs, 1998 *Handbook of Adolescent Death and Bereavement* David E. Balk, PhD, 2004-01-01 In this comprehensive handbook Charles Corr and David Balk improve our understanding of the challenges faced by adolescents when coping with death dying and bereavement The volume is organized into three parts Part I addresses specific issues involved in confrontations with death Part II focuses on the role of bereavement Part III explains specific therapeutic interventions for caregivers The authors introduce us to adolescence as a special time in the human life cycle a period quite separate from childhood and adulthood They establish normative adolescents and explain developmental tasks that are typical of early middle and late adolescence

U.S. Civil-military Relations Don M. Snider, Miranda A. Carlton-Carew, 1995 Parents, Children, and Adolescents Anne Marie Ambert, 2020-12-18 Parents Children and Adolescents presents an integrative perspective of the parent child relationship within several contexts You can expand your

empirical and theoretical knowledge of the parent child relationship and child development through the book's unusually holistic theoretical perspective that integrates three main frameworks: interactional theories on parents, children, and development; contextual ecological models; and behavior genetics. This insightful book's empirical scope is broader than that of most books in that it considers the parent child relationship throughout the life course as well as within a great variety of contexts including interactions with sibling and peers at school, in their neighborhoods, and with professionals. You'll gain immeasurable knowledge about parents' child rearing styles and how they are affected by environmental variables, the interaction between parents and children, and between their personalities. Behavior genetics is one of the explanatory frameworks for the role of genetics and environment in negative child outcomes, emotional problems, conduct disorders, and delinquency. Poverty and other stressors affecting parents and children, problematic, abusive, emotionally disturbed, alcoholic parents, siblings, and peers as contexts for the parent child dyad, the effect of the school system on the family, with a focus on minority families, family structure, divorce, remarriage, and families headed by never married mothers, adolescent mothers, and their own mothers, the psychogenetic limitations on parental influence, and cultural roadblocks to parental moral authority. Complete with an Instructor's Manual, *Parents, Children, and Adolescents* is ideal for advanced undergraduate and graduate classes in family studies and human development, sociology of the family, interdisciplinary developmental psychology, and social work classes that need a thorough perspective on the parent child relationship. Professionals and scholars in these fields seeking an interdisciplinary framework, as well as research suggestions and incisive critiques of traditional perspectives, will also find this innovative book a valuable addition to their reading lists.

Juvenile Crime and Justice
William J. Chambliss, 2011-05-03

The authors of the 20 chapters in *Juvenile Crime and Justice* address various hotly debated topics along three loosely connected themes: prevention, prosecution, and corrections. Each author presents arguments both in favor of and opposed to various treatments, programs, and punishments, examining issues such as youth curfews, juveniles in adult courts, legal representation for juveniles, juvenile boot camps, group homes, out of home placement, and more. The chapters included cover the leading arguments pertaining to key topics in this field and point out where more research needs to be done, which at present includes many of the most controversial issues in juvenile justice policy.

The Series The five brief issues based books in SAGE Reference's *Key Issues in Crime Punishment Series* offer examinations of controversial programs, practices, problems, or issues from varied perspectives. Volumes correspond to the five central subfields in the Criminal Justice curriculum: Crime, Criminal Behavior, Policing, The Courts, Corrections, and Juvenile Justice. Each volume consists of approximately 20 chapters offering succinct pro/con examinations, and Recommended Readings conclude each chapter, highlighting different approaches to or perspectives on the issue at hand. As a set, these volumes provide perfect reference support for students writing position papers in undergraduate courses spanning the Criminal Justice curriculum. Each title is approximately 350 pages in length.
