Lost Fields:

Structure of Typical American Oil Fields American Association of Petroleum Geologists, 1929 **Lost Fields** Michael McLaverty, 1980 *Geology and Technology of the California Oil Fields* Ralph Arnold, Valentin R. Garfias, 1914 Alcohol in the Movies, 1898-1962 Judy Cornes, 2006-10-03 A 1906 film called *The Dream of a Rarebit Fiend* shows a man drinking and eating voraciously at a restaurant then going home to bed In the surreal scenes that follow furniture disappears tiny devils poke the man's head with pitchforks and his bed hurls itself out the window and across the city But it wasn't commentary on drinking rather it was a showcase of early special effects double exposure photography panning shots and montage Turn of the century films typically treated drinking as a subject for comedy and ridicule and the comic possibilities translated well into silent movies As talkies developed and the film industry matured alcohol's portrayal was reflected in the times prohibition the Great Depression the war years and as social commentary Here is a study of 64 years of alcohol as portrayed in film The author begins with the appearance in 1898 of what is probably the first commercial a 30 second film of men in kilts dancing and the words Scotch Whiskey appearing in the background The final film is 1962's *Days of Wine and Roses* which addresses alcoholism The author includes a film from each decade those with artistic or historical value those that represent the comedy drama and musical genres and well known pictures such as *The Lost Weekend* and *A Star Is Born* The first three chapters cover 1903 to 1939 The remaining chapters follow not a timeline but the growing complexity of the movies A recurring motif is the use of the term white logic a phrase used by writer Jack London in his 1913 memoir *John Barleycorn* It refers to disillusionment with everyday life brought on by and exacerbated by alcohol An annotated filmography lists the date source and other relevant information about movies in this study Undiscovered Petroleum and Mineral Resources Lawrence J. Drew, 2013-12-20 This book has been written as a guide to the management and use of formulated feeds in intensive fish and shrimp culture While its focus is on the use of commercially produced feeds in intensive production systems it is anticipated that many of the practical issues covered will be of equal interest to those fish farmers who make their own feeds and to those who use formulated feeds in less intensive systems Feeds and feeding are the major variable operating costs in intensive aquaculture and the book is primarily intended to aid decision making by fish farm managers in areas of feeding policy The dramatic increases in aquaculture production seen over the past 15 years have been made possible in large part by gains in our understanding of the food and feeding requirements of key fish and shrimp species A global aquaculture feeds industry has developed and a wide range of specialist feeds is now sold The new options in feeds and feeding systems which are becoming available necessitate continual review by farmers of their feeding policies where choices must be made as to appropriate feed types and feeding methods While growth rates and feed conversion values are the prime factors of interest to farmers other important issues such as product quality and environmental impacts of farm effluents are also directly related to feed management practices Developments in Field Theory for

Psychotherapists, Psychoanalysts and Counsellors Robert Snell, Richard Morgan-Jones, Del Loewenthal, 2023-09-12 This book explores developments in psychoanalytic field theory internationally and their relevance for therapeutic theory and practice The roots of psychoanalytic field theory can be traced back to the work of Kurt Lewin and it has taken particular shape in the hands of the Barangers Bion and Ferro The book s focus is on developments in field theory post Bion Post Bionian Field Theory in Italy with contributions from Brazil Serbia and the USA in the form of chapters by Boffito Civitarese Fagundes Levine Mazzacane Mojovi Morgan Jones and Snell and Penna and Hopper Among the themes the book explores are the transformative potentials of play and the centrality of dreaming The book is informed by a psychoanalysis not so much of decoding and archeological uncovering as one of being and becoming within a shared field in which therapist and patient are partners in creating exploring and developing The chapter by Mojov c and the commentary by Penna and Hopper extend the use of field theory in other historical and geographical developments field theory and group analysis have productively been brought together notably in Argentina where the two are most closely linked This book will be essential reading for students and scholars of Psychology and Psychotherapy interested in field theory and contemporary psychoanalysis The chapters in this book were originally published as a special issue of European Journal of Psychotherapy and Counselling

Writing Apache Modules with Perl and C Lincoln Stein, Doug MacEachern, 1999 Apache is the most popular web server on the Internet because it is free reliable and extensible The availability of the source code and the modular design of Apache makes it possible to extend web server functionality through the Apache API For the most part however the Apache API has only been available to C programmers and requires rebuilding the Apache server from source mod_perl the popular Apache module used primarily for enhanced CGI performance changed all that by making the Apache API available to Perl programmers With mod_perl it becomes simple to develop Apache modules with Perl and install them without having to rebuild the web server Writing Apache Modules with Perl and C shows how to extend web server capabilities regardless of whether the programming language is Perl or C The book explains the design of Apache mod_perl and the Apache API It then demonstrates how to use them to perform for tasks like the following Rewriting CGI scripts as Apache modules to vastly improve performance Server side filtering of HTML documents to embed special markup or code much like SSI Enhancing server log functionality Converting file formats on the fly Implementing dynamic navigation bars Incorporating database access into CGI scripts Customizing access control and authorization to block robots or to use an external database for passwords The authors are Lincoln Stein and Doug MacEachern Lincoln is the successful author of How to Set Up and Maintain a World Wide web Site and the developer of the widely used Perl CGI pm module Doug is a consultant and the creator of the innovative mod_perl Apache module

Country Women Cope with Hard Times Melissa A. Walker, 2012-10-15 Rare glimpses into the hardscrabble lives of rural Southern women and a model for oral history practice It was hard times French Carpenter Clark recalls a sentiment unanimously echoed by the sixteen other women who talk about their lives in *Country Women Cope with Hard Times* Born between 1890 and 1940 in eastern Tennessee and western South Carolina these women grew up on farms in labor camps and in remote towns during an era when the region's agricultural system changed dramatically As daughters and wives they milked cows raised livestock planted and harvested crops worked in textile mills sold butter and eggs preserved food made cloth sewed clothes and practiced remarkable resourcefulness Their recollections paint a vivid picture of rural life in the first half of the twentieth century for a class of women underrepresented in historical accounts Through her edited interviews with these women Melissa Walker provides firsthand descriptions of the influence of modernization on ordinary people struggling through the agricultural depression of the 1920s and 1930s and its aftermath Their oral histories make plain the challenges such women faced and the self sacrificing ways they found to confront hardship While the women detail the difficulties of their existence the drought years early freezes low crop prices and tenant farming they also recall the good times and the neighborly assistance of well developed mutual aid networks of which women were the primary participants

Under The Blade Thomas Lyson, 2018-05-04 *Under the Blade: The Conversion of Agricultural Landscapes* examines the patterns causes and consequences of current land use decisions in the United States particularly the conversion of farmland to housing roads and other development Changes in land use are the result of complex interactions among law economics landscape characteristics social and political forces ethics and aesthetics By examining farmland loss from each of these perspectives and then integrating the results into policy recommendations *Under the Blade* makes an important contribution to the ongoing debate on the optimal use of a finite resource land In 1998 the last farm in Des Plaines Illinois was subdivided Seven acres along the Niobrara River in north central Nebraska sold for USD5700 per acre twenty times the price for agricultural use Waukesha County Wisconsin although still largely in agriculture has been almost entirely zoned for small lot subdivisions Nationwide the cumulative effect of thousands of individual land use decisions is an orgiastic devouring of the countryside that consumes at least 1.4 million acres of rural land each year and fragments a much larger area The effects on landscape functions include loss of agricultural production water pollution increases in local runoff and flooding loss of habitat and biodiversity and the loss of natural beauty In exchange we get malls retail strips and an ugly sprawl that degrades people and community How have we come to this and more importantly how might we find a better sustainable approach to the use of land Land use decisions are the result of complex interactions among law economics landscape characteristics population growth social and political forces ethics and aesthetics *Under the Blade: The Conversion*

of Agricultural Landscapes examines the loss of farmland and other rural lands from each of these perspectives and shows how interactions among different factors greatly complicate sustainable land management Included throughout the seven main chapters of the book are descriptions of some of the tools and strategies that can be used to preserve farmland and guide development The application of these tools is illustrated by 22 case studies of towns and regions throughout the United States each with a somewhat different challenge response and degree of success or failure Dietrich Bonhoeffer a Protestant theologian hanged by the Nazis in 1945 stated that the ultimate test of a moral society is the kind of world that it leaves to its children Our current choices in the use of the land are among the most important factors shaping that future world and Under the Blade demonstrates that the quality of that future is far from certain *Fires in the Dark* Kay Redfield Jamison,2024-05-14 The acclaimed author of *An Unquiet Mind* considers the age old quest for relief from psychological pain and the role of the exceptional healer in the journey back to health To treat even to cure is not always to heal In this expansive cultural history of the treatment and healing of mental suffering Kay Jamison writes about psychotherapy what makes a great healer and the role of imagination and memory in regenerating the mind From the trauma of the battlefields of the twentieth century to those who are grieving depressed or with otherwise unquiet minds to her own experience with bipolar illness Jamison demonstrates how remarkable psychotherapy and other treatments can be when done well She argues that not only patients but doctors must be healed She draws on the example of W H R Rivers the renowned psychiatrist who treated poet Siegfried Sassoon and other World War I soldiers and discusses the long history of physical treatments for mental illness as well as the ancient and modern importance of religion ritual and myth in healing the mind She looks at the vital role of artists and writers as well as exemplary figures such as Paul Robeson who have helped to heal us as a people *Fires in the Dark* is a beautiful meditation on the quest and adventure of healing the mind on the power of accompaniment and the necessity for knowledge **Agricultural Gazette of Canada** Canada. Department of Agriculture,1920 ePro Brian Tiplady,2016-05-13 Patient self reported data has become increasingly important in today s clinical trials Trials in some disease indications rely upon patient recorded diary data as the primary endpoint to demonstrate drug efficacy including for example indications such as insomnia migraine and pain In addition improvements in quality of life measured using patient questionnaires can now be included as claims on drug labelling Traditionally these data have been collected using paper questionnaires and diaries issued to subjects Regulators and the industry have become increasingly aware of the limitations of recording patient reported outcomes data on paper including data quality and integrity issues As a result there is a growing interest in collection of patient reported outcomes data using electronic means ePRO Solutions include handheld PDAs Interactive Voice Response IVR systems and other site based hardware such as touchscreen PCs Recently there has been much open debate with the regulators around the use of ePRO in clinical drug submissions US and European agencies have approved new drugs that have included ePRO data in the submission dossier but there are many questions around the

adoption of the technology that concern the community These include How should instruments developed on paper be adapted for electronic use and what degree of validation should be done between paper and electronic forms How can researchers ensure they are complying with regulatory requirements including the PRO guidance published by FDA in 2009 when using ePRO solutions Can fewer patients be exposed in a clinical trial as a result of improved data quality obtained using electronic diaries What type of solution should be used for certain patient populations and protocols and how can ePRO solutions be designed optimally to increase patient acceptability and compliance Bill Byrom and Brian Tiplady s ePro addresses all these issues reviews the new FDA guidance and provides a very contemporary view on this important subject
