the fact that we believe we cannot control or affect the societal economic and political structures around us From climate change to nuclear war white nationalism to the worship of wealth and conspicuous consumption as the future becomes seemingly less secure Americans turn away from the public sphere and find shelter in the private Essig argues that when we do this we allow romance to blind us to the real work that needs to be done building global movements that inspire a change in government policies to address economic and social inequality

From My Mess to His Message Christopher

Sparks,2018-02-19 We all have messes in our lives Some are big ones and some are small ones Some we make with our choices some are made for us by others or by sickness This book is the result of the mess I created with my sin I found my life turned upside down I was locked up in prison without my freedom I disgraced my family I drove my friends away and I had lost my job I hit bottom and I finally realized that I needed a savior I cried out to God to take back control over my life Once I did that I needed a place to start and God lead me straight to His word The devotions you will find on the pages of this book are the very words God gave me as He gave them to me They are His messages of hope and salvation to a hurting child that He loves He carried me through that season of my life No matter what it is you are going through in your life as you read the pages of this book you will feel the overwhelming love and care Jesus has for you Day after day the words He shares with you will heal you and clean up those messes you made by doing it without Him God will get so much glory as we walk together watching Him turn your messes into His messages He did it for me I Know He will do it for you too *Liguorian* ,1963

Hatreds We Love Stephen J. Ducat,2024-06-25 An in depth psychological anthropological neuroscientific and historical look at MAGA Republicans and the American Far Right Fueled by conspiracy thinking and a growing indifference to facts some Americans especially on the Right are increasingly seeing their fellow citizens as threats that must be eliminated We are witnessing an epidemic of domestic terrorism with a rapidly accumulating body count This may be the most serious challenge to the integrity of the United States since the Confederate insurrectionists launched their assault on Fort Sumpter in 1861 While an in depth psychological reading of political events Hatreds We Love The Psychology of Political Tribalism in Post Truth America is grounded in the scholarship and insights of social psychologists anthropologists historians psychoanalysts neuroscientists and the many intrepid journalists increasingly threatened by authoritarians who have good reasons to fear truthful reporting And of course author Stephen J Ducat draws on his own experiences visions and values A major topic addressed in the book is the malignant mindset animating MAGA neo fascism s zealous partisans Donald Trump s fortunes may fade in the coming months and years but Trumpism will likely remain ascendant Of course xenophobic bigotry violent aversion to democracy political cults of personality and indifference to facts are global phenomena and not limited to the United States But America plays a prominent role even abroad In December 2022 it was revealed that a right wing coup attempt in Germany was to some extent modeled on America s own post election insurrection which was planned and executed by the paramilitary wing of the MAGA movement That German episode was not the first time that the actions of American anti democratic and white supremacist groups became the template for similar efforts worldwide In the 1930s German fascists looked to America as a blueprint for implementing race based tribalism Hitler so admired Jim Crow laws in the United States especially concerning citizenship and anti miscegenation laws that he sent a team of legal scholars to study their statutory framework for addressing the problem of racial pollution While the Nazis initially found a lot to love and incorporate into the Nuremberg Laws they ironically rejected much of the American model as too harsh Many pundits have

decried the extremism of Trumpian lynch mob politics On the contrary Hatreds We Love argues that it is contiguous with the long history of American conservatism going back at least to the antebellum South From this perspective the worldview and actions of the GOP's MAGA faction are the logical outcomes of the consistently expressed right wing ethos of domination xenophobia and the freedom to harm Although there is much handwringing about the toxic synergy of authoritarian political forces white identity politics and the embrace of post factuality there is insufficient understanding of the links between them Chief among those links is tribal psychology Nearly every political pundit decries political tribalism Yet public discussion rarely addresses more than its most disturbing symptoms Hatreds We Love speaks to the causes and underlying dynamics of what is now one of the greatest threats to the viability of what remains of American democracy and global democratic governance more broadly
