Lovable Losers Mikael S. Adolphson, Anne Commons, 2015-09-30 *Lovable Losers* is the first substantial piece of English language scholarship to examine the actions and the memorization of the Heike Isse Taira a family of aristocratic warriors whose resounding defeat at the hands of the Seiwa Genji in 1185 resulted in their iconic status as tragic losers. The Tale of the Heike and the many other works derived from it set in place the depiction of the Heike as failed upstart aristocrats whose spectacular downfall was due to neglect of their warrior heritage and the villainy of the family head Taira no Kiyomori. *Lovable Losers* aims to contextualize and deconstruct representations of the Heike not only to show how such representations were created in specific contexts in response to specific needs but also to demonstrate that the representations themselves came to create and sustain a particular kind of culture. Drawing on the expertise of scholars in a variety of disciplines this volume explores the Heike in their own time and their depiction as cultural figures in the centuries that followed. Their portrayal in literature and the arts spans more than eight hundred years and a wide range of genres and media including plays picture scrolls early modern comic books novels and film. In texts from the sixteenth to twentieth centuries the Heike serve as catalysts for miracles and vectors for subtle criticisms of the Tokugawa government. Over time Kiyomori became an emblem of postwar democracy and economic progress today he is a powerful symbol of modern citizens dissatisfaction with politics. The Heike's ambiguous moral standing allowed them to be reimagined reconstructed and repurposed by different authors in different contexts as both heroes and villains. Rather than assuming their failure *Lovable Losers* repositions the Heike within the larger phenomenon of the Genpei War and its aftermath demonstrating how they took advantage of their station as nobles and warriors. The new research it presents seeks to transcend categorization and blur the lines between different approaches to the Heike to give a well rounded depiction of a family who has played a defining role in Japanese culture in action in memory and somewhere in between.

Two Buddhas Seated Side by Side Donald S. Lopez, Jr., Jacqueline I. Stone, 2022-01-11 An essential companion to a timeless spiritual classic The Lotus Sutra is among the most venerated scriptures of Buddhism Composed in India some two millennia ago it asserts the potential for all beings to attain supreme enlightenment Donald Lopez and Jacqueline Stone provide an essential reading companion to this inspiring yet enigmatic masterpiece explaining how it was understood by its compilers in India and

centuries later in medieval Japan by one of its most influential proponents In this illuminating chapter by chapter guide Lopez and Stone show how the s tra s anonymous authors skillfully reframed the mainstream Buddhist tradition in light of a new vision of the path and the person of the Buddha himself and examine how the s tra s metaphors parables and other literary devices worked to legitimate that vision They go on to explore how the Lotus was interpreted by the Japanese Buddhist master Nichiren 1222 1282 whose inspired reading of the book helped to redefine modern Buddhism In doing so Lopez and Stone demonstrate how readers of sacred works continually reinterpret them in light of their own unique circumstances An invaluable guide to an incomparable spiritual classic this book unlocks the teachings of the Lotus for modern readers while providing insights into the central importance of commentary as the vehicle by which ancient writings are given contemporary meaning

Precepts, Ordinations, and Practice in Medieval Japanese Tendai Paul Groner, 2022-07-31 Modern Japanese Buddhist monks of all denominations differ from those in other Asian countries because they frequently marry drink alcohol and eat meat This has caused Buddhist scholars and practitioners generally to assume that early Japanese monastics had little interest in precepts and ordinations Some medieval Japanese exegetes however were obsessively concerned with these topics as they strove to understand what it meant to be a Buddhist This landmark collection of essays by Paul Groner one of the leading authorities on Tendai Buddhism examines the medieval Tendai School which dominated Japanese Buddhism at that time to uncover the differences in understanding and interpreting monastic precepts and ordinations Rather than provide an unbroken narrative account made virtually impossible due to the number of undated apocryphal texts and those lost in the numerous fires and warfare that beset Tendai temples as well as the difficulties of tracing how texts were used Groner employs a multifaceted approach focusing on individual monks texts ceremonies exegetical problems and institutional issues Early chapters look at a

major source of Tendai precepts the apocryphal Brahma's Net Sutra the Tendai scholar Annen's b 841 interpretations of the universal bodhisattva precept ordination and the historical background of his commentary on the subject Tendai perfect sudden precepts and the Vinaya and the role of confession in the bodhisattva ordination Groner goes on to discuss the Lotus Sutra another key text for Tendai precepts and the monk Ken 1262-1317 and his role in developing the consecrated ordination which is still performed today Later essays introduce Jitsudō Nink's 1307-1388 system of training by doctrinal debate and his commentary on ordinations doctrinal discussions of killing and Tendai discussions among several lineages on whether the precepts can be lost or violated Many of the issues discussed in the volume particularly how to distinguish various types of Buddhist practitioners and how to conduct ordinations continue to preoccupy Tendai monks centuries later The book concludes with an examination of the effects of early Tendai precepts on modern practice

Doctrine and Practice in Medieval Korean Buddhism, 2016-11-30 ich'n 1055-1101 is recognized as a Buddhist master of great stature in the East Asian tradition Born a prince in the medieval Korean state of Koryŏ 960-1279 he traveled to Song China 960-1279 to study Buddhism and later compiled and published the first collection of East Asian exegetical texts According to the received scholarly tradition after returning to Korea ich'n left the Hwa-m Huayan school to found a new Ch'nt'aek Tiantai school when he realized that the synthesis between doctrinal learning and meditative practice in the latter would help bring together the discordant sects of Koryŏ Buddhism In the late twentieth century however scholars began to question the assertion that ich'n forsook one school for another arguing that his writings assembled in The Collected Works of State Preceptor Taegak Taegak kuksa munjip do not portray a committed sectarian but

a monk dedicated to developing a sophisticated and rigorous system of monastic education that encompassed all Buddhist intellectual traditions In this first comprehensive study of ich n s life and work in English Richard McBride presents translations of select lectures letters essays and poetry from The Collected Works to provide a more balanced view of ich n s philosophy of life and understanding of key Buddhist teachings The translations center on the monk s activities in the pan East Asian Buddhist world and his compilation of scholarly texts writings related to his interactions with royalty and correspondence with his Chinese mentor Jinshui Jingyuan 1011 1088 By incorporating ich n s work associated with doctrinal Buddhism and his poetry McBride clearly shows that even in his most personal work ich n did not abandon Hwa m teachings for those of the Ch nt ae but rather he encouraged monks to blend the best learning from all doctrinal traditions with meditative practice

The Star Spangled Buddhist Jeffrey Ourvan, 2013-06-01 Approximately four million Americans claim to be Buddhist Moreover hundreds of thousands of Americans of various faiths read about Buddhism are interested in its philosophical tenets or fashionably view themselves as Buddhists They re part of what s been described as the fastest growing religious movement in America a large group of people dissatisfied with traditional religious offerings and thirsty for an approach to spirituality grounded in logic and consistent with scientific knowledge The Star Spangled Buddhist is a provocative look at these American Buddhists through their three largest movements in the United States the Soka Gakkai International Tibetan Vajrayana Buddhism and Zen Buddhism The practice of each of these American schools unlike most traditional Asian Buddhist sects is grounded in the notion that all people are capable of attaining enlightenment in this lifetime But the differences are also profound the spectrum of philosophical expression among these American Buddhist schools is as varied as that observed between Reformed Orthodox and Hasidic Judaism The Star Spangled Buddhist isn t written from the perspective of a monk or academic but rather from the view of author Jeff Ourvan a lifelong practicing lay Buddhist As Ourvan explores the American Buddhist movement through its most popular schools he arrives at a clearer understanding for himself and the reader about what it means to be and how one might choose to be a Buddhist in America

The Buddha's Footprint Johan Elverskog, 2020-01-24 A corrective to the contemporary idea that Buddhism has always been an environmentally friendly religion In the current popular imagination Buddhism is often understood to be a religion

intrinsically concerned with the environment The Dharma the name given to Buddhist teachings by Buddhists states that all things are interconnected Therefore Buddhists are perceived as extending compassion beyond people and animals to include plants and the earth itself out of a concern for the total living environment In The Buddha's Footprint Johan Elverskog contends that only by jettisoning this contemporary image of Buddhism as a purely ascetic and apolitical tradition of contemplation can we see the true nature of the Dharma According to Elverskog Buddhism is in fact an expansive religious and political system premised on generating wealth through the exploitation of natural resources Elverskog surveys the expansion of Buddhism across Asia in the period between 500 BCE and 1500 CE when Buddhist institutions were built from Iran and Azerbaijan in the west to Kazakhstan and Siberia in the north Japan in the east and Sri Lanka and Indonesia in the south He examines the prosperity theology at the heart of the Dharma that declared riches to be a sign of good karma and the means by which spiritual status could be elevated through donations bequeathed to Buddhist institutions He demonstrates how this scriptural tradition propelled Buddhists to seek wealth and power across Asia and to exploit both the people and the environment Elverskog shows the ways in which Buddhist expansion not only entailed the displacement of local gods and myths with those of the Dharma as was the case with Christianity and Islam but also involved fundamentally transforming earlier social and political structures and networks of economic exchange The Buddha's Footprint argues that the institutionalization of the Dharma was intimately connected to agricultural expansion resource extraction deforestation urbanization and the monumentalization of Buddhism itself
